GRAVEL EVERY ROAD

POLK COUNTY SUPERVISORS PLAN EXTENSIVE HIGHWAY IMPROVEMENT.

BOOSTER CLUBS ASKED TO AID IN PROJECT

Cost Estimated at \$1,000 Per Mile, or \$190,000 For Entire Road System of County—Completion of Work Would Place County in Front Rank—Funds Are Available.

Des Moines, Sept. 8.—A movement to gravel every mile of Polk county's 190-mile highway system at an approximate cost of \$190,000, putting the entire system in a condition unparalleled by any system perhaps in the middle west, has been started by Harry Barquist, chairman of the Polk county board of supervisors. It was announced from that office yesterday.

Mr. Barquist declares the county road can be put in condition, graveled and sloped at a cost of about \$1,000 per mile. The chairman will take the matter up with the state highway commission, the Des Moines Chamber of Commerce and the Greater Des Moines committee at once. He declares that the county will not be forced to pay the entire cost of the proposition once it is started.

Hyperion Road Model.
The graveling of the county system will put it in the same shape as the Hyperion club road, conceded to be one of the most satisfactory in the country. Mr. Barquist will meet with his most serious obstacle in the highway commission, it is thought. The commission's rules and regulations provide that no road shall be graveled until it has been put into a permanent grade, that is, before it can be graveled it must have had all the hills graded down and cuts and fills repaired to the satisfaction of a competent engineer. The system is not in this shape but Barquist has an argument which he will present to the commission in an effort to obtain a suspension of the rules or to secure a change in them.

Mr. Barquist will take the condition into which the roads have been rendered by the new grading machinery will warrant the use of gravel. The fact that the machinery has proved more than a fair road conditioner has caused the Polk chairman to start his gravel project, he said today.

There is approximately \$45,000 in the county road fund at present. This amount would be available in case the graveling project were started. It is in connection with the cost that the Polk chairman has another idea of his own.

"When the Hyperion road was built," he explained, "the county paid about \$2,000 toward its structure. The rest of the money was contributed by the club and from outside sources. The fact that the county is eager in practically all sections for the graveling process, the county can contribute its \$45,000 and I'm sure the remainder of the \$190,000 or approximately that amount, needed will be raised."

CREAMERY PICNIC AT DOWS.

Seventh Annual Celebration of Co-operative Association to Be Held. Special to Times-Republican.
Dows, Sept. 8.—The seventh annual picnic of the Farmers' Co-operative Creamery Company of Dows, will be held at the Jameson driving park Tuesday, Sept. 14. The event is planned by the creamery management for the purpose of giving the farmers tributary to Dows, their friends and all others, a good time. There will be a full day of entertainment, commencing with a band concert at 10 a. m., an automobile parade to the driving park, to be followed with a program of speeches, and a program of field sports in the afternoon. The program for the day follows:

Music by the band.
Invocation, Rev. D. M. Simpson.
Address of welcome, H. W. Birdsall.
Address, W. B. Barney, state dairy commissioner.
Dinner.
Music by the band.
Address, "The Cost of Paving the Iowa Roads," J. S. Winslow.
Vocal music.
The sporting program, which follows, will include a tug of war, high jump, boys' foot race, girls' foot race, pillow fight and baseball game. Cash prizes will be awarded in all the athletic contests.

FRED JOHNSON CENTRAL FIGURE IN UNCANNY INCIDENT AT NEVADA.

MAN BELIEVED DEAD; UNDERTAKER IS CALLED

Recovers From Stupor to Find Coroner and Undertaker Present to Exercise Their Duties—Laborer Suffering From Strange Malady, Given Up as Dead Suddenly Recovers Faculties.

MAJOR BYERS, FRESHMAN.

Special to Times-Republican.
Nebraska, Sept. 8.—To come out of a stupor to find the coroner and the undertaker leaning over your body prepared to exercise their duties, is something that comes to the lot of few men and would be an experience so uncanny that few would wish to go thru it. Yet that was the experience of Fred Johnson, a laboring man, who was found in a Rock Island car in the yards here Tuesday morning.

About 3 o'clock a hobo came up town and finding Night Police Child told that there was a man in a Rock Island box car dying when he left him and doubtless dead by that time, four hoboes having been working over him for three hours or more and all trace of life had left him. Calling Coroner Houston, the tramp and officer Child went back to the car. An examination showed that the man was apparently rasping his last. His eyes had the east of death, there was no pulse or heartbeat other than an occasional flutter, he occasionally gasped as if in a death struggle, his face and nose were blue and cold and there was every indication that the man was practically dead.

Life Suddenly Restored.

A search of his clothes brought forth a letter showing his name and the address of a brother in St. Louis. Dr. Houston and Officer Child left the man in the care of his companions and going up to the depot telephoned for C. E. Morfoot, the undertaker, to come down and care for the body and inscribed a telegram to the brother. Just as they were about to send the message one of the men came running up from the car and said the man was beginning to breathe again. All hurried back and found the man coming out of his stupor. By the time the un-

Grading Bids Received.

Special to Times-Republican.
Des Moines, Sept. 8.—The executive council received bids today for the grading of the capitol grounds south of the state house. Some 70,000 yards of earth are to be removed in building the curved road and in other grading work. The contract will be let within a few days.

Shenandoah.

Contract has been awarded for the erection of a 400-gallon water tank for this city. The cost of this tank will be \$12,300.

What Cheer.

