

DIG EXPORT DEMAND LIFTS WHEAT PRICE

CALL AT BUENOS AYRES FROM EUROPEAN COUNTRIES UNPRECEDENTED.

ITALY, GREECE AND PORTUGAL ARE BUYING

Sharply Higher Price For Corn at Liverpool and Increased Strength of Wheat Cause Higher Quotations in Corn Market—Offerings of Oats Are Light and Values Are Higher.

Chicago, April 16.—Unprecedented demand from exporters at Buenos Aires today gave the wheat market here an upward swing. It was said Italy, Greece and Portugal were bidding freely and that in addition France was buying largely at Liverpool. There were advices that seaboard demand was large. The opening varied from 1/2 cent to 1 1/2 cents advance, and was followed by decided gains all around and then a moderate setback.

Announcement of large export clearances led afterward to new upturns. Owing however, to profit taking and reports of flattening crop prospects in Kansas and Oklahoma, the close was unsettled, 1/2 cent to 3/4 cents up.

Sharply higher prices for corn at Liverpool tended to lift values here. Wheat strength further aided the bulls. After opening 1/2 cent to 3/4 cent up, the market continued to climb.

Improved call for spot delivery resulted in further gains. The close was firm at 1 1/2 cent to 1 3/4 cents net advance.

Oats—Offerings of oats proved light and shorts rushed to cover. The principal reason was the bulk in other grains.

Provisions hardened chiefly because of the small increase in packing house stocks and the higher prices for hogs. Trade, tho, lacked volume.

Daily Grain Letter. (Furnished by Lamson Bros. & Co., Masonic temple, phone 193.)

Chicago, April 16.—Wheat—There was a good volume of trade in wheat today with buying by commission houses some of which was credited to foreign account. The deferred deliveries held an advance of 1/2 to 3/4 cents, while the May was easy and closed 1/2 cent under yesterday. Increased country offerings and a dull cash demand locally were responsible for the selling of May. Export demand at the seaboard was reported as active but no sales were given out.

Demand for Argentina wheat in state to be good and shipments from that country were larger than expected for the week. Demand for new crop wheat and flour is said to exist and shorts in the deferred deliveries show a disposition to cover on bulges.

Corn—Strength at Liverpool and an improved domestic demand for cash corn led to free buying by shorts and commission houses and again of about 1 1/2 cents was held in all deliveries at the close. Cash sales of 255,000 bushels a part of which was for export, were admitted by local mill handlers. Country offerings were light and receipts of fifty-seven cars were in good demand at prices advancing relatively with the May.

Oats—Oats did not fully sympathize with other grains but the deferred deliveries showed a net advance of 1/4 cent. May was under pressure from realizing sales, the bulk of the selling by holders being replaced in the latter months. Clearances were large at over 1,000,000 bushels. Cash demand was fairly good, altho sales of only 175,000 bushels reported. Considerable quantities of oats have been sold to go out at state opening of navigation and a reduction of the Chicago visible will occur in the near future.

Provisions—Provisions were active with a fair amount of buying on the strength in the grain market. Packers took advantage of an early bulge in the market and the advance. Lard received the most attention from packers and closed easier than the rest of the list. Continued light receipts of hogs are anticipated.

HOGS HIGHEST SINCE DECEMBER

PRICES IN CHICAGO GO TO NEW HIGH LEVELS FOR CURRENT YEAR.

ADVANCE CAUSED BY LIGHTNESS OF RECEIPTS

Cattle Offerings Scarce and Prices Are Firm—Receipts Not Numerous—Review of Market Conditions—Current Quotations at Livestock Centers.

Chicago, April 16.—Hogs scored an advance in price to the highest figure since December, 1914. The rise was caused by lightness of receipts.

While packers are apparently willing to permit the hog market to work to a higher level, they do not intend to permit speculators to run a boom campaign. The market is in good condition for a further advance, provided no attempt is made to overplay the game. Supply is diminishing, which is a bullish influence.

Eleven markets received 62,500 hogs Thursday, or 1,200 less than last Thursday, 400 more than a year ago and 200 more than two years ago. Total thus far this week 324,000, or 16,000 less than same period last week, 115,000 more than like time last year and 19,000 less than corresponding four days two years ago.

