

Assist Your Stomach

To Get Rid of the Poisonous Gases and Fermenting Food.

A good long fast will do this sometimes. A trip to the mountains. Tramping. Roughing it. Yes, very good remedies.

But are you going to avail yourself of either one of those remedies? No? Then the next best thing is to try a bottle of Peruna. Take it according to directions. You will have a natural appetite. All gas and fermentation in the stomach will disappear.

Read what Mrs. Emma Bell, Box 204, Fort Pierce, Florida, says: "I was taken suddenly with swelling of the stomach and bowels, and great distress. Very painful. Three doctors gave me no relief. Could not eat anything. Everything scoured. I was starving to death. I began taking Peruna and was soon taking enough to do work. After taking five bottles I can truthfully say I am well. I gained twenty pounds."

GOVERNOR LAUDS IOWA

CLARKE TELLS WESTERNERS STATE IS GARDEN SPOT OF ENTIRE WORLD.

GOLD AND SUNSHINE GREAT COMBINATION

Points to Doubling of Crop Production During Past Fourteen Years—Tells Exposition Visitors That State is Not Soley Agricultural—Iowa Day at San Francisco Exposition.

San Francisco, Cal., June 25.—Governor George W. Clarke, of Iowa, told Iowans and others attending the "Iowa day" celebration at the Panama-Pacific exposition here today, that there was nothing idle about the boast that the Hawkeye state was the "Garden Spot of the World." He declared the statement had come to be the consensus of opinion of the "competent of all other states who have visited her or come to understand her resources. The governor declared that conditions of heat and cold, sunshine and rain, richness and responsiveness of soil through the entire extent of Iowa's area are so perfectly blended as to justify the title.

"Whatever may happen or has happened elsewhere, Iowa never brings anxiety to her people," said the governor. "The products of her fields, frequently lavish, are always abundant. Like charity, Iowa never fails. There is a sense of security and substantiality in Iowa."

The governor declared that Iowa's crop production is now more than twice as much as it was fourteen years ago. "Last year," he said, "it was \$567,143,419.00, and when the value of livestock is added the 1914 value rises to \$1,013,596,419.00. What the state can do agriculturally is shown by her unrivaled exhibit here and the premiums she has taken. Iowa's school of agriculture and mechanics—and I am only modestly stating an everywhere conceded fact when I say this school is the greatest of its kind in the world—has been a wonderful help in increasing Iowa farm production and animal husbandry. The state challenges the world on the cattle. Iowa appreciates this growth and last year there was expended there \$1,219,900. The state believes in an educated citizenship and last year expended on education \$20,299,774.

"The state is not simply agricultural. It would be interesting to tell you of the manufacturing industries. Last year the output of her factories was over \$380,000,000."

The governor reviewed the history of the state from the time the Indians were the only inhabitants, and told of the role it had made in citizenship, pointing to those who had filled important roles in the history of the nation.

TO ANNAPOLIS OR BALTIMORE.

National Society of Engineers to Choose 1916 Convention City Today.

Ames, June 25.—Either Annapolis or Baltimore will be the next annual convention of the national society of engineering education which, with official delegates from more than sixty leading engineering colleges of the United States and Canada, will conclude a four days' session at Iowa State College at Ames today. Officers for next year were elected as follows:

President, H. S. Jacoby, professor of bridge engineering, Cornell University; vice presidents, G. R. Chabrun, University of Nebraska, and F. H. Constant, Princeton University; F. L. Bishop, dean of the college of engineering, University of Pittsburgh, secretary, and W. O. Wiley, of New York City, treasurer. One hundred fifty-six delegates were in attendance.

Twenty committees were appointed by the society, each to consider some problem relating to the betterment of college engineering instruction. Under a new plan, these committees will be authorized to conduct investigations and to urge the adoption of better methods in institutions which are members of the society.

