

# AT LIVERPOOL LIFTS WHEAT PRICE

### ADVANCE PARTIALLY OFFSET BY BETTER WEATHER CONDI- TIONS IN SOUTHWEST.

### PART FROM CABLE NEWS ADVICES ARE ALL BEARISH

### arn Shows Tendency to Sag Owing to More Favorable Weather—Action of Corn Is Chief Governing Influence in Turn of Oats Market—Covering by Shorts Holds Provisions Steady.

Chicago, June 25.—Higher quotations from Liverpool gave some strength today to the wheat market here. Better weather in the southwest, however, acted as a considerable offset to the news by cable, advices part from the news by cable, advices which started from the same as yesterday's loss to 1/2 cent up, were followed by a moderate setback but then a fresh rally.

Rumors of big export sales in flour led later to a decided advance. The loss was strong, 1/2 to 1 1/2 cents above last night.

Corn. Corn showed a tendency to sag owing to favorable weather. Buying was only of a scattered sort. After opening 1/4 to 1/2 cent down, the market went still lower before beginning to react.

The close was steady at a gain of 1/4 to 1/2 cent.

Oats. In oats the turn of prices hinged chiefly on what happened to corn. Pit traders were almost wholly on the selling side.

Provisions. Covering by shorts held provisions fairly steady. Otherwise the advance in the hog market was virtually ignored.

Daily Grain Letter. (Furnished by Lamson Bros. & Co., Chicago, June 25.—Phone 192.)

Chicago, June 25.—Wheat—Wheat was irregular but bullish news finally predominated and closing prices were 1/4 to 1 1/2 cents higher. The advance was due largely to covering by shorts on strength in Liverpool, which was brought about by hot dry weather in the United Kingdom and the greater part of Europe and to disappointing shipments to the United Kingdom from India and Argentina. The bullish factors in the domestic situation were an improved foreign demand for flour and the Modern Millers' report of late harvest and some damage by unfavorable weather. The foreign demand for our wheat, however, is disappointing.

of which New York buyers speak in high terms is selling in Liverpool at 13 cents under United States corn. A local cash handler reports that New England is bidding 11 cents more for corn from here than Argentine corn would cost on the basis that it is now being sold.

Oats—Oats were easy early on account of continued brilliant crop prospects. Later, they rallied with other grains and closed near the top. There was a good demand in the spot market for the eighty-nine cars on sale. Heavy yields of oats are reported in the south, where threshing is in progress and, if the present high prospect is maintained throughout the country, advances in the market will be only temporary.

Provisions—As was the case yesterday, provisions did not fully respond to the strength in the hog market which averaged lower. Covering of a large line of pork by a local trader strengthened that commodity, which closed at a fair advance. Packers supported ribs. Cash trade was dull, particularly for lard.

Chicago Grain Close. Chicago, June 25.

Chicago receipts—Wheat, 9; corn, 115; oats, 89.

# LIBERAL SHIPPING ORDERS CONTINUE

### HOG MARKET AGAIN CARRIED UP- WARD BECAUSE OF DEMAND FROM THE EAST.

### PRICE RANGES GROW SOMEWHAT NARROWER

### Cattle Not Plentiful But Offerings Lack Quality—Sheep and Lambs Continue Scarce—Review of Market Conditions—Current Quotations at Livestock Centers.

Chicago, June 25.—Liberal shipping orders today carried the hog market up.

Compared with a week ago there is a general narrowing of the price range, Thursday's top being only 10 cents above a week ago, while the average price stands 22 cents above previous Thursday. Common and intermediate grades of hogs showed most advance.

Eleven markets received 81,900 hogs, Thursday, or 20,300 more than last Thursday, 12,400 more than a year ago, and 6,500 less than two years ago. Total thus far this week, 323,000; or 42,000 more than the same period last week, 35,000 more than like time last year and 9,000 less than the corresponding four days two years ago. Total for 1915 to date, 13,112,000; or 1,956,000 more than the same period 1914 and 1,356,000 more than the corresponding time 1913.

Cattle. Cattle were not plentiful, but quality was lacking.