Cattle. Cattle were scarce and prices are firm. Popularity for the lighter cuts is seasonable and will likely continue for weeks. The eastern trade is calling for an increased quota of fat 1100 to 1250-pound steers, many of them having gone to New York this week, and good shipper demand has been a strong factor in holding prices up in the local yards for that weight stock.

Big steers, on the other hand, have been landed largely in the "local" yards and their punishment has not been logical, when the poor trade action for heavy cuts in local quarters is taken into consideration. Kicker call is the chief reliance of the trade for an outlet for the big cattle and free area having had smallest proportion of the 1400-pound and heavier kinds this week fat ones have shown some price premiums over "local" yards prices for like quality goods.

However, on rank and file of the light and handy steers there has been small difference in selling values, as between the two sections, this despite the fact that two-thirds of the crop arriving since Monday has only been eligible to the local market.

General receipts from near-by territory which is still under quarantine well indicates that the beef crop damaged as result of quarantine restrictions for many weeks past is by no means run out and the trade is apprehensive that too many big weights will come forward in the next few weeks to enable good selling of that kind, where, as the turning of many light steers into pastures in both free and quarantine areas promises to affect a comparatively small volume of marketings of fat, handy and better quality and these should continue to show strong price appreciation over the unpopular big weights.

This week's run at 39,600 in local trade for four days stood against 29,136 a week ago and 39,846 a year ago, which six markets' crop at 103,000 showed a 9,000 net increase, respectively, as compared with last week and a year ago.

Generous movement is looked for at the start again next week, and the trade has small hope of holding today's price betterment in event of supply next Monday totaling much above 15,000.

Sheep. Sheep and lambs were scarce. Record prices were paid for the best lambs.

Packers are showing short stock increasing favor, a seasonable condition furthered by the recent drop in prices of the wool market and the decline in pelts. A spell of warm weather would speedily narrow the spread between shorn and woolled stock in favor of the former and put half fat and heavy sheep in the fleece on the list of undesirable for local shipping demand.

Scarcity is scheduled for some weeks ahead and sellers are confident in their predictions of the short lambs making good before June 1.

GREAT BRITAIN APOLOGIZES. Reports Sinking of German Cruiser Dresden in Neutral Waters.

London, April 16.—The British government has offered "a full and ample apology" to the Chilean government for the sinking on March 14 in Chilean territorial waters of the German cruiser Dresden.

The note delivered by the Chilean minister to Great Britain says that the Dresden anchored in Cumberland Bay (Juan Fernandez Island) March 9, and asked permission to remain eight days for the purpose of refueling, but was refused.

The governor refused the request, as he considered it unfounded, and ordered the captain to leave the bay within twenty-four hours.

British Squadron. As the order of the captain complied with, the captain of the Dresden was informed that his ship was interned.

When the British squadron appeared, on March 14, the governor was proceeding to the cruiser Glasgow to inform the British officers of the steps he had taken to turn back.

As the British ships opened fire on the Dresden, on which a flag of truce already had been hoisted, and called on her captain to surrender.

The captain then gave orders to blow up the magazine of the Dresden.

Furthered by the hostility committed in Chilean territorial waters by British naval squadron," says the Chilean minister, "has painfully surprised my government."

Situation Was Not Clear. Continuing, the minister says that had the officer in command of the British squadron obeyed the governor and had been informed that the Dresden was interned he was convinced "the British commander would not have opened fire on her and brought about a situation which constrains the Chilean government, in defense of its sovereignty, to formulate a most energetic protest."

After referring to the hospitality shown British ships in Chilean waters and to the long friendship between the two peoples the minister says:

"Nothing could be a more painful surprise to us than to see our extremely cordial attitude repaid by an act which bears, unfortunately, all the evidence of contempt for our sovereign rights, altho it is probable that nothing was further from the minds of those by whom it was unthinkingly committed."

The British Express Regret. The British Express, in reply, expresses regret that a misunderstanding arose.

"On the facts as stated in the communication of the Chilean minister the British government is prepared to offer a full and ample apology to the Chilean government."

It is, however, pointed out that according to the British information the Dresden "had not accepted internment and still had her colors flying and her guns trained."

