LIVERPOOL ADVANCE LIFTS WHEAT VALUES

ASSERTIONS THAT EUROPE WILL REDUCE IMPORTS MAKE BULLS CAUTIOUS.

ARGENTINA HARVEST SAID TO SHOW GOOD PROGRESS

Corn Shows Tendency to Sag, Bear Argument Being That Receipts Are Too Heavy For Current Requirements—Scantiness of Offerings Help to Steady Oats.

Chicago, Dec. 4.—Wheat developed fresh strength today owing to a continued advance in prices at Liverpool. The bulls were made cautious, however by assertions in Europe that imports from the United States would be gradually reduced to 4,000,000 bushels annually. Besides the Argentine harvest was said to be making excellent progress. After opening 1/4 to 1/2 higher, the market scored a moderate new upturn.

HOG PRICES TAKE DECIDED UP-SWING

ADVANCE DUE TO MATERIAL FALLING OFF IN RECEIPTS EVERYWHERE.

ARRIVALS IN CHICAGO AND WESTERN MARKET LIGHT

Cattle Values Feel Influence of Lessened Arrivals—Demand For Sheep and Lambs Wanes as Trading Advances—Current Quotations at Livestock Centers.

Chicago, Dec. 4.—Hog prices took a decided upward swing today on account of a big falling off in receipts here and at other western centers. During the first four days of the week there have been about 204,200 hogs received at Chicago, being 105,100 more than same days last week, 41,000 more than a year ago and 49,300 more than arrivals for corresponding period two years ago. At the present rate of arrivals there will be over a quarter of a million hogs received at Chicago this week. Wednesday's run included about 4,000 hogs to packers direct from other markets. Shippers are getting back in the trade and taking fair numbers of hogs, which helps the trade in the free area, from where shipments can be made.

Cattle.

Cattle quotations felt the influence of lessened arrivals. That the present quarantine market system is not giving unqualified satisfaction is a well-known fact, and a practically unanimous opinion exists in trade circles that the best interests of the industry would be promoted by limiting the marketward movement to stock from clean areas; in other words, establishing a country unit quarantine.

The trade can not understand why live stock that has been subjected to critical federal inspection is not eligible to the shipping outlet for immediate slaughter, regardless of whether its destination is a plant under federal inspection or otherwise. If the inspection here is not sufficient to permit establishments in trade circles that the best interests of the industry would be promoted by limiting the marketward movement to stock from clean areas; in other words, establishing a country unit quarantine.