Dr. C. R. Mann, of the Carnegie foundation for the advancement of teaching, presented a report of methods of teaching in engineering colleges. At the annual banquet Thursday evening, Dean Anderson Marston, of the division of engineering, Iowa State College, president of the national society, gave the annual president's address. Senator A. B. Cummins was the speaker of the evening.

The delegates and their ladies were comfortably housed on the campus as the guests of members of the faculty or in fraternity and club houses. A hundred-mile automobile spin on the Lincoln Highway to Jefferson and return, and a special trip via the Interurban to Wort Dodge were special entertainment features. Several social entertainments were provided for the visitors who included in their number most of the most prominent engineering educators in America.

IOWAN SUCCEEDS COWAN.

Ed F. Vincent, Formerly of Mason City, To Be Chief Engineer of C. & S.

Mason City, June 25.—General Manager E. S. Keller, of the Colorado & Southern Railway Company, today announced the appointment of Ed F. Vincent as chief engineer of the system to succeed H. W. Cowan, deceased. Mr. Vincent was graduated from the Mason City schools and later from Iowa State University in the engineering department. He is an Iowa man thru and thru and his many friends will read of his promotion with a great deal of delight.

REHEARINGS ARE DENIED.

Judge McCull Overrules Motions For New Trials in Damage Suits.

Nevada, June 25.—During a recent adjourned session of the district court Judge McCull overruled motions for new trials in the cases of Margaret A. Johnson vs. the city of Ames and Celia A. Wine vs. C. B. Jones, both cases from Ames. In the first case Mrs. Johnson brought suit against the city of Ames for \$20,000 for injuries received in a fall on a defective sidewalk.

walk. The jury awarded a verdict of \$7,500. J. Y. Luke, city attorney, made motion for a new trial, which was overruled and he has now been instructed by the city council to appeal the case to the supreme court. In the other case Mrs. Wine brought suit against Jones for injuries received when she was struck and knocked over by a motorcycle upon which Jones was riding. She asked damages in the sum of \$5,000 and the jury awarded her a verdict for \$750. Judge Lee, who appeared for Jones, filed a motion for a new trial which was denied and it is probable that this case will be appealed also.

IOWA GIRL FATALLY BURNED.

Anna Roebor, of Whittemore, Loss Life in Starting Fire With Kerosene.

Mason City, June 25.—Miss Anna Roebor was buried today in the cemetery at Whittemore. Her death was a shocking tragedy. Attempting to start a fire with kerosene an explosion took place which blew the can into a hundred pieces, threw oil all over her clothing, and then ignited. Miss Roebor rushed out of the house toward the barn where a man was working, and he seeing her terrible dilemma grabbed a blanket and throwing it around her smothered the flames. But it was too late. Her clothing was so badly burned that it fell at her feet. There was hardly a place on her body as large as the palm of a hand, that was not burned. Up to the very last she said she was going to live. Five hours after the accident she was dead. She was one of the most popular young ladies of Whittemore.

CAR TURTLES; TWO HURT.

Mr. and Mrs. Ed Fitz, of Iowa Falls, Have Narrow Escape From Death.

Iowa Falls, June 25.—Ed Fitz, who lives north of this city, sustained a broken wrist and a number of cuts and bruises when his auto turned turtle and threw him and Mrs. Fitz clear of the car. They were returning home and in crossing the Rock Island tracks northwest of town, Mr. Fitz saw a freight train approaching and speeded up his car to get over the tracks before the train reached the crossing. When he reached the top of the grade, he and his team. He went on at a good speed and saw that the room to pass was narrow, so threw on the emergency brake, resulting in the auto turning over and throwing the occupants clear of the wreck. Mrs. Fitz escaped with minor bruises. The car was not badly damaged in looping the loop.

Church Struck by Lightning.

Special to Times-Republican.

Grundy Center, June 25.—What is known as the Lincoln center church was struck by lightning during the night and burned to the ground. This is the second time that this church has been struck by lightning and burned. It is located about ten miles northwest of Ames and in the midst of a very prosperous German community and no doubt it will be promptly replaced by a fireproof and improved structure.

