

CASCARETS FOR COSTIVE BOWELS, HEADACHE, COLDS

TO-NIGHT! CLEAN YOUR BOWELS AND STOP HEADACHE, COLDS, SOUR STOMACH.

Get a 10 cent box now. Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

Try this easy way to heal your skin with Resinol

If you are suffering from eczema, ringworm or similar itching, red, unsightly skin affection, bathe the sore places with Resinol Soap and hot water, then gently apply a little Resinol Ointment. You will be astonished how instantly the itching stops and healing begins. In most cases the sick skin quickly becomes clear and healthy again, at very little cost.

Resinol Ointment and Resinol Soap also cleanse similar itchy and sore skin. Sold by all druggists. For trial free, write to Resinol, Dept. 2-S, Baltimore, Md.

CONSOLIDATION AT BEAMAN CARRIES

FOUR INDEPENDENT DISTRICTS TAKEN IN, INCLUDING ONE IN VIENNA TOWNSHIP.

CONSOLIDATION FAILS TO MEET GIFT REQUIREMENTS

Falls Short of Mark Set by H. H. Beaman, of This City, Who Offered Forty Acres of Valuable Land if Five Districts Were Consolidated—May Get Land by Taking in Another District.

Beaman voters, and those of school districts adjoining the town and close by, including one in Vienna township, this county, made a second attempt to form a consolidated school district Saturday, and succeeded. Although successful, the consolidation does not comply with the conditions necessary to obtain the forty acres of valuable land offered by H. H. Beaman, of this city, for a consolidation of five districts.

The consolidation comprises only four districts. In this respect it falls short of Mr. Beaman's requirements. He said this forenoon that the consolidation did not fulfill the conditions of his offer, but that later the district might arrange to take in another independent district.

Vote Emphatic Approval. The vote for the consolidation was an emphatic approval of consolidation. It was 139 for to 39 against. In the town of Beaman 90 voted for consolidation to 2 against it. In the four county school districts the vote was 40 for, and 23 against.

The territory taken in, in addition to the Beaman district, which is No. 8 of Clay township, were districts 5 and 7, Clay township, and No. 2, Vienna township. The territory comprises sixteen sections.

At an election held Wednesday, Feb. 3, the proposal to consolidate six independent districts failed to carry by one vote. In the second plan to consolidate two districts, No. 2, Clay township, Grundy county, and No. 5, Vienna township, this county, were eliminated. Districts No. 2, Vienna township, comprises four sections and is a mile or two directly south of the town of Beaman.

In addition to requiring that the consolidated district comprise five independent districts, it must build a twelve grade school, and the course of study must include domestic science and agriculture. The forty acres which are estimated to be worth \$3,000 or \$10,000, were intended chiefly for the use of the schools for experimental purposes in teaching agriculture.

NEW LIBRARY BOOKS.

Works of Travel, Social Science and Education Added to Shelves. Books of travel, social science and education have been added to the public library. These of the travel section follow:

- Clarke—Hawthorne's Country. Clarke—Longfellow's Country. Crawford—Thinking Black. Singleton—Switzerland as Described by Great Writers. Webb—Switzerland of the Swiss. Kuhns—Switzerland. Greely—Handbook of Alaska. Beys—Two Americas. Townsend—Labrador Spring. Ridger—Wanderer's Trail. Studley—Journal of Sporting Nornad. Gordon—Round About the North Pole. Cox—Divisions of a Diplomat in Turkey. Harding—In Remotest Barotseland. Hawthorne—Journal of an African Cruiser. Lait—Thru Our Unknown Southwest. Holt—Morocco, the Bizarre. Enock—Equador. Hardy and Edington—Savage South Seas. Those on social science and education are as follows: Wickware—American Year Book. Benson—Truth About Socialism. Elliot—Some Rads Toward Peace. Ogg—Governments of Europe. Scott—Banking. Taylor—Man Behind the Bars. Rice—Neighbors. Graham—With Poor Immigrants to America. Gillin—Poor Relief Legislation in Iowa.

"The School and the Child." An unusually interesting meeting of the Glick Mothers' Club was held Friday afternoon at the Glick school and was attended by seventy members of the different mothers' clubs of the city. E. J. Ashbaugh, of the Iowa extension bureau of the State University of Iowa, acted as the speaker. The school and the child was the subject of the lecture by the City Federation of Women's Clubs.

