ON RAIN IN REGION EAST OF MISSOURI RIVER

Advances in Sympathy With Other Wheat and Unfavorable Weather Conditions—Oats Inclined to Show Strength With Other Grains as Hogs Decline With Hogs.

Chicago, July 12.—Unfavorable weather and bullish cable advices carried the wheat market up grade, with a rain reported in the harvest region east of the Missouri river and clouds to arrive were greatly re-

ceived. Besides a huge decrease was seen in the amount of wheat on the passage. After opening 3/4 cent higher, prices reacted moderately to soon began again to ascend. Brightened setback took place later in the day, but the comparative absence of rain, the smallness of the visible crop from the northwest, the close sale of wheat, compared with the final figure to Saturday.

Corn. Corn rose with wheat and because of weather. Speculators, however, freely on the bulge. The opening price was 1/2 cent higher, 77 1/2. The close was followed by a slight sag, but an upturn all around. Lightness of country offerings tended to check weakness that would have been suffered a down day. The close was steady at 1 cent, 1/4 up compared with Saturday.

Oats. Oats ascended with other grain, July 12, especially strong. Provisions. Provisions caused provisions to decline. Lard, especially suffered from decline.

Daily Grain Letter. Published by Lamson Bros. & Co., Masonic Temple, Phone 133. The wheat market opened 1/2 cent higher with a rush of buying orders as a result of heavy rains over a large part of the winter wheat belt, where planting is in progress. Shorts, who protected themselves with insurance over Sunday, were disposed to buy in the bulge and some of the local buyers bought around outside prices, resulting in a sharp setback. On part of the delayed movement and excellent demand for cash wheat, was steadier and gained 1/2 cent. Considerable volume of export business in new wheat was worked on the day.

The volume of trade in corn moderate and the market followed the course of wheat. July gained 1/2 cent while the deferred deliveries were 1/4 cent lower. The majority of the Chicago stocks 1/2 cent higher, recent heavy rains insure an inland crop and were therefore on the selling side. Cash demand was shipping sales being about 200 bushels. A cargo of 125,000 bushels expected to leave Chicago today, being the Chicago stocks 1/2 cent higher, or about one-third as large as last year.