PHEASANTS THRIVING

MORE THAN 4,000 BIRDS HATCHED ON STATE FAIR GROUNDS PRESERVE THIS SPRING.

ANOTHER THOUSAND IN PROCESS OF INCUBATION

State Engaged in Hatching Ring Necked Exclusively—Appear Better Adapted to Iowa Climate—Closed Season on Pheasants Until 1917—Gay Plumage Too Attractive to Hunters.

Special to Times-Republican.

Des Moines, June 25.—More than 4,000 ring-neck pheasants have been hatched out on the state game preserve on the Iowa state fair grounds this spring and another 1,000 will be coming off within a few days. This is the largest number of birds which has ever been raised in one season on the preserve since it was established in 1913. In July hundreds of birds will be sent out to the county preserves which are now established in every county in the state. The birds have been free from disease this spring but the keeper has lost scores of little birds thru the depredations of ground squirrels and hawks. The hawks in the vicinity of the local preserve have learned to avoid the traps. The hawk is taking a survey of his field of depredations has a way of alighting on some convenient tree or similar observation point. In the local preserve two poles have been erected in different corners of the preserve on the top of which is a steel trap. When the hawk lights on the top of these poles he is caught in the jaws of the trap. The pole is hinged at the bottom so that it can be let down and the big bird can be captured and shot.

Ring Necked Exclusively.

The local preserve is continuing practically all of its attention to the ring-neck pheasants now. These birds seem to be better adapted to the Iowa climate than other varieties. The gay plumaged birds are never permitted to live for hunters will kill them for their plumage in spite of the laws.

PROMISES BETTER FISHING.

Law Compelling Fishways in Dam Sites to Improve Sport.

Special to Times-Republican.

Mason City, June 25.—Game Warden Henshaw says that there is going to be better fishing in Iowa streams, and a good many places all that fishermen

can get from the streams are bullheads and an occasional pickerel. On July 1 the new law is going into effect compelling dam site owners to put in fishways. According to Mr. Henshaw, there are fishways and fishways, and he proposes to see to it that those that are put in really permit fish to go up and down the streams without hindrance and at any and all times of the year. The old fishways were of little practical use, most only a series of steps were put in. At the recent Mason City meeting of Iowa sportsmen the fish proposition was thoroughly gone over. It was the unanimous opinion that fishing was a sport more people enjoyed than any other and the time was to get the game fish into the streams so that in fishing season the sport could be enjoyed. There was a feeling manifest too that fishermen should be asked to take out a license as well as hunters.

REV. CHARLES H. HORN DIED.

Former Head of Grinnell Academy Expires Suddenly in Michigan.

Grinnell, June 25.—The news was received in this city of the death on Tuesday last of Rev. Charles H. Horn, formerly of Grinnell, but for the past three years of Lowell, Mich., where he died at his farm home. Funeral services took place yesterday at Olivet, Mich., his mother's former home. His son John, who has been employed for a year or more in the Merchants National Bank of this city, went to the funeral as representative of Iowa College and the Congregational church of this city, with both of which Mr. Horn was prominently identified. The Horn family lived in Grinnell for several years while Mr. Horn was principal of the academy connected with Iowa College. When this preparatory department was dropped Mr. Horn accepted a similar position in Parsons College at Fairfield but broke down in health and was forced to stop teaching. After a year spent in recuperation in his native state of Michigan, he bought a small farm here and was apparently in fairly good health when the final summons came on Tuesday with but briefest warning.

BREAK GROUND FOR HOTEL.

Work Begun on New \$135,000 Hostelry at Ames—To Be Completed in 150 Days.

Special to Times-Republican.

Ames, June 25.—Iowa State College and the city of Ames will hereafter have ample hotel accommodations for the many convention visitors who come annually to Ames through the signing Thursday of contracts for the new \$135,000 Ames hotel, which is to be completed and turned over to the lessee, the Ames Investment Company, in exactly 150 days from June 24. Ground was broken for the new hotel Thursday.