Professor Ashbaugh's subject was of deep interest to every mother present, and his talk was instructive. He strongly advocated the advisability of the mother visiting the school and the teacher visiting at the homes of the pupils. He also said it was the duty of the mother to see that the child attended school regularly, and that the child did his school work as the teacher directed, in order to get the good results that the schools of today afford the pupil.

After the lecture Mrs. L. S. Brown sang two songs, Maurice Whitaker played two piano numbers, and the

BIRD FRIENDS IN OUR DOOR YARDS—WHO THEY ARE AND HOW THEY LIVE

THE CARDINAL. By Ira N. Gabrielson.

The most brilliantly-colored resident bird that we have in Marshalltown is the bird rendered famous by the works of Gene Stratton Porter, in "The Song of the Cardinal" and James Lane Allen, in "The Kentucky Cardinal." The cardinal has of late years been extending its range northward, and now nests quite commonly in central Iowa. In size and shape the male resembles a blue jay, but is a beautiful rose red over the entire body except a black throat and chin patch. The female has a red back, wings and tail, and the remainder of her body is a ashy gray.

During the winter the cardinals feed on berries of sumac, hawthorne, etc., and are generally to be found about the shrubbery and in the tops of thickets of such shrubs. In spite of their brilliant color they are by no means conspicuous. You may hear a suspicious chirp from some thicket, or a clear powerful whistle, and yet be entirely unable to locate the author of the sounds. When you finally spy him he is very probably in a conspicuous spot and singing directly at you.

The song is a rich, clear whistle and, heard on a clear February morning, the vigorous tones seem to typify the snap of the frosty air because of the whip-like method of delivery. There is no more beautiful sight in a February landscape than to see, as I have been fortunate enough to do, a group of five or six adults in a clump of small trees, feeding and singing alternately. Their brilliant color seems to brighten the whole monotonous landscape.

Because of their beauty and power of song they have been in great demand as cage birds and have been nearly exterminated in many localities by persistent trapping. Fortunately, this has now been prohibited in most states.

The nest is usually built in a clump of bushes or low trees not far from the ground. The nests which I have examined in this locality have been very carelessly put together and rather insecurely placed into position. The eggs are three or four in number, greenish white in color, and thickly dotted with blue and brown spots.

In character and habits the cardinal is one of the most interesting birds we have. He is rather clumsy and awkward in his movements, and is more like a wooden bird than most of the others. He impresses one more as a substantial, honest citizen of the bird world than the more agile thrashers, jays and catbirds which always give the impression of having something to conceal. In temperament he is a curious combination of timidity and confidence. On some days you can approach very close to him as he sits in a low bush or tree, but on others, try as you may, the only indications of his presence will be a tantalizing chirp now on one side and then on the other.

Local Weather Record. The extremes Sunday were 39 and 24, the latter the temperature at 7 o'clock in the morning, compared with 34 and 23, the range Saturday, and 34 and 13, a year ago Sunday. A trace of snow fell Saturday, and the snowfall Sunday night was .12 of an inch. At 7 o'clock this morning the temperature was 30, six degrees warmer than at the same hour Sunday morning.

Notice. The monument for Clyde B. Johnson, who died Dec. 25, is finished and can be seen at the New England Granite Company, South Center street, for the next ten days when it will be shipped to Cooper, Iowa. Mrs. J. L. Johnson.

All Retail Clerks, Notice. The regular meeting of all union clerks will be held March 23 at 8 p. m. shop at the Red Men's hall. Your presence is requested. H. F. Crinklaw, secretary.

Notice. Our daughter, Helen, having left home we will not be responsible for any debts she may contract. W. H. Burr and wife.

THIS WILL INTEREST STOMACH SUFFERERS SAYS INDIGESTION COMES FROM AN EXCESS OF HYDRO-CHLORIC ACID. A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fumes and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash, or nausea. He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescing, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

Comparative Statement of Marshalltown Savings and Loan Association for 1913 and 1914. On Dec. 31, 1913, the association had 976 shares in force and several hundred shares were taken in the January series, which brings the monthly collections up to \$600 or better. On Dec. 31, 1914, the association had \$16,690 loaned out on first mortgage security at 8 per cent, with \$1,508.01 cash on hand. Out of this total of \$18,198.01, \$16,995.50 had been invested by the holders, and \$1,202.51 was the profit earned up to date.

Starting with only a few shareholders, and receiving its invested capital at the rate of 50 cents per month, it has taken a good many years to make a good interest earnings. The profits earned during the past year amounted to \$1,455.69. The association is now over the hill and will grow very rapidly, like the snow ball which was slow to start. This year's earnings will exceed last year's.

