STUDEBAKER CAR \$845

Seven-Passenger Forty Horse Power, Four Studebaker Now \$845 F. O. B. Factory—Most Powerful Car at Its Price in America—Sold in Marshalltown by the G. W. Darling Company.

Studebaker cuts the price, the seven passenger forty horse power "four" at \$845, f. o. b. factory. The Studebaker four cylinder car at \$845 is the only seven passenger, four cylinder with 3 1/2 bore and 5 inch stroke, forty horse that has ever been offered in America or Europe for less than \$1,000. It is the most powerful car at its price on the market. In flexibility and pulling power the four equals most sixes.

Owing to the large territory we control, and the increase in business and the great value of the Studebaker line, we have decided to discontinue the Overland line. We feel by so doing we will be in a better position to give our customers better service than ever before. This change will in no way affect the service on cars bought of us in the past. Remember that we give six months' free inspection service. Watch for our announcement on the Hudson Super Six. The G. W. Darling Company, 1921-23 West State street.
