DOCTOR ORDERS RESINOL FOR BAD RINGWORM

New York, March 9, 1914: "A rash formed on my forehead and commenced spreading. It was a ringworm. The itching and burning which I endured for four months before I commenced using Resinol Soap and Resinol Ointment were terrible. All my classmates kept away from me in fear that they would catch it. I used every home remedy I could think of, but with no success. My family doctor advised me to use Resinol Soap and Resinol Ointment. The moment I applied them I felt a cooling sensation which was lasting—the relief was quick. I used two jars of Resinol Ointment and Resinol Soap, and was finally rid of the pest. Today there isn't a single mark to show where I had the disease." (Signed) M. G. Ross, 213 Church St. Resinol Ointment and Resinol Soap are also especially effective for eczema, pimples, blackheads, dandruff, sores and many forms of piles. Sold by all druggists. For trial free, write to Dept. 27-R, Resinol, Baltimore, Md.

Celebrate Fourth in Northernmost City in World

His celebration of the Fourth of July in the northernmost city in the world, Tronso, Norway, is told in a letter from Leo Boucher to his father, Dr. F. H. Boucher, of this city.

Young Boucher left a few months ago for Spitzbergen to enter the employ of the Arctic Coal Company as a mining engineer. The young man was delayed six weeks in sailing from Tronso, because the company's freighter, which was to bear him and his companions to Spitzbergen, was caught in an ice floe in the Arctic ocean. The delay kept Boucher and his American friends in Tronso over the Fourth, and there they celebrated their country's natal day in true American style. Mr. Boucher writes that the Norwegians helped in the celebration, and that a bevy of pretty Norwegian girls displayed a large American flag in honor of the young men.

Mr. Boucher and his companions left Tronso on July 5, and landed at Spitzbergen three days later.

"Gets-It" for Corns Sure as Sunrise

New Plan. Corns Shrivels, Vanishes. Until "GETS-IT" was born nobody was ever sure of getting rid of a corn. Corn treatments nearly all contained the same ingredients, only some were

liquid, some plasters, some "wrappers" and some in salve form. Now comes "GETS-IT" with a newly discovered formula—the corn cure on a new principle and a simple plan that never fails. This is why "GETS-IT" has grown in three years to be the biggest-selling corn cure the world has ever known.

There's no more need of fussing with corns, no more digging to press down on the corn, nothing to inflame the flesh, to "pull" the corn or cause pain. Put two drops of "GETS-IT" on in two seconds. That's all. For any corn callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

"GETS-IT" is sold in Marshalltown by McBride & Will Drug Company, Peter Mayer & Son, Henry C. Sleg, Belnet Drug Company.
