

CHILD GETS SICK, CROSS, FEVERISH IF CONSTIPATED

LOOK AT TONGUE! THEN GIVE FRUIT LAXATIVE FOR STOMACH, LIVER, BOWELS.

"CALIFORNIA SYRUP OF FIGS" CAN'T HARM CHILDREN AND THEY LOVE IT.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act normally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ailments; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again.

Keep it handy in your home. A little given twice a day to a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."

COW INFECTS BABY

TUBERCULAR ANIMAL CAUSES CRITICAL ILLNESS OF CHILD WHO PARTOOK OF MILK.

INSPECTION NEEDED, DECLARES DR. GIBSON

People of Small Towns at Mercy of Milkmen Whose Herds Are Uninspected - State Veterinarian Says Iowa is Far Behind Other States in Matter of Protecting Public.

Des Moines, March 5.—With her baby suffering from tubercular glands caused by using milk from a cow having a tubercular udder, Mrs. L. Oncley, of Fayette, Iowa, has written Dr. G. I. Gibson, state veterinarian urging a state law for the inspection of dairy cattle.

"At present we have a very sick baby suffering from tubercular glands directly due to milk from a cow suffering with a tubercular udder," she writes. "We used the milk for several months after the baby took sick, as we did not suspect our milk supply. Several months ago the cow slipped in her stall and broke her neck. A veterinarian was called and found a badly affected tubercular udder.

"The man who owns this cow had been treating it for several months but did not tell me the cow was afflicted in any way. His excuse now is that he did not know it was tubercular. He used the milk for his family and his daughter and another girl both had swollen glands in the neck beginning about the time our baby took sick.

"Our baby has never had any milk except what we got from this cow so there is no doubt as to the source of our infection. I feel that this man should have been compelled to have had a veterinarian see this cow when the trouble first appeared or not have sold the milk.

"We people in the small towns are at the mercy of the milkman. He can sell us what he likes. In larger cities we can get inspected milk. All we can do here is to trust to fate. "The city council here has promised to pass an ordinance for the inspection of cows but I feel that the mothers all over the state should have some provision for the lives of their babies and I feel it to be my duty to do all in my power to save the other babies from the fate of mine."

Dr. Gibson, state veterinarian, is strongly in favor of legislation providing for the inspection of dairy cattle. He believes that some provision should be paid by the state for reimbursing owners of cattle which have been found to be tubercular, and which have to be killed. Iowa is far behind many of the other states of the union in this question of inspection of dairy cows.

MARKET MILK CONTESTS

Advance Step Taken in "Better Milk For Iowa" Campaign. Ames, March 15.—Taking one step farther than any other school in the country in their "better milk for Iowa" campaign, the dairy department at Iowa State College announces that it will hold its second annual series of market milk contests, open to any milk dealer in the state, on March 23, May 18, Sept. 29 and Dec. 29.

In each contest there will be a raw and a pasteurized milk class. The three highest scores received by each exhibitor during the year will be averaged and all dealers receiving scores of 90 or above will receive honor certificates stating their scores. The samples will be scored according to the official United States score card for milk and after each contest the exhibitors will receive their detailed scores with criticism.

KANAWHA FOR SUFFRAGE

Resident Takes Poll of Citizens and Finds Majority For Women. Kanawha, March 13.—Editor Times-Republican: Last Saturday I noticed an item in the T-R regarding the sentiment for equal suffrage in Toledo. About two weeks ago I got interested in looking that matter up in this locality. So I sent for 100 "Votes For Women" buttons and a week ago Saturday I started to ask people at San-

AT ONCE! STOPS STOMACH MISERY AND INDIGESTION

INSTANT RELIEF FROM SOURNESS, GAS, HEARTBURN, ACIDITY, DYSPEPSIA. "PAPE'S DIAPEPSIN" IS QUICKEST AND SUREST STOMACH RELIEF KNOWN.

