

WHEAT VALUES JUMP AS RAINS CONTINUE

PREDICTIONS OF ADDITIONAL DOWNPOURS OVER SUNDAY MAKE TRADERS BULLISH.

LIVERPOOL STRENGTH ALSO AFFECTS PRICES

Corn Hardens in Sympathy With the Upward Tendency of Wheat and Because of Wet Weather—Heavy Winds Do Much Damage to Crop in Central Illinois—Oats Sympathetic.

Chicago, Sept. 11.—Wheat made a fresh upward jump today in consequence of further rains and because of predictions of additional downpours all over the domestic belt before Monday. Higher quotations at Liverpool counted also against the bears. Opening prices, which ranged from the same as last night to 1/4 up, with September at 99 1/2 to 1.00, and December at 94 to 94 1/2, were followed by a quick general advance, which, in some cases amounted to 2 1/2 cents.

The close was weak at the same as last night to 1 cent higher, with September at 99 1/2, and December at 95.

Corn. Corn hardened with wheat and as a result of unfavorable weather. Reports were current that much corn had been blown down by contrary winds in central Illinois. After opening a shade lower to 1/4 advance, the market scored a moderate rise all around.

Oats. Oats reflected the strength of other grain. Selling was scattered.

Provisions. Not much activity was shown in provisions. The market averaged a little higher with grain.

Daily Grain Letter. [Furnished by Lamson Bros. & Co., Masonic Temple, Phone 133.] Chicago, Sept. 11.—Wheat—Urgent covering of short wheat brought an advance of about 3 cents a bushel early in today's session. Realizing sales and pressure of liberal buying brought a sharp reaction and only a small part of the advance was held at the close. Offerings of winter wheat continue light and the demand from domestic sources is good. In the northwest territory reports of increased receipts and export business turning mostly to the spring wheat market. Premiums for choice wheat here were maintained but the demand for lower grades was relatively poor. Primary receipts for the week have been 12,988,000 while shipments have been a little heavier than those of a year ago for the same period.

Corn—Strength in wheat and the forecast for unsettled weather advanced corn prices early but when wheat turned weak corn followed and lost about 1 cent a bushel from the high point. A report that the cargo of Argentine wheat had been bought by New York interests for September shipment encouraged a considerable volume of local selling. Cash demand was good and prices advanced early with the September delivery. A large portion, however, of the day's receipts came late and were hard to dispose of.

Oats—Altogether sympathizing to some extent with other grains oats were firm throughout the day and closed at a small advance. Country offerings are light and receipts little in excess of daily domestic requirements. House selling resulted in a loss of most of the early gain and the market closed easy.

Insurgent Miners of District 13 Defeated in Referendum. Des Moines, Sept. 11.—Insurgent miners of district 13 have lost their fight tooust President W. H. Rodgers and Vice President Sam Ballantyne, both of Albia.

Some time ago a referendum of district 13 was ordered to determine whether a special convention should be held at which one of the two officers was to be proposed.

Counting of the ballots was completed this morning. There were 4,718 votes for the convention, and 6,053 against it.

The insurgent faction became angry at President Rodgers' decision in the Durfee mining district case, when he imposed a fine regarding payment for certain work that they did not like.

Rain Stops Ball Tourney. Special to Times-Republican. Hampton, Sept. 11.—In the ball games here Thursday the first day of the tournament, Hampton, beat Wellsburg 2 to 1, and Dows was defeated by Rockwell by a score of 5 and 7. Rain prevented all games Friday, but the contests scheduled for that day may be played out soon.

His Rest Was Broken. O. D. Wright, Rosemont, Neb., writes: "For about six months I was bothered with shooting and continual pains in the region of my kidneys. My rest was broken nearly every night by frequent action of my kidneys. I was advised by my doctor to try Foley's Kidney Pills and one 60 cent bottle made a well man of me. I can always recommend Foley's Kidney Pills for I know they are good." This splendid remedy for backache, rheumatism, sore muscles and swollen joints contains no habit forming drugs. HOGS COMING IN PLENTIFUL SUPPLY

FAIR DEMAND CONTINUES DESPITE UNEXPECTEDLY HEAVY RECEIPTS.

LIGHTS STILL IN HIGH FAVOR AMONG BUYERS

Price Range Narrowing—Bulk of Cattle, Sheep and Hogs Consigned Direct to Big Killers—Review of Market Conditions—Current Quotations at Livestock Centers.

Chicago, Sept. 11.—Hogs were in fair demand today but sellers were handicapped by the supply being somewhat more plentiful than expected. Lights were in favor. Shippers have been in the trade lately for packing grades and this has caused that class to move up in the price list and the market of late is narrower than at the start of the week. Friday's receipts were about as expected. There were 1,519 hogs carried over from Thursday, which was the highest layer of the week thus far. Armour had around 500 hogs in direct from another market. The day's offerings were in quite moderate and prices were able to continue their upward climb. Friday's rates being considerably higher than Tuesday, which was the low day of the week.

Eleven markets received 47,160 hogs Friday, or 400 more than last Friday, 18,070,000 more than the week before, less than two years ago. Total thus far this week 296,000, or 8,000 less than same period last week, 49,000 more than like time last year and 97,000 less than corresponding five days two years ago. Total for 1913 to date, 2,187,000 more than same period 1914 and 1,263,000 more than corresponding time 1913.