The season is at hand when long-fed heavy and handy steers are running dry. They held out during a much longer period than many had believed possible, but it is apparent now that killers are going to be forced to go against the short-fed and grass stuff to a great extent as substitutes for the hard finished grades, and this situation, in view of continued broad beef outlet, would seem to suggest that nothing is going to happen to break the prices for anything and keep them down. Sporadic reactions in the trade trend of values is on an upward basis, and as the season advances and the long-fed kinds of choice quality become scarcer, as inevitably they must, the impression prevails that top this week, elevated to 39 1/2, against recent high spot of 39 1/2, will prove only a start toward the summer's high limit.

Action by the board of directors in holding the market open here Monday, July 5, despite the legal holiday in celebration of Independence day, meets with entire approval on part of the trade and there is expectancy of good demand that day, some export orders being booked ahead to be filled in that market, while another export order is credited with being on the hooks for next Monday.

Chicago is still out of the stock cattle business, with no certainty as to when that outlet will be opened, but at

the Missouri river there is no cessation of demand. Several lots of heavy steers have been taken at \$8.25, and Kansas has paid \$7.00 for springer cows. Kansas has a wealth of feed and is buying light steers, preference being shown for the 700-pound class. At Chicago such cattle are subjected to stiff discounts, owing to lack of a feeder outlet and they should be kept out until restrictions on country traffic are removed.

### Sheep.

Sheep and lambs continued scarce. California, Idaho and Arizona lambs have put in an appearance recently. At Kansas City, Arizona stock sold on a \$10.00 basis. The western movement will swell during July and appearance of the advance guard has had a depressing influence on values. Tennessee is nearly all in and the southern movement has been a distinct disappointment to packers. Present expectancy is that it will be 35 per cent less than last year.

All over the trans-Missouri region where wool and mutton raising is possible, breeding stock has gone to a premium. That few ewe lambs will go to the shambles this season is a certainty. Even the old toothless nannies will be retained, such stock at \$5.50. Few sheep of any kind are for sale in the west and the speculator who was loaded to the guards a year ago has been able to operate this season only in a limited way. The breeder is in full control of the situation and possesses very decided ideas concerning the intrinsic value of his property.

### Fern Was Peevish.

According to an eminent botanist, plants are so sensitive that they resent neglect and are susceptible to kind treatment, showing their gratitude in charming ways. We are therefore the more ready to believe a story told us a day or two ago by a lover of nature. He was watering a fern on a cold morning. He forgot to temper the water. The fern, incensed by the shock, leaped from the pot and bit him savagely in the leg.—Phillip Hale, in Boston Herald.

You Bet!  
"These Egyptians were sporty old

ducks; isn't it so?"

"Why?"  
"I read where they laid a big pile of fero."—Pellag.

### PREPARE FOR CONVENTION.

Elks' Committee Arranges Entertainment For Annual Meeting.  
Special to Times-Republican.  
Iowa City, June 25.—The Elks' committee on state convention arrangements met Thursday night and planned for the big meeting, making the first tentative arrangements. It is hoped to entertain with horse and other races at the county fair, with maneuvers of United States cavalry, state cavalry and other I. N. G. warriors, and with a big fireworks display and spectacle. The Iowa State Elks' Association held its 1914 convention here and since then there has been an insistent demand among the anterled herd in Iowa that the 1915 meeting be held in Iowa City also.

### NEW CORPORATION LOCATES.

Work Started on Erection of Warehouse and Tanks at Estherville.  
Special to Times-Republican.  
Estherville, June 25.—Work was started today by the Missouri Valley Oil Company, of Omaha, Neb., on the erection of a warehouse and office and storage tanks at this point to take care of the business of the northwest. L. L. Anderson, district manager, advises that the work will be rushed thru to completion and that in addition to carrying a full line of illuminating oils, gasoline and kerosene, a stock of lubricating oils will also be put in. J. A. Barrett is to be the local representative of the company.

### GOETHALS' CHOICE OF WORDS.

Points Out to Subordinates That Order is Not Epistle.  
One morning a rather dignified subordinate came into Col. Goethals' office in the Canal Zone.

"I got your letter, Colonel," he began, "and I came to—"

"He got no further, for the colonel, with uplifted eyebrows, cut in: "Letter? Letter? There must be some mistake. I have written you no letter!"

"Oh, yes, Colonel," repeated the man. "I've got it here. It's about the work down at Miraflores. Now, you see—"

Again the colonel cut in: "Oh, I see! But you misled me. You spoke of my letter. You meant of course, my orders!"

