

GOAL MINING REVIVED

INDUSTRY AT LEHIGH, WEBSTER COUNTY, TAKING ON NEW LIFE.

SEVERAL NEW MINES NOW BEING DEVELOPED

Valuable Vains of Coal Uncovered and Extensive Operations to Be Resumed in Former Prosperous Northwest Iowa District—Aerial Railway May Be Built Across River.

Lehigh, Sept. 9.—The coal mining industry of Lehigh is now exceedingly active. Last week Messrs. R. P. Orris and W. C. Heslop started work on a new shaft with which they will reach a large vein of coal. Saturday Messrs. Robert Taylor, John Longstaff, and M. H. Williams reached a fine vein of coal with a sixty-five foot slope in the "Harper Hollow" where they will be enabled to remove a large amount of coal the coming winter. Monday H. L. Dayton began sinking a new shaft on his property down the river a short distance below town on the east side of the river. The latter will sink a shaft fifty feet deep, and this shaft will reach two veins of coal, the first to a depth of about twenty-six feet and the latter at a depth of fifty feet. Mr. Dayton found the coal while drilling early in the summer and off and on during the summer has been sinking other holes on his property and has the coal thoroughly drilled and is very enthusiastic over the prospects for a big mine. The first vein of coal reached is known as the "Pretty Vein" and the latter is what is termed the "No. 5 Vein."

May Erect Aerial Railway. The Pretty Vein runs from sixteen inches to two and a half feet in thickness and the lower vein runs from three feet to nearly five feet in thickness. Mr. Dayton's property is below the Crooked Creek railroad tracks and at the present time he has no railroad connections. He has had a cable way from the mine across the river to the Great Western railroad tracks, near the James Campbell brick and tile plant, and after the mine is thoroughly opened up will probably use this method in reaching the coal. Mr. Dayton reports that he has thoroughly drilled his piece of land the entire distance of sixty rods along the face of the coal and fifty 400 feet back in the hill, and he finds an abundance of excellent coal. The addition of these three new mines to the coal mining industry of Lehigh, which was said to have been ended last spring when Sam McClure closed his mine, gives a decided impetus to the situation and old Lehigh will still be getting out coal for the children of the future generation, as it has furnished the coal for the surrounding community since the advent of the earliest settlers.

RAIN MARS GRINNELL FAIR.

Programs and Races Interrupted With Heavy Downpour.

Grinnell, Sept. 9.—In spite of all the very bright promises on Monday of this week the Grinnell fair has had a most deplorable time. The heavy rain of Monday night and early Tuesday morning spoiled the track for the day and there was no racing on either day or evening Tuesday. The attendance

CITY EXPENSES RISING

Cost of Running Municipal Governments of Iowa Find Large Budgets Necessary—Many Are Going into Debt.

Des Moines, Sept. 9.—Municipal expenditures in 851 cities and towns of Iowa increased \$2,255,000 during the fiscal year which ended April 1, 1915, compared with the year previous, according to the report which is being prepared by George Gallarri, chief clerk of the municipal accounting department of the state. In the same period receipts increased \$1,742,000. Taxpayers paid \$17,009,000 for the support of municipal government in 851 cities during the last fiscal year. This was slightly less than the expenditures, which totalled \$17,055,000. For the fiscal year previous the receipts were \$15,267,000, and the expenditures \$14,830,000. The complete report of the municipalities will be issued next Monday. It is expected to show that the commission governed cities of the state have grown faster in population and made more improvements than other cities.

The main feature of the report will be the fact that municipal expenses have increased a little more than thirteen per cent in the last fiscal year. Heavy investments in improvements account for much of this increase, it is said. During the last twelve months several hundred of the smaller cities of the state have put in paving. In many of the small places put in sixty-five blocks of paving. The figures on the operation of city government in the cities with the city manager plan are now being compiled. It is thought that the statement will not show much difference over the previous fiscal year.

Grinnell and Vicinity. Special to Times-Republican. Grinnell, Sept. 9.—Mr. N. R. Morris, whose home is in Illinois but who has been visiting for some time in Grinnell, is spending a few days in this city visiting his brother, H. H. Morris, and will also visit another brother, George Morris, living on a farm north of here.

The following invited guests from Grinnell went to the summer home of Mrs. Valleau at Lake Okoboji to be present last evening at the marriage of Miss Emma Valleau to Mr. S. Porter Brainard, of Sanborn; Mr. and Mrs. A. C. Lyon, Mr. and Mrs. J. L. Fellows, Mr. and Mrs. George F. Ross, Mrs. Evelyn Spencer Bray, Miss Jessie Christian, and Miss Edna Lyon. Rev. and Mrs. A. B. DeHaan are expected for a short visit in Grinnell before long. Notice has been received here of their landing at San Francisco on the 6th of this month. Mr. De Haan is a graduate of Iowa College and has been in the China mission field for some years but has recently been recalled to his native country to assist in the campaign which the American board is soon to start.