Twenty-four fine new houses in Marshalltown already stand as monuments to the public service rendered by this association, besides eight remodeled residences. At least fifteen more new houses will go up this summer with the help of association money. More would be possible if shareholders would come in faster, as the savings and loan plan actually nets the borrower 6 per cent on his debt in the long run, and gives him nearly eleven years' time in which to pay. To investors the profits run as high as 10 per cent when everything goes well.

During the year 1914 the association increased the capital stock from \$250,000 to \$500,000. Of this amount \$324,000 is now sold. The association hopes during 1915 to sell the balance of the stock. This will mean the sale of about 1,700 shares.

The sixteenth series is now on sale with the first payment due on or before April 5. Full details of payment plan can be had from the secretary.

GEO. F. THAYER, Secretary.

MULCT TAX CASES UP.

Supervisors Will Take No Action On Levying Tax Before April.

An informal discussion of the question of levying mulct taxes against two tobacco stores and a restaurant for selling cigaerets and intoxicating liquors was held before the board of supervisors Saturday. County Attorney Ray F. Scott and attorneys representing dealers and property owners were present.

The discussion was ended without entering into any of the merits of the cases, and no action was taken by the board, which was not in regular session. It is expected that the understanding that the question would come up formally again, but not before the regular April meeting.

The questions involved were raised by the county attorney serving notice on L. H. Hills & Co., 24 Eastwood street, between Seventh and Eighth, a jitney belonging to A. J. Jensen turned turtle about 2:30 Sunday afternoon. The occupants of the car, Clyde Ford, the driver, LeRoy McGrew, and a third, whose name could not be learned, were pinned under the car, but fortunately escaped serious injury. Ford was cut and bruised slightly about the head and his right leg bruised. The top of the car was smashed to pieces, the radiator bent, and the lamps broken, but the body and the engine were not damaged to any great extent. Ford was driving the car when the accident happened and says he was going about twenty-five miles an hour. H. H. Beaman, who was driving his electric car along the street at the same time, said that the auto driven by Ford had just passed him on the wrong side, that it was going very fast.

FIRST JITNEY MISHAP. Car Turns Turtle, But Driver and Two Passengers Escape. Skidding on the slippery pavement in Main street, between Seventh and Eighth, a jitney belonging to A. J. Jensen turned turtle about 2:30 Sunday afternoon. The occupants of the car, Clyde Ford, the driver, LeRoy McGrew, and a third, whose name could not be learned, were pinned under the car, but fortunately escaped serious injury. Ford was cut and bruised slightly about the head and his right leg bruised. The top of the car was smashed to pieces, the radiator bent, and the lamps broken, but the body and the engine were not damaged to any great extent. Ford was driving the car when the accident happened and says he was going about twenty-five miles an hour. H. H. Beaman, who was driving his electric car along the street at the same time, said that the auto driven by Ford had just passed him on the wrong side, that it was going very fast.

FARMERS AND GROWERS Make Your Contracts Now For Acreage For Sweet Corn, Tomatoes, Etc., Before the Requirements Are All Filled. We desire to announce that a large number of farmers have already contracted for sweet corn, tomatoes, cabbage, pumpkin, and hominy corn. Our requirements are largely being filled and we desire that all of our regular growers make arrangements at once to reserve such acreage as they need. Western Grocer Company, canning factory.

GIRL SCOUTS HAVE FINE TIME. Enjoy St. Patrick's Progressive Dinner at Homes of Members. The Girl Scouts entertained Saturday evening at St. Patrick's progressive dinner party. The dinner was served at the home of Anna McCombs, 118 North Center street, with Grace Lennox and Bernice Michel assisting. The table was covered with a green crepe table cloth, with a centerpiece of Jonquills. Engraved clover leaf place cards, bearing the names of the guests and a cornucopia were found at each place. Next the guests were entertained at the home of Lucile Alford, 407 North Fourth street, who was assisted by Irma and Loraine Mundy, Mary Maxwell, Elizabeth Trine and Dorothy Lierle in serving the second course. From large green candles in the center of the table green streamers were stretched to small individual candles at each place, Shamrocks and little pipes decorated the place cards and shamrocks were strewn over the table.