In order to assure the builders of the hotel, Parley Sheldon and Messrs. H. L. and A. H. Horn, adequate returns on their investment, and thus secure the hotel, the business men and college officials of Ames formed a \$10,000 corporation to lease the hotel. This company may decide to operate the hotel itself. The plans provide for eighty rooms, with a large banquet hall on the fourth floor, and four store rooms on the ground floor. The Story County Bank will occupy the corner on Main street and Kellogg avenue.

EDITS PAPER TWENTY YEARS.

George Althouse, of Ackley World, Celebrates Anniversary.

Special to Times-Republican.

Iowa Falls, June 25.—Editor George F. Althouse of the Ackley World has just passed his twentieth anniversary as editor and publisher of that paper. Mr. Althouse grew up in the printing business in Waterloo and was for a number of years identified with the Courier of that city. Deciding to embark in business for himself, he moved to Ackley and took over the paper which has since been under his direction. For a fifth of a century Mr. Althouse has published the only democratic paper in a community that has been overwhelmingly republican.

Wedding at Grundy Center.

Special to Times-Republican.

Grundy Center, June 25.—The wedding of Miss Maud E. Bussell and Mr. J. H. Henshaw was solemnized at the home of the bride in this city Wednesday evening before about seventy guests. The groom is employed in Indiana and the bride has been a school teacher in this county. Both were raised in this community and were among our best young people. They have a host of friends who wish them well.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without my fingers on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite, and everyone thought I would not live."

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."

Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham's Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Southern Iowa Items

Pella.

Some time Saturday or Sunday night an unknown person entered the meat market of Klyn & De Winter by climbing thru the transom over the back door. The safe was opened and a number of suits taken. Local residents are suspected. No arrests have been made.

Keokuk.

Edward Hemingway, engineer at the Tucker & McManus quarry, had his left arm caught in the machinery in some manner unknown and nearly torn off. Physicians at the hospital here have been granted, but there is a possibility of saving his arm.

Burlington.

Masked highwaymen held up August Plock, the grocerman, Saturday night and robbed him of \$14.50 in cash and some checks. The Plock carried missed \$2,000 which Mr. Plock carried arrested as a suspect and confessed after undergoing the third degree, implicating another man in the crime.

Shenandoah.

The marriage of Miss Irene Davis and Charles Graham of Shenandoah at Clarinda Wednesday, was the 22nd at Clarinda. The wedding in Page county during the last year, according to the statistics on marriage and divorce compiled by George Anderson, county clerk. During this time thirty-three marriages have been granted, or about one divorce to every six marriages.

Centerville.

Frank Beer was arrested, charged with kidnaping, while standing by the open grave of his mother in the local cemetery. Beer was divorced from his wife recently and the little boy given to her. The father, passing the house to go to the home of his mother, picked up the child and took it to the funeral. The mother had the warrant sworn out and while Beer stood by the grave he was arrested.

Centerville.

Mrs. Alles Gerlock, of Unionville, has been bound over to the grand jury charged with attempting to burn the Piker Hill school house. The woman is considered wealthy, of intelligence and high social standing. Evidence was placed against her by the work of bloodhounds, who followed the trail. The state is trying to prove that she wished to place the crime on her brother, thus influencing her father to will his property to her.

Fort Madison.

Judge Hamilton has set June 29 as the date for hearing the motion for a new trial in the case of the Walsingham Packing Company vs. the Mississippi River Power Company. In its trial here last year the jury established a first district record, if not a state record, when it awarded the plaintiff a verdict for \$50,000 damages alleged to have been sustained by the raising of the waters of the Mississippi by the construction of the dam at Keokuk.

Keokuk.

About 7:30 Wednesday morning one of the big freight engines of the M. & St. L. was crossing the street at High avenue west when the "cow catcher" dropping because of the soggy condition of the crossing, struck the street car track and was demolished. The recent wet weather has caused an unsettled condition of the roadbed at this