Frank Appleby, editor-in-chief of Iowa College Scare and Black, and Cyril Clifton of Sutherland, the business manager, are both in Grinnell making early preparations for a vigorous campaign in the interest of the college and the paper, the first issue of which will appear next week. Mr. Appleby has been spending the summer vacation at Ludington, Mich. C. F. Ricker, Jr., is visiting for a week at the parental home in this city after a couple of years spent in the mining region of Lead, S. D., in the employ of the Homestake Mining Company. He plans now to return to Iowa State College to complete his course of study.

Mrs. D. S. Bartlett is having a visit from Mr. and Mrs. E. Grossman, of Chicago. Mrs. Grossman was Miss Cornelia Bartlett. Mr. Grossman is an architect. Miss Mary Frisbie, of Iowa College.

Business Change at Hampton. Hampton, Sept. 9.—On Monday, the agricultural implement firm of A. J. Finger & Paulus, that has conducted a successful business on Walnut street, moved out the store and real estate to O. H. Pagelow, of Iowa Falls, the consideration totaling over sixteen thousand dollars. The business will be under the immediate management of a former resident of this city, Mr. R. L. Mendell.

Montour News Mention. Special to Times-Republican. Montour, Sept. 9.—E. M. Wright, of Atoson, who has been visiting for the past two weeks with Mr. and Mrs. Carl Irish, returned home yesterday. John Lipps, of Waterloo, was calling on friends yesterday. Mr. and Mrs. Joe Stagsdal and daughter left for the Pacific coast yesterday. A. F. Smith has also gone to the Pacific coast.

At Least Nine Would Be Lay Delegates to Saratoga Springs Conference. Special to Times-Republican. Mason City, Sept. 9.—The laymen's conference at the Dubuque meeting of the Upper Iowa Methodist Episcopal conference, is going to be an interesting one when it comes to the selection of lay delegates to the general conference which meets at Saratoga Springs, N. Y., next May. This election will occur on Friday, Sept. 17. Circulars received here announce the candidacy of at least nine and several more are known to have an itching for position and hope they may come in as a dark horse. Senator J. B. Robinson, of Hampton; Senator Willard Stuckelager, of Lisbon; W. J. Elliott, of Cedar Rapids; Judge S. M. Weaver, of Iowa Falls; W. F. Muse, of Mason City; S. W. Mercer, of Iowa City; A. B. Rathburn, of Clinton; Prof. C. P. Colgrove, of Cedar Falls; and John Lister, of Conrad, all have excellent backing in their candidacies. Only six are to be chosen. While there are six districts in the selection of delegates this has figures but little. It is usual to pick two delegates from the same district.

COCONUT OIL FINE

For Washing Hair

If you want to keep your hair in good condition, the less soap you use the better. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulified coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get mulified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

Dr. Wilbert Shallenberger, Chicago, Ill. Dear Doctor:—Eight years ago I consulted you and felt fully satisfied that in the condition I was in at that time my days were numbered. I had consulted and treated with numerous physicians, but received no results. I had been unable to work for two years previous to seeing you. I decided finally as a last chance to consult you, and was impressed by your careful examination and by your apparent perfect understanding of my case. You prescribed for me and I followed your treatment to the letter. My stomach rapidly improved and I began gaining weight and strength. For years I suffered with a cough. Today I weigh 220 pounds and never felt better in my life, and Doctor I write this to tell you that I owe my new lease on life and present good health all to you. Wishing you long and continued success. Respectfully yours, C. E. Wentzel, Beaman, Iowa.—Adv

MUSTY OATS KILL COLTS.

Forage Poisoning Causes Death of Three Animals Near Ankeny. Special to Times-Republican. Des Moines, Sept. 9.—State Veterinarian C. I. Gibson yesterday reported that three colts near Ankeny had died and the owner was unable to learn the cause of their death. A veterinarian was dispatched to the place and found that the animals had been eating musty oats which had undoubtedly caused forage poisoning. Dr. Gibson says there is considerable danger from such trouble this fall because so much of the grain and also the hay is apt to be musty or spoiled. The state veterinarian's department is taking extra precautions to prevent any outbreak of the foot and mouth disease here. The department has asked the executive council for permission to send a representative to the Illinois state fair at Springfield, Sept. 17 to 25, to thoroughly inspect all Iowa cattle shows there before they are returned to this state.
