CITY PAYS \$2,000 TO 'PHONE COMPANY

FIRST PAYMENT IN LAWSUIT CITY SETTLED WITH COMPANY IS MADE.

CAUSE OUTGROWTH OF COUNCIL LEGISLATION

Hull Ordinance Foundation of Suit For Damages 'Phone Company Brought—Claim Was Settled For \$3,800, and Council Orders First Payment on Settlement Made.

A result of council legislation of about eight years ago came up in the council meeting this forenoon when the council ordered \$2,000 paid from the general fund to the Marshall Telephone Company. The sum was a part payment of the settlement made about a year ago in the case of the telephone company against the city. There is a balance due of about \$1,800.

The payment was the joint result of what was known as the Hull ordinance to fix telephone rates and an injunction suit was brought by the city to restrain the telephone company from collecting an increased rate for certain classes of service.

Save People But Must Pay. The city, by the injunction suit, did save the people affected by the rates in question from paying the increase for several years, but in the end the city itself must pay a part of what was saved individuals.

The city's case met defeat when Judge Bradshaw ruled on a demurrer filed for the telephone company that the company had the right to use highways which included city streets, and was immune from an action such as the city brought and was not subject to council regulation of rates.

Subsequently the telephone company brought suit to recover the aggregate amount of charges for services that the city's injunction had prevented it from collecting. The stipulation of settlement grew out of this action and the council's order is the first payment on the settlement.

DON'T BLAME JONES.

Supervisor Says Lynch and Nichols Have Refused to Permit Graders.

County Supervisor W. H. Jones complains to the T-R that he should not be held responsible for the poor condition of some of the county roads, as he has been urging the board to get out the graders and repair the bad places, but so far Supervisors Lynch and Nichols have refused.

The North Third avenue road, on which young Schmidt was nearly

killed, had been assigned to the personal supervision of Mr. Lynch who also has the East Main street road. Mr. Jones has been assigned personal supervision of the Albion and Liscomb road, the Lincoln Highway east, the road from LeGrand to Dunbar, and the South Center street road to the Milwaukee railway crossing, but these, he says, are not in as good condition as they ought to be.

Mr. Jones has urged the board to permit him to use graders on the roads assigned to him, but so far the other two members have refused either to permit him to grade or to do any grading on their own roads. Mr. Jones thinks that the other two have conspired to injure him in the primaries. If Schmidt sues the county for its negligence on the North Third avenue road it may educate Messrs. Lynch and Nichols to their responsibilities as county officers.

The color scheme of pink and white, which was carried out in the rooms, with pink roses and smilax, was also used in the menu. The guests spent the evening with games and music.

Preliminary to a membership campaign the Royal Highlanders are to put on locally, members of the Iowa Castle, No. 154, of this city, entertained Wednesday night at Red Men's hall a large number of friends. Vocal and instrumental music made up the remainder of the program, and dancing and refreshments followed.

Mrs. Tanner is to have charge of the local campaign.

Election Boards of Primaries Also Serve on June 5

Boards of elections that served at the presidential primary April 10 serve in the same capacity at the party primary to be held next Monday. This rule applies to all judges of elections and clerks. Publicity is given to this fact because of the inquiries that have been made of County Auditor W. E. McLeland, which indicate that judges and clerks of elections who served at the presidential primary in April, seem not to understand that they were appointed to serve not only at that election but also at the June primary.

He Had Qualified. A stranger in an Indiana village thought he might improve the time by attending service in the local church. At the conclusion of a lengthy talk the minister announced that he should like to meet the board. The stranger, in company with several persons, proceeded to walk to the front of the church. The pastor, thinking there must be some misunderstanding, said to him: "I believe, sir, you are mistaken. This is just to be a meeting of the board." "Well," replied the visitor, "I have listened to you talk for more than an hour, and if anyone has been more bored than I have been I should like to know who it is."—Christian Herald.
