POSSIBILITY OF BREAK WITH GERMANY CAUSES BREAK IN PRICES.

KANSAS FARMERS ARE RELEASING HOLDINGS

Corn Shows Relative Firmness in Face of the Decline in Wheat—Oats Are Governed by Corn, The Price Changes Are Narrow and Volume of Trade Only Fair—Provisions Are Weak.

Chicago, April 18.—Uneasiness regarding the submarine issue with Germany led today to fresh breaks in wheat. Besides the Liverpool market was said to be tending downward. Word also was at hand that Kansas farmers were showing no disposition to retain holdings and that for the next sixty days receipts at Kansas City would far exceed last year's figures. The opening, which ranged from 1/4 to 1/2 down, with May at \$1.13 1/2 and July at \$1.12 1/4, was followed by a brief rally, but then the market sank lower than before.

The close was firm, 1/4 to 1/2 net higher with May at \$1.14 1/4 and \$1.14 1/2 and July at \$1.14 1/4.

Corn showed relative steadiness in the face of the wheat decline. Cash interests were active buyers. After opening 1/4 to 1/2 up, the market hardened a little and then eased back.

The close was firm at 1/4 to 1/2 net advance.

Oats were governed by corn. Price changes were narrow and the volume of trade was only fair.

Lack of support weakened provisions. Plentiful receipts of hogs throughout the west seemed to retard buying.

Daily Grain Letter. [From Lamson's wire, 203 Masonic Temple; both phones 193.] Chicago, April 18.—Wheat—Discouraged holders were the best sellers of wheat and further depression resulted early. The feature was the narrowing of the difference between May and July. There was apparently no scarcity of cash wheat to encourage holders of the near-by delivery. Cash interest crop reports, especially from soft wheat territory, are bringing support to the July. Millers here were willing to pay better prices than for the two previous days, although premiums in general were quoted unchanged.

Corn—Reports of continued export demand and buying by some of the larger local held corn steady at a moderate advance over last night's close. Elevator interests were buying the nearby deliveries and selling July and September. Some of the commission houses were sellers of May and buyers of the later months.

Oats—Oats again were in good demand from brokers, who usually act for cash houses and for the seaboard. The spot article was also in good demand and prices were quoted 1/4 cent higher. Higher bids are attracting an increased run from the country.

No More Desire for Tobacco

Arthur Krouse is a locomotive fireman who had been using tobacco since he was a boy. About two years ago he began to have spells of illness. His memory was getting very bad and his eyes bothered him a good deal. He tried in vain to conquer the habit until he got a certain book and now he is freed from the thrall of tobacco and his health is wonderfully improved.

Murderer's Body to Medical School. Special to Times-Republican. Iowa City, April 18.—The body of the unknown murderer and suicide who shot and killed Deputy Sheriff Herzog of Chickasaw county, was brought here from New Hampton this morning by county attorney Shaffer, and turned over to the Croker school identified the body as that of Lewis Gars, aged 12.

His Age is Against Him. "I am 52 years old and I have been troubled with kidneys and bladder for a good many years," writes Arthur Jones, Allen, Kan. "My age is against me to ever get cured, but Foley Kidney Pills do more good than anything I ever tried."

Des Moines, April 18.—A boy, about 14 years old, was killed today by an interurban car bound for Colfax. Teachers at the Croker school identified the body as that of Lewis Gars, aged 12.

PRICES 5 CENTS LOWER EXCEPT FOR PORKS

Cattle Offerings Not Plentiful and Prices Hold Steady—Sellers of Sheep and Lambs Resisted Attempts to Cut Prices Below Monday's Decline—Current Quotations.

Chicago, April 18.—Hog prices weakened for a time today owing to a large unsold supply left over from last night. Eleven markets received 135,700 hogs Monday, or 3,400 less than last Monday, 39,500 more than a year ago and 44,900 more than two years ago. Receipts at most markets were larger than usual, although some of them received less than a week ago. Total for date 10,405,000, of 1,493,000 more than corresponding time 1914.

Cattle. Cattle offerings were not plentiful. Considering the fact that it is holy week the general market gave a good account of itself in view of the generous run. The supply at 18,500 stood against 18,755 a week ago and 17,608 a year ago, while it was mainly a steer run, proportion of the stock being light. There were 49,500 cattle at seven markets, comparing with 52,600 a week ago and 45,800 a year ago.

Sheep. Sellers of sheep and lambs resisted attempts to cut down quotations. There was a comparatively big run thru the west for this year, on Monday, inasmuch as ovine stock is relatively scarce in the feed lots. The combined run today stood the largest at the seven markets since March 6, when 64,500 was the aggregate supply. Today's combined run at seven markets footed 62,600, against 34,800 a week ago, 39,000 a year ago and 61,000 the corresponding Monday two years ago.

D. C. RESIDENTS WANT FRANCHISE

DISTRICT DELEGATE BILL FAVORABLY REPORTED BY COMMITTEE OF SENATORS.

PROHIBITION ISSUE NOW BEFORE CONGRESS

Question May Be Submitted to Referendum Vote—Fees of Suffrage and Failure to Regulate Negro Vote in District Stand in Way of Enactment of Measure Into Law.

[Special Correspondence.] ... Washington, April 17.—If Congress enacts the Proindexter delegate bill, which has been favorably reported from the senate committee on the District of Columbia, the residents of the national capital, who have heretofore not been allowed to wield the ballot, will be permitted to exercise the franchise to a limited extent.

It has repeatedly been urged that the district, which has little real opportunity of influencing the action of congress as to local affairs, ought to have a delegate in the house and senate also. The plan for a delegate in the senate, however, did not find favor in committee.

The District of Columbia is at present without not only elections, but the machinery for holding elections. If the Proindexter bill is passed, there will be provided most of the election machinery which would be needed for any sort of an election in Washington.

One of the issues before congress now is whether there shall be a referendum to the voters of the district on the question of prohibition. Opponents of the referendum object that there is no machinery for an election and that under the circumstances a referendum would be a farce. It is quite possible that if the basic machinery for elections is created, the referendum to the voters of the district will be resorted to at times by congress.

Two things stand in the way of the enactment of the bill at this session. One is that there is a jam of legislation in getting rid of important bills. Little disposition has been shown in either house to rush measures. An indication of this is that the house naval committee has been taking testimony since December on whether the voters of the district should be given the right to elect a representative to congress. Nor is any effort made to restrict colored voters, a fact which since December has been a source of antagonism from some southern members of senate and house. The bill provides as to qualifications of voters: "That all citizens of the United States, 21 years of age and over, with bona fide residence here, are actual and bona fide residents of the District of Columbia, and who have been such

Remarkable Home Cure Given by One Who Had It—He Wants Every Sufferer to Benefit.

Send No Money—Just Your Address—Years of awful suffering and misery have taught the man, Mark H. Jackson, of Syracuse, N. Y., the value of a cure for rheumatism. He has given his own experience to the world, and he wants every sufferer to know how he was cured. Read what he says: "I was afflicted with rheumatism for over three years. I tried nearly every remedy, but doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me, and I have never returned. I have given it to a number who were terribly afflicted and now suffer with rheumatism, and it effected a cure in every case."