There were a large number at the river Sunday to witness the baptizing of thirty new members. The Christian and Methodist churches. The former had thirty-two and the latter six.

Des Moines.

Thieves entered the home of D. Townsend Friday night and secured a gold watch which was presented to the photographer's Association of America. The watch was very heavily engraved both inside and out.

Des Moines.

L. Frieson, a contractor reported missing since Wednesday and whose search has been made, is alive. The man called at the grocery store of J. W. Jenny Saturday. He had been finishing a contract and did not know that his housekeeper had brought his three children to Des Moines from Adell in search of him.

Farragut.

The wheat threshed for W. S. Lyle is the best threshed so far in this vicinity. It made over thirty-three bushels to the acre, and tested fifty-five pounds. Four cars of stock cattle were received here Wednesday from Omaha.

Pella.

Mr. and Mrs. A. Hoogenakker celebrated their golden wedding Tuesday at their home in Pella. The occasion was in the nature of a family reunion at which all the ten children were present except two living in Canada. Mr. and Mrs. Hoogenakker were both born in Holland. He came to Pella in 1854 and she in 1855. They were married Aug. 21, 1865, and lived for forty years in a house on Liberty street, after which they moved to their present home in the north part of town.

Centerville.

One of the interesting considerations placed before the Methodist church at Centerville was the proposition offered by Parsons College of Fairfield, for its union with Iowa Wesleyan College and the college at Simpson. Dr. Schell presented the proposition to the conference and made a motion on education referred to the committee on education. The motion was finally passed, with the amendment of Dr. Hatcher, that it be placed in the hands of not only the committee on education, but also before the board of education. It will be properly considered and the committee will report later to the conference.

Harlan.

The special school election held here Friday to determine whether Harlan should build a new \$90,000 high school and a \$30,000 grade school carried by more than 2 to 1 in favor of both propositions. The election followed a discovery that a previous election was illegal. Seven hundred eighty-two votes were cast as follows: For the high school there were 291 men for and 151 against; 288 women for and 137 against. The men spoiled fifteen ballots and the women twenty-four. Total, 615 for and 127 against.

RID LAKE OF CARP.

Take 400,000 Pounds of Fish From Clear Lake In Two Years Time. Special to Times-Republican.
Clear Lake, Sept. 8.—Special Deputy Game Warden N. T. Lattimer has in charge of the carp sealing this summer. He reports that 400,000 pounds of carp have been taken from the waters of Clear Lake last season and this season. According to his statement it has visibly decreased the number in the lake and they are not now such a formidable menace to game fish. Mr. Lattimer says that there are no carp minnows in existence this season, but small perch, bass and pike fry are much in evidence, and he predicts that game fish will improve with every season. The carp will meet with a great onslaught from now until ice begins to form on the water.

Tama News Briefs.

Special to Times-Republican.
Tama, Sept. 8.—P. H. Hixon, aged 72 years, was buried here Tuesday afternoon, with Rev. Jones of Marion, as officiating minister. She was the wife of ex-Mayor P. Hixon of this city, and is well known in this community. Her death was a surprise to all.

Alexander News Briefs.

Special to Times-Republican.
Alexander, Sept. 8.—Rev. Thomas Thompson, pastor of the Congregational church, concludes his pastorate on this field next Sunday. He is 73 years old and is now retiring from active work in the ministry after a good many years of faithful service. His many friends regret to lose him from the community. He will move to Sioux Falls, S. D., where a son and daughter reside.

Lynnville News Briefs.

Special to Times-Republican.
Lynnville, Sept. 7.—Mr. and Mrs. A. A. Baskett and daughter, Mary, returned last week from their trip to Wyoming. J. H. Mendenhall, wife and daughter Marie, who have been visiting their daughter and family in Minnesota, returned home Thursday evening. Mr. W. C. Cunningham and Miss Leslie Fritz were sent as delegates to the laymen's association of the Iowa Annual Conference at Centerville last week. Miss Nellie Elliott returned to her school work in Salida, Colo., Wednesday.

Muscatine.

The new \$90,000 city hall was Thursday afternoon formally turned over to the city officials of Muscatine when the keys of the building was given the city by Contractor James H. Sheldon. This formality followed the acceptance of the building Thursday afternoon by the aldermanic building committee, which has been empowered to do this at a recent meeting of the city council. Alderman D. F. Sullivan, chairman of the committee, presided at the meeting of the committee. The final inspection of the building was completed late in the afternoon and a few minor alterations were ordered but these were of such small importance that further delay in taking over the building was found unnecessary. The actual cost of the new city hall building is estimated at \$85,233.28.

Keokuk.

Edward Louis, 5-year-old son of Milo B. Stephenson, an employe of the cereal works, who resides at 6-9 Paulean street, had a narrow escape from death while playing "fire" in front of the family home. The child's clothing ignited from the bonfire which had been lighted and the body was soon enveloped in flames. Neighbors heard the screams of the child and rushed to his assistance. A heavy blanket was thrown about the body and the flames smothered. This quick action alone saved the boy's life. He was taken into the house and Dr. W. F. Brown summoned. The child was terribly burned about the head and shoulders. The worst burns were sustained about the forehead. All of the hair on the top of the head was signed off. It was feared at first that the injuries would prove fatal but Dr. Brown said that the child would probably recover.

Making Dyes at Home.

The cry, "American-made dyes" seems to have been heard in Duluth, where a factory is turning out daily 200 gallons of benzol, a prominent ingredient of aniline coloring fluids. This company's output is bought up for several months ahead.