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate, undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and sourness.

dom as I met them on the streets of Kanawha, how they felt about it. Up to this time they have expressed themselves as follows: Sixty said straight out they were in favor of it and wanted to wear the button, thirteen said they decided not to wear it and did not know what they would do, one said straight out he would not vote for it. In the meantime four of those who expressed themselves as not yet decided have since come and asked for the button and said they decided to vote for it, and the leaves it like this: Sixty-four for, ten doubtful, one against. Ole T. Ritkanrud.

SWALLOWS BEAUTY PIN.

Operation Fails to Save Life of Baby Girl Near New Hampton. Special to Times-Republican.

New Hampton, March 15.—A baby girl living in this county met a tragic death as the result of swallowing a beauty pin. While lying on her back on the floor she swallowed the pin. A surgeon was summoned at once. As a last resort in the effort to save the child's life, an operation was performed near the appendix, where the pin was located. It was thought she would recover but sinking spells and convulsions set in and death followed shortly.

Insane Patient Escapes. Cherokee, March 15.—Much excitement has been caused here by the escape from the state insane hospital of Fred Brockway, held in the institution as criminally insane. Brockway had made threats against numerous Cherokee residents and the news of his escape induced a large amount of nervousness. All trains leaving Cherokee are being searched.

Fred Brockway is the son of Mrs. E. N. Brockway, one of Cherokee's wealthy citizens. The young man developed an uncontrollable criminal instinct, apparently due to insanity. He served time in the Oregon and Missouri penitentiaries for petty forgeries and robberies. It was on the application of his mother that he was placed in the asylum here about six months ago.

When to Take Chamberlain's Tablets. When you feel dull and stupid after eating. When constipated or bilious. When you have a sick headache. When you have a sour stomach. When you belch after eating. When you have indigestion. When nervous or despondent. When you have no relish for your meals. When your liver is torpid. Obtainable everywhere.—Advertisement.

Southern Iowa Items

Shenandoah. According to reports reaching here, a white hen on the farm of Mrs. I. M. Hammond has adopted a six-week-old grey kitten which mother died a sudden and violent death. Mrs. Hammond denies that the story is a "nature fake."

Marionville. Marion county is being visited by a variety of contagions that are causing a general alarm. At Dallas and Melcher the schools are closed because of diphtheria. At Hamilton the schools are closed because of an epidemic of measles in a very severe form. Two grown persons have already succumbed there.

Washington. The preliminary plans drawn by Architect Henry Eckland of Moline for the improvements to be made at the city hall have been accepted by the city council and the architect was instructed to go ahead with the plans. Work on the remodeling of the city edifice will be started as soon as the plans are completed. The improvements to be made will approximate \$4,700.

Des Moines. Sam Cohen, traveling salesman for a jewelry firm, told the police Sunday night that \$3,000 in diamonds and pearls had been stolen from his room at the Brown apartments. There were twenty-one individual diamonds, a pearl necklace and a pin with nineteen small diamonds in it. Cohen left the room for a time Saturday afternoon and when he returned the jewels were gone.

Burlington. T. W. Kimler, 50 years old, lies at the point of death in a local hospital from a fractured skull and Dr. E. W. Smith, a dentist, is seriously but not fatally hurt, as the result of the overturning of the latter's automobile in which the men were riding early Sunday morning. The car was proceeding at a high rate of speed and spilled when in turning a corner it struck a projecting brick in the pavement.

Solon. What seems to be a recurrence of the disease caused by a soft-spilled corn, which attacked a number of horses here last fall, occurred again when William Dvorsky lost a young horse of unknown causes. It seems probable its death came from the immature, probably poisonous corn, which is now thawing out after the winter. There is a great amount of spoiled moldy corn in every crib and great care will be necessary to prevent losses this spring, it is said.

Leta. Phillip Wagner, a farmer residing near this place, lost four fingers of his right hand Monday when his hand became caught in the cogs of the corn shredding machine. The accident occurred at his farm near here at about 10 o'clock. He was brushing aside some of the shredded corn when his hand was drawn into the cogs. Dr. [Name] was called and rendered prompt medical attention. Later it was decided to remove the injured man to a Muscatine hospital for treatment.