REACTIONARY CAN NOT WIN IN 1916

SPLIT IN REPUBLICAN RANKS CERTAIN IF OLD GUARD SEEKS TO RULE.

WARNING SERVED BY PROGRESSIVE WING

Many Bull Moose Ready to Return to Republican Fold if Progressive Republican is Nominated on Platform That is Not Reactionary—Bull Moose Platform Need Not Be Incorporated.

(Special Correspondence.) Washington, April 16.—In spite of the general assumption of republicans that the party is going to be returned to power by a landslide in 1916, the wisest political leaders and political observers here say there is a fly in the republican ointment.

It is no common or garden fly either, but an unusually large and troublesome insect. If the counsels of wisdom are followed, it will be fished out and will not be permitted to bring about serious difficulty. But there is no telling thus far in advance of the presidential event of next year what sort of advice will prevail.

Within the past week, no less than three men of prominence, including two senators and one former senator, one a republican of the progressive variety and the other members in high standing of the bull moose in its 1912 fight, have come out in advisory statements that if the republican party is to win next year it must not permit a repetition of the 1912 performance at Chicago wherein the old guard rode like a bunch of hussars over the bodies of their rivals.

Must Be Progressive. Warning has been issued by these leaders that the republican party to win must name a progressively-inclined candidate on a progressive platform. This does not mean that the bull moose platform must be grabbed up word for word but it does mean that a man and a platform must be taken up by the republican party whose support will not turn the stomach of the men who voted for Roosevelt in 1912.

The men who have in recent days come out in words of warning to the reactionary republicans are Senator Norris of Nebraska, republican; Senator Poin-dexter of Washington, who is prepared to rejoin the republicans, tho a bull moose in 1912, and Former Senator Joseph M. Dixon, of Montana, the man who, as national chairman of the bull moose in 1912, managed the Roosevelt campaign. Senator Dixon is prepared to support a progressive republican nominee in 1916, but he will not support a reactionary. He says the people are against the Wilson administration but that if the republicans name a reactionary they can not win.

Reactionary Can't Win. The tenor of the statement of these men, all of whom are of prominence in the ranks of progressive republicans and progressive party men, is that they are willing to support any republican who is reasonably advanced in his views but they will not and their folks will not support a man who is known as a pronounced reactionary. Senators Norris and Poin-dexter have gone so far as to speak kindly of Senator Weeks, of Massachusetts. Senator Weeks has never been known as a progressive but Senators Norris and Poin-dexter would support him because they admire him personally and because they regard him as a man of integrity, courage and independence, despite the fact some charge him with reaction and he has frequently, tho not always, affiliated with the old guard. Their attitude toward Burton is much the same.

These leaders make it clear that if the effort to promote the cause of former Senator Root, former Senator Knox or former President Taft—or others of the same school—is persisted in and carried into the convention, it will not only cause bad blood but may split the republican party for all time. Whether their warnings will cause the republican old guard leaders to change their tactics is conjectural but it may be taken for granted that if such warnings are not heeded there is a storm brewing for the republican party.

Chamberlain's Cousin. Remedy has been a favorite with the mothers of young children for almost forty years. For sale by all druggists.—Advertisement.

The ussian empire leads in the number of its Jews—6,604,415, and the United States is second with 2,933,374.

PEOPLE NOTICE IT. DRIVE THEM OFF WITH DR. EDWARDS' OLIVE TABLETS

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Olive Tablets. Dr. Edwards' Olive Tablets are the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cured with a dark brown taste, a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad circulation or other troubles.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their green color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

Watch Your Children. Often children do not let parents know they are constipated. They fear something distasteful. They will like Rexall Orderlies—a mild laxative that tastes like sugar. Sold only by us, 10 cents.

Facts that mean dollars to cow owners

Are you using the gravity-setting process of skimming your cream? If so, do you realize that you are losing from 33-1-3 to 50 per cent of your butter fat? A trial of a DeLaval Cream Separator will convince you.

This machine was the first centrifugal separator on the market and it still leads. All other cream separators made today are constructed upon either discarded or abandoned DeLaval inventions. It is the world's standard and is used exclusively not only by the leading dairymen, but by 98 per cent of the creameries. The DeLaval is the simplest, most durable, easiest running and thorough skimming separator on the market today. An examination and trial will convince you.