The third course was served at the home of Corinne Whitney, 8 East Grant street, Miss Ruth Hayner, Irene Mason, and Nita Pursel assisted in serving. Green and white streamers were stretched from the chandelier to each place, where a tiny imitation chicken held a place card. The last course was served at the home of Dorothy Balch, 106 North Second street, where Estelle Wallace, Helen McClay and Margaret Pelsley assisted in serving. A shamrock plant on a mirror adorned the center of the table and small potatoes representing cobbles stones, among which were placed little dolls dressed in Irish costumes. A figure of St. Patrick, made from Irish potatoes, wearing a green hat, with a pipe in his mouth, and waving a green flag, added to the decorations of the table, which was lighted with green candles.

In a program of toasts, with Miss Hayner as toastmistress, Mary Maxwell toast to St. Patrick and Dorothy Balch to "All Good Irishmen" to which Bernice Michel responded. Nita Pursel described "The Girl Scouts of the Present" and Elizabeth rine pictured "The Girl Scouts of the Future." Later in the evening dancing was enjoyed.

AMUSEMENTS.

At the Odeon. A good-sized house greeted "The Girl and the Tramp" at the Odeon Sunday night, a comedy drama full of ridiculous situations which seemed to please the audience. Vaudeville specialties were introduced between the acts.

At the Lyric. "The Fairy and the Waif," a five-reel Paramount picture depicting the adventures of a little girl who goes on the stage because she has no one to love her, was the attraction at the Lyric Saturday and Sunday nights. The production was well staged, and the acting excellent. Mary Miles Minter, who starred in "The Little Rebel," played the part of the "fairy" in the ballet, acted her part exactly as a little girl would do, while Percy Helton did well as the "waif." Will Archie furnished the comedy as the fat boy who was continually getting in the way. The audiences were of good size both nights.

At the Orpheum. Arthur Clamanz and his musical comedy company returned Sunday to the Orpheum, where they opened a week's engagement with "The Girl

RICHARD M'GUIRE DEAD.

Former Member of Council From Fourth Ward Passes Away Sunday.

Death, at 3 o'clock Sunday morning, claimed Richard McGuire, 1008 South Center street, a former member of the city council from the Fourth ward, and a resident of the city since 1876. Mr. McGuire's death was due to cancer of the stomach, with which he had been afflicted for seven months.

Mr. McGuire was a native of Ireland, where he was born Nov. 13, 1847. He came to America in 1864, with his parents, who settled at Dunkirk, N. Y. Mr. McGuire learned the machinist's trade in the shops of the Brooke locomotive works, near the American locomotive works, at Dunkirk, and continued to work there until he came to this city. He had been employed as a machinist in the Iowa Central and Minneapolis & St. Louis shops ever since he has been here.

Mr. McGuire is survived by his widow and seven children. Mrs. McGuire, prior to her marriage, was Miss Anna Byrne. She became the wife of Mr. McGuire at Fort Hope, Canada, Feb. 8, 1869. The children who survive their father are Mrs. May Knight, of Alliance, Neb.; Mrs. P. H. Townsend and Mrs. J. J. MacLeay, of Waterloo; John F. McGuire, of Washington, and Richard McGuire, of Milwaukee; Vincent J. McGuire, of Chicago; and Matthew McGuire, who is at home. Two children died in infancy. There also survive Mr. McGuire fourteen grandchildren.

Mr. McGuire's membership on the council covered a period of six years, extending from 1896 until 1902, during the administrations of F. G. Pierce and L. B. Jones as mayors. Mr. McGuire was a member of St. Mary's Catholic church and the Knights of Columbus.

The funeral will be held from the church at 10 o'clock Tuesday morning.

SPRING ARRIVES SUNDAY. Reception Cold One, and is Followed by March Snow. Spring arrived Sunday. According to the official schedule of the seasons spring got here at 10:51 in the forenoon. The government weather expert asserts that they are now able to figure out the time of the arrival of spring to the fraction of a second. Spring's reception was a rather chilly and raw one. Winter had said goodby only a few hours before with a light fall of snow. More snow followed spring's arrival by only a few hours.

Another Large Crowd Sees Minstrels. Another big audience attended the second performance of the minstrel show given by the boys' department of the Y. M. C. A. Saturday night. The performance went even more smoothly than on the opening night, according to several who took part. The association expects to clear a moderate sum

Cut the Cost of Living! A plate of hot biscuits or muffins, a fresh, home-baked cake, a loaf of brown or nut-bread, rescues any meal from the commonplace, and more expensive things are never missed. With K C, the double acting baking powder, good results are doubly certain. There's economy too, in the cost of K C.