Cattle. Most of the cattle went to killers direct. A combination of adversity has hit the market. Biggest receipts of the year have been this week. Jewish holidays contributed to the price collapse by reason of cutting of the kosher demand, and the reported bad market here, of course, had their share of influence in enabling buyers to hammer the values. Similar conditions have been noted in the west as well, where big supplies were also had.

There is belief now, however, that the trade has hit the low spot, but the paramount need is a small run at the start next week to give the market some little chance of recuperation. Next week's receipts are expected to be about 100,000 more than today and thus will not affect the Monday kosher buying business.

A world of grass-fed stuff has been here this week, coming from Wisconsin, Illinois and Iowa, and it has been hammered terrifically in value. Grains of fat content have been down to 2.35 Friday and a 1,325-pound load sold at 7.85 which looked like the 8.50 @8.75 kind last Monday. LAGET GREAT SUCCESS. Norwegian Gathering at Eagle Grove Attended by 5,000 People. Special to Times-Republican.

Eagle Grove, Sept. 11.—The annual gathering of the Stavanger Laget, the Iowa Norwegian association of persons who formerly lived at or are descendants of persons who came from Stavanger, Norway, closed here Thursday after a most successful two days' session. Five thousand people were in attendance. Governor George W. Clarke gave a fine address on Wednesday, and there was an address by Bertel Bellesen, of Jewell, secretary of the laget, who was the association's delegate to the Stavanger centennial of Norway's independence, celebrated last year at Stavanger.

WILL INVESTIGATE CHARGES. Control Board to Inquire into Alleged Mistreatment of Insane Patients. Des Moines, Sept. 11.—Charges of mistreatment by attendants of patients in the state hospital of the insane, made by Dr. Amelia Dickinson, will be investigated by the state board of control, which will go to Mount Pleasant for that purpose next Tuesday.

Dr. Dickinson charges that the attendants strike patients who do not immediately obey orders and that proper sanitary precautions are not taken in treating the violent patients.

How the Body is Nourished. The bodily process known as assimilation is well explained in these words: "As the blood, in its circulation, approaches any organ, the portions that are appropriate for that organ feel its attractive force, obey it, and leaving the others, mingle with the substance of its tissue and are changed into its own true and proper nature."

How important it is that the blood should be pure and rich, not loaded with worn-out and useless matters! Hood's Sarsaparilla purifies and enriches the blood, and does all it is possible for medicine to do in the way of perfecting assimilation and building up the whole system. When you have made up your mind to take Hood's Sarsaparilla, insist on having it—don't accept a substitute, for no substitute acts like it.

SHIPPING BILL MAY SPLIT DEMOCRATS

COLONEL WATTERSON AND OTHERS WARN PRESIDENT OF DANGEROUS ATTITUDE.

WILSON TO UNDERTAKE TO FORCE MEASURE

Opposition of Watterson and Other Old-Line Democrats Based on General Objections to Government Ownership—Open Fight in Congress Forecast—Administration Fortifies Position.

[Special Correspondence.] Washington, Sept. 11.—Merry war is looked for in the next session of congress over the bill for the government ownership of a merchant marine. It promises to cause a lot of factional strife among the democrats. The expectation is that the president will be successful in forcing a bill thru but that it will take time and will cause hard fighting both in house and senate.

The recent warning from Col. Henry Watterson, of Louisville, to the president to drop the shipping bill and his further warning that if persisted in it will split the democratic party are looked on here as forecasting the attitude of a good many of the conservative democrats in congress. Some of these men will line up for whatever the administration wants, having regard to the patronage in the hands of the White House. Others will stand out.

Reason For Opposition. Down at bottom, the opposition of Colonel Watterson and other conservative democrats is based on opposition to the idea of government ownership. Government ownership of a merchant marine is considered the entering wedge to government ownership of the telephones and telegraphs and, later of the railroads. On the other hand, it is true that the government ownership men in congress are for the shipping bill not because they are pleased with the details of the bill but because they see in it the start toward government ownership of the railroads and other interstate utilities. So it happens that while there is opposition in congress to the shipping bill because it sets a precedent for government ownership, there is support for it which it would not get otherwise because it is in line with the general policy of government ownership.

Indications are the administration will play better tactics the coming winter in promoting the shipping bill than it did last winter. For one thing,

A Chance to See the Mogul 8-16 Oil Tractor at Work

Over 16,000 farmers traveled a good many miles to witness tractor demonstrations held in various parts of the country this summer. Without going very far away from home, farmers who attend the fair at Marshalltown this year will have an opportunity of seeing the Mogul 8-16, one of the very few successful kerosene-burning tractors, in a complete demonstration. Mogul 8-16 is a real kerosene-burning tractor. It can be run at an expense little higher than half what it costs to run a gasoline engine doing the same work, and it is easier to handle and can be used for a greater variety of work than almost any other form of farm power. It costs less than horses to buy and to run, and it does better and more work than horses. Mogul 8-16 has a reliable, long-wearing, slow speed engine; handles like an automobile, and costs only \$675 cash, f. o. b. Chicago. Come to the demonstration at the fair and see the evidence for yourself. Do not miss this opportunity.
