Cars For Transportation of Troops to Border to Be Concentrated at Oelwein to Prevent Congestion in Des Moines Yards—No Orders For Movement of Troops Received.

Camp Dodge, June 30.—Col. George Morgan, chief mustering officer, U. S. A., at Camp Dodge, the mobilization camp of the Iowa National Guard, today said the rolling stock to be used to transport the guard to the border, if the guard is sent there, will be concentrated at Oelwein and be ready to move at once in case the call comes.

He said the cars had been ordered to Des Moines but in view of the lessened intensity of the situation in Mexico they were ordered held at Oelwein to prevent congestion here.

No orders were received early today for the movement to the border. The opinion was that the men may go south despite the improvement in the situation. It was said mustering and medical examination will be continued until completed.

GOOD SCORES SENATE. All Iowa Congressmen Stood For Aid to Dependents of Soldiers. Washington, June 30.—Vigorous denunciation of the action by the senate in refusing to allow \$50 a month to dependents of militiamen who are called to serve the colors in the Mexican crisis was made yesterday by Congressman James Good, of the Fifth Iowa district, who with all the other Iowa legislators voted favorably to the Hoy provision in the military bill.

Mr. Good is a member of the house committee on appropriations, but in this particular instance he favors the opening of the government mint in aid of the wives and dependents of loyal soldiers who leave lucrative positions to demonstrate their patriotism.

"The senate would and does not hesitate to appropriate millions of dollars for the purchase of armor plate from plants that received upwards of 300 per cent on their product, but they hold tight to the public purse strings when it comes to an action of pure patriotism," Congressman Good asserted.

"This government has often been referred to as large and noble, but such small actions as the senate vote do not accrue to this magnificent name. It was a regrettable vote."

All the members of the Hawkeye delegation voted for allowing financial aid to dependents of militiamen who serve in the ranks.

VANDERBILT HOLDS HIGH RANK IN GUARD

Accused Dynamiter Tells of Welland Canal Plot.

New York, June 30.—Capt. Hans Tauscher, former German army officer, on trial in the federal court charged with complicity in the alleged plot to blow up the Welland canal in September, 1914, took the witness stand in his own defense.

"We had a long talk," Tauscher testified. "Von Pappen said I would be valuable as an ordnance expert to investigate the hundreds of inventions being offered and to keep track of the allies' munitions purchases. I asked him if he would ask me to do anything against the laws of the United States and he said 'Of course not.'"

Tauscher then told how Von Pappen went to Tauscher's office one day and said "I know a man from Mexico by the name of Bridgeman Taylor (Von der Goltz) who wants some dynamite for mining purposes in Mexico."

"The next day," the witness continued, "a man I never saw came in and said he was from Von Pappen and wanted some dynamite."

Tauscher then told of arranging for the purchase and delivery of the dynamite.

"Did he tell you that the dynamite was for the Welland canal?" Herbert C. Smyth, Tauscher's counsel asked.

"Never till I read the papers did I know there was such a place as the Welland canal. He did not mention it," was the reply.

Tauscher said he destroyed his books in December, 1915, at the suggestion of Von Pappen.

Tauscher proceeded on the stand by Thomas P. Tuttle, a fire insurance expert. He denied knowing Horst von der Goltz, upon whose confession Tauscher's wife von Igel, and others were indicted.

Under cross examination Tauscher said Von Pappen was not his superior and that he did not have to take orders from him.

"Do you want this court to believe Von Pappen betrayed you into breaking the laws of this country?" Tauscher was asked.

"I would not say 'betray,' I would say 'misled.'"

In summing up for the defense Mr. Smyth said he conceded that Von der Goltz and Von Pappen had some kind of an agreement for Von der Goltz to go to Canada.

"We concede," he added, "that they got dynamite thru the instrumentality of Tauscher; we concede Von Pappen paid for the dynamite and for pistols obtained also thru the instrumentality of Tauscher. Von der Goltz tricked Von Pappen out of money. That is all there is to the case."

The case went to the jury today.

Business is Business. Eugene was a very mischievous little boy and his mother's patience was worn to the limit. She had spoken very nicely to him several times without effect. Finally she said: "You are a perfect little heathen."

"Do you mean it?" demanded Eugene.

"Then mother," said the boy, "why can't I keep that 10 cents a week you gimme for the Sunday school collection? I guess I'm as hard up as any of the rest of 'em."