Blakesburg. Word was received here Sunday evening by the [Name] of the death of her son, Joe, which occurred Sunday at Stockton, Cal. The body will be brought to his old home at Blakesburg for burial. He is survived by six sisters and two brothers beside the mother. A peculiar circumstance is the fact that the whereabouts of Joe was unknown to his family until last December, when a letter announced his location in California, he having been out of communication with his family for sixteen years.

Des Moines. Hubert Eaves, 11 year old colored boy, refuses to salute the flag. He says he is a Christian and recognizes the Lord as his chief and only master. His mother upholds his attitude. She says

ARMOUR MEN STICK

REFUSE TO JOIN CUDAHY EMPLOYEES IN LATEST STRIKE AT SIOUX CITY.

EFFORT TO BE MADE TO ORGANIZE UNION

Strikers Hope to Enlist Aid of Packing House Employees at Omaha and Kansas City in Order to Enforce Demands For Unbreakable Agreement With Employers.

Sioux City, March 15.—While strikers at the Cudahy plant are expressing hopes that the Armour employees will join them, the officials of the latter plant predict that there will be no trouble. The Armour men stated that none of their employes have cause for complaint and that there are no signs of trouble.

The strikers announced thru Frank Cady, a member of the committee in the first strike, that the men will be organized into a union and affiliated with the Amalgamated Meat Cutters' and Butchers' Union of North America. A delegation will visit the trades and labor assembly Thursday evening and complete the organization. They hope to obtain the backing of all union men. At a later date delegations will be sent to Omaha and Kansas City in the hope of organizing similar unions.

One of the incidents at the Armour plant gave rise to various rumors. Charles Morris, of the sheet and metal works department, was laid off. It was explained that business is slack and the reduction of the working forces is necessary on account of business activity. Morris was active in the first of the three recent strikes. He was a member of the original strike committee and went to Omaha with the delegation seeking sympathy.

Demanding an "unbreakable pact" on the part of the packers, the 1,100 workers of the Cudahy plant, who went out yesterday on the third strike of the winter, declared they would remain out until the obligations assumed upon by the packers two weeks ago were fulfilled. They demand the full reinstatement of the nine employes whose discharge without explanation

caused the walkout. A meeting of the strikers to consider future action is being held this morning. Effort of the committee is now aimed at preventing the strike from spreading to the Armour plant and reproducing the conditions that existed here during the first strike when 2,500 men walked out. The strikers contend that unless the Armour men join their ranks, and that a sympathetic strike will not be interfered with by them.

IOWA MINERS ASK INCREASE. Union Officials Believe Demands of Men Will Be Granted. Special to Times-Republican.

Des Moines, March 15.—Iowa miners are asking for an increase in wages this spring and it is the opinion of union officials here that the increase will be granted. The wage scale is due to be signed up about April 1. J. P. White, president of the United Mine Workers of America, who has been conducting the negotiations for the miners in Pennsylvania the past several days, in their efforts for an increase, is expected back to Iowa soon to attend the state miners convention here.

"The war has taken many coal miners out of this country and kept many more from coming in," said Edward Sweeney, state mine inspector, yesterday, in commenting on mining conditions in the state and elsewhere. "For that reason mine labor is scarce over the country generally. In the eastern field the shortage is more noticeable than here."

It has been the custom in the eastern fields when strikes were impending for the big operators to bring in whole ship loads of miners from foreign countries. This method of obtaining a labor supply has necessarily been cut off by the war. There is, therefore, a comparatively small number of miners in this country now than for many years, so union men here say.

Work will stop in the Iowa mines the first of April pending a wage agreement between the union men here say. It will only be in case no agreement is reached between representatives of the miners and the mine operators that work will be stopped. There is a clause in the agreement between the mine workers and operators providing for their continuing working while the two year wage agreement is being fixed up.

Iowa now has upwards of 16,000 men employed in the coal mines. It is reported that the output of coal in the mining districts of the state this year has been larger than ever, due to the fact that new fields are being worked.

MARRIED FIFTY YEARS.

