"LADY IN RED" CLOSING.

Musical Comedy Company Cancels Dates for "Indefinite Time."

Manager James Rachford, of the Odeon, received this morning a telephone message from A. J. Busby, of Waterloo, announcing that "The Lady in Red," the big musical comedy, which was booked here for Thursday and Friday nights of this week, had closed for "an indefinite time." The show evidently closed Monday night, as it was booked for Clinton this evening, Waterloo Wednesday, and Marshalltown Thursday and Friday. Manager Busby said there was a possibility of a later date being arranged.

The news of the canceling of the engagement will come as a disappointment to many fair visitors and local people as well. A good mail order seat sale was already in for the two nights.

Hair Made Curly In Single Night

(Woman's Tribune.)

It has been discovered that the application of liquid silymerine actually makes straight hair curly and wavy in a single night! Also it acts as a perfectly harmless hair beautifier and dressing. It has the peculiar quality of drying in pretty waves, curls and crimps.

Straight, lanky hair and the cruel curling iron are no longer necessary. A trust of course can supply you with few ounces of the liquid silymerine, enough to keep the hair curly for several weeks. It is neither sticky nor greasy, but very pleasant to use. Apply to the hair at bedtime with a clean tooth brush. In the morning your hair will be very beautiful and have a most natural curl and wave.

Not Settled Yet.

"Is the head of the house at home?" asked the agent as the mister of the family answered the doorbell. Making no effort to answer the question, the mister person said: "I don't know what line of goods you are introducing or whether they would fit in our establishment or not, that phase of the matter being neither here nor there; but let me tell you something: If you can establish once for all just who is to be recognized as the head of this house, I'll buy a gross of whatever you've got and pay the catalogue price."

Worth While Quotation.

To work, to help, and to be helped, to learn sympathy through suffering, to learn faith by perplexity, to reach truth through wonder—behold!—this is what it is to live.—Phillips Brooks.

No Indians in 100 Years. The American full-blooded Indian, of course, will not be extinct within the life of any person now living, but it will not be more than a century when the original American will have passed off this continent. There are enough Indians left on the reservations to keep up the full-blood line for 100 years, but tuberculosis and the change of environment have done their work, until now there are comparatively few full-bloods left on any of the reservations.

Easy to Effect Saving. The prospect of a rise in the price of mustard should not cause much consternation; is there any item on which a saving could more easily be effected? The head of a famous firm that has built a fortune upon the manufacture of mustard once confessed that the money came to him not from the mustard we use but the mustard we waste. Not one of us but proves the truth of the statement every time we use the mustard pot and dab down on the side of our plate five times the quantity we are likely to eat.

Retain Jewel of Friendship. If we have had the good fortune to win the esteem of a friend, let us do anything rather than lose him. We must give and forgive, live and let live. If our friends have faults, we must bear with them. We must hope all things, believe all things, endure all things, rather than lose that most precious of all earthly possessions, a trustworthy friend.