The colonel's blue eyes stared coldly at the argumentative man, who suddenly feeling that the conversation was at an end, "faded away."—Answers.

### Merely a Hint.

Evelyn had been instructed by her mother not to ask anyone for a penny. A week ago Evelyn was visiting her aunt, and as her aunt opened her purse to take a nickel to use in the telephone Evelyn, shyly glancing in the purse and seeing one lone penny, remarked that she thought pennies were such a nuisance in a big lady's purse.

As to the Courthouse.  
The courthouse was not instituted entirely as a means of providing punishment for evil doers; indeed, its chief business seems to be to house men who collect taxes and punish people who do not pay up promptly.—Ed. Howe.

# A Message to Every Iowa Hog Raiser!

## WARNING: Don't Buy An Untried, Unreliable Hog Oiler!

Take Notice, Farmers of Iowa! It has come to our attention that our entire state is being canvassed by agents for one or more untried and unreliable hog oiling machines. These oiling machines are being represented as "just as good as the Hog-Joy machine." They are being sold to Iowa farmers under all sorts of false pretenses, and at all sorts of prices.

In certain communities farmers are paying twice as much as other farmers are paying for the same machines. In many cases we learn that these spurious devices are being delivered on pretended free trial—and the farmer soon finds that he is obligated to pay for the machine or fight it out in court.

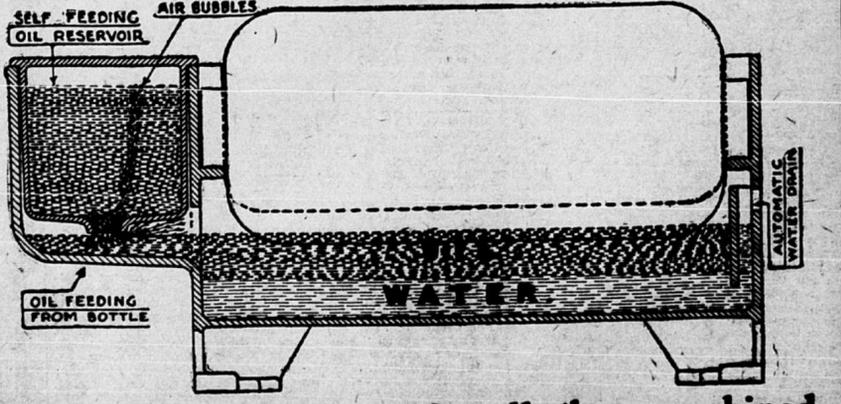

We want to warn our friends and customers against such devices and the unknown men who are promoting their sale. Don't buy any hog oiler, at any price, from parties unknown to you. Certain of these machines are infringements of the Hog-Joy patents and you would be liable to damages for using them.

# The Hog-Joy Machine Beats the World

We have placed these wonderful machines on thousands of splendid Iowa farms, and in 17 state institutions. Never, in all our years of experience, have we handled an article that had more genuine merit, or made the farmer more money. This is the original automatic-feed machine with the horizontal roller. Oil level is kept at the same point by the self-feeding iron vacuum oil-bottle. This oiler is made entirely of cast iron. Has only three pieces, without a single valve, pump or other jim-crack to get out of order. It is the only known machine that won't clog with mud, snow or ice. Rain water automatically runs out of the oil. It can't possibly freeze. Little pigs rub as easily as big hogs, and it is impossible to waste the oil.

## Try It! Thirty Days FREE!

We'll put a Hog-Joy on your farm for 30 days free trial. Don't pay a cent or sign a paper until you have tried it out thoroughly. With the machine comes a free supply of Hog-Joy Medicated Oil. Instantly kills every louse, nit or tick. Cleans up rough, scurvy, mangy skin, and makes the hair fine and soft. Iowa farmers have known us for years. We have a reputation for square dealing that is very dear to us. If you want to try a hog oiler try nothing but the Hog-Joy machine. It is guaranteed for 10 years by the Hog-Joy Farms, and we stand squarely back of it ourselves. Write us, phone us, or drop in yourself. Get one on 30 days free trial, this week. Keep young pigs and old free from vermin and skin trouble for only a few cents a month.