Mr. and Mrs. J. A. Morrison, of Rockwell City, Observe Anniversary. Special to Times-Republican.

Rockwell City, March 15.—Mr. and Mrs. J. A. Morrison celebrated their golden wedding this week with appropriate ceremonies. Their seven children were all home and with the group of grandchildren; the home of the grandparents was a lively place. Saturday the Grand Army of the Republic, of which Mr. Morrison is a member, entertained the couple in the corps rooms. A nice luncheon was served and a gold piece given to them. This worthy couple have lived in Rockwell City for a number of years and are held in high esteem. The whole town extends to them the kindest wishes for many happy returns of the day.

FORT DODGE JEWELER FAILS.

Forced Into Bankruptcy By Assignment of Eastern Firm. Fort Dodge, March 15.—Harry D. Beresford, who has been in the jewelry business in Fort Dodge for the last ten years, thru his attorneys filed a petition in bankruptcy. Liabilities are given at \$21,000 and assets at \$18,500. The failure of Mr. Beresford in this business is probably due to the failure of one of his heaviest creditors, the H. Roseberg & Son Company, of Buffalo, N. Y. This firm went into the hands of receivers recently and made an assignment to the bank of Buffalo.

Several other Iowa concerns have gone into bankruptcy since the assignment made by the Roseberg company. Alden News Notes. Special to Times-Republican.

Alden, March 15.—The last report of Mr. John Godfrey's condition was to the effect that he was in a critical condition from cancer of the liver. Those who have received word from Rev. Mr. Muhleman, who is traveling in the south for the purpose of helping his wife to regain her health, got the encouraging news that Mrs. Muhleman is improving.

DYSPEPSIA OF WOMEN

Special Treatment Required. Many women suffer from a form of indigestion or dyspepsia which does not yield to ordinary treatment. While symptoms are similar to those of ordinary indigestion, yet the medicines usually prescribed do not restore the patient's normal condition.

There seems to be a kind of dyspepsia caused by derangement of the female organism. While this appears to be the same as ordinary indigestion it can be relieved only by a medicine which, besides acting as a stomach tonic, is good for female ailments. Read what such a medicine did for Mrs. Williams:—

She says:—"Before I began taking Lydia E. Pinkham's Vegetable Compound I was troubled with dyspepsia and bearing down pains in my back and sides, and after my meals my stomach would block up so I could scarcely get my breath. A times I was so weak I could hardly stand on my feet and I looked hollow-eyed and my skin was yellow. Now I have a good color, have gained in every way and can do my work without any pains. I think it is the best medicine on earth for stomach troubles of women."—Mrs. NELLIE WILLIAMS, 21 West 24 Street, New Albany, Ind.

Rheumatism! How is rheumatism recognized? Some have said— Rheumatism is a dull pain. Rheumatism is a sharp pain. Rheumatism is sore muscles. Rheumatism is stiff joints. Rheumatism is a shifting pain. All have declared—Rheumatism is Pain. Sloan's Liniment applied:— The blood begins to flow freely—the body's warmth is renewed—the congestion disappears—the pain is gone. Sloan's Liniment KILLS PAIN (GUARANTEED) Rheumatism and allied pains yield to the penetrating qualities of this warming liniment.

Is Your Job Your Only Asset? Doesn't common sense dictate the wisdom, the necessity of having another asset—a Marshalltown State Bank Savings Account—to fall back on should the job, or your ability to hold it, fail you? We pay you four per cent interest compounded twice a year, April 1st and October 1st. One dollar will start your account.

Marshalltown State Bank MARSHALLTOWN, IOWA

MEMORANDUM Act So-Days. Don't wait until the cold snap arrives before you think about filling your coal bins. Place your orders now and with us and you will be safe. Our coal never disappoints—that's because it's well screened, free from slate and dirt. In fact it's all coal.

THE HAWKEYE FUEL CO. COAL PHONE 177 WOOD GEORGE W. POWELL

Simkins & Estel Funeral Directors Mrs. Estel Lady Assistant
