

SUICIDE IN IOWA GIRL

BODY OF YOUNG WOMAN FOUND IN CHICAGO LAAGOON FINALLY IDENTIFIED.

WAS MARIE GRUENWALD, FORMERLY OF DAVENPORT

Hated Man Who Caused Her Ruin and Sought Escape From Disgrace in Drowning - Confessed That She Despised Man Like a Snake.

Chicago, Oct. 7.—The bruised body of a woman, found in Lake Michigan off Jackson park Wednesday night, was identified yesterday as that of Miss Marie Gruenwald.

Miss Gruenwald, it was said, came to Chicago from Davenport, Iowa, several months ago. She was a housekeeper employed in the Miller House of Northwestern university.

The revelation that Miss Gruenwald was worried over an unfortunate love affair practiced convinced the police that she committed suicide.

Motive is Found. She hated the man who betrayed her, hated him as one hates a snake. So one way out was closed. Panicked, she could see but one other way out.

Thus, piece by piece, the police fitted fact and theory together yesterday and decided Miss Gruenwald committed suicide.

The body was positively identified by Mrs. Alice Graefin of 4147 Westworth avenue, an intimate friend of the dead girl. Information given by Mrs. Graefin supplied the motive for self-destruction.

Confesses Her Secret. According to Mrs. Graefin, she received a letter about a week ago in which Miss Gruenwald confessed she was about to take her own life.

"You must give the devil his due," Mrs. Graefin said the letter read. "He has offered to marry me time and again but I refused because I hate him like you'd hate a snake."

Despite a severe questioning by the police, Mrs. Graefin insisted that Miss Gruenwald refused to tell her the name of the man responsible for her condition.

"Although I knew Marie intimately for five years, she never told me much about herself," said Mrs. Graefin. "Her mother and father are dead. The only relative she ever mentioned was a cousin in Davenport, Iowa, whose name I do not know."

Left Evanston Tuesday. Inquiry at Miller House revealed that Miss Gruenwald had left there Tuesday noon. Her trunk, which was taken to the station and searched, contained no letters or pictures which might furnish a clue to the identity of her betrayer, according to the police.

"There is absolutely nothing to indicate the girl had been murdered," said Captain P. D. O'Brien of the Hyde Park police. "On the other hand, the evidence pointing to suicide is almost conclusive."

PACKED BY HARDING CROWD. Unitarian Conference Almost Closed.

Humboldt, Oct. 7.—The Unitarian conference in session at Sioux City this present week I wish to report a protest against the unfair reports sent out as to the action taken on the anti-Harding resolution. A matter of fact the resolution was not "overwhelmingly defeated" for it was never voted upon at all, the chair ruling it out of order. However, had the conference met anywhere outside of Sioux City or another "river town" where the local delegates were in control such a resolution might have been adopted, for there was no lack of anti-Harding sentiment among the delegates, including some of those from Sioux City.

The matter came up upon the offering of the following resolution by one of the members of the resolutions committee.

"We, the delegates of the Unitarian and other liberal churches of Iowa, at Sioux City, in state conference assembled, believing that the question of temperance is the most vital issue at stake in the election, and expressly disclaiming any partisan purpose or the intention to dictate or bind the free choice of any voter, but also realizing that as Christian citizens and as delegate representatives of a Christian organization it is not only our right but our duty to express our conviction upon moral issues:

"And believing that in view of the legislative record of William L. Harding upon the question of temperance, the maintenance of Iowa as a dry state will be endangered by his election to the office of governor, we believe that the preservation and strengthening of our temperance laws will be promoted by the election of E. T. Meredith as governor."

No sooner had the resolution been read than the treasurer of the association, who resides in Sioux City, attempted to choke off all discussion by arbitrarily ruling the resolution out of order. Immediately a storm of indignation broke loose despite vigorous if not angry protests from the president and other Harding supporters and a spirited discussion was well launched when the following compromise resolution was offered.

"Resolved: That we recognize the improved moral conditions in our state because of the elimination of the open saloon as a legalized institution and recommend a continuation of the policy, both from a moral and economic point of view."

Under the circumstances there was a disposition on the part of most of the supporters of the original resolution to accept this substitute, but the Harding sympathizers insisted on acting on the following amendment:

"But do not think it wise or practical for this conference to attempt to dictate what candidates for public office the voters among its constituency shall or shall not support. We recognize the right and duty of the church to stand for right and righteousness, and as a free church, we leave the clergy and laity free to hold any personal view or to support any candidates for public office that they may select."

The amendment was finally adopted but only by a vote so close that a change of one or two would have defeated it. For one, regret that the state con-

White Plague Invalids as Dangerous as Lepers and Madmen, Says Iowan - Not Half Enough Fear of Consumptive on Part of Public—People Must Be Educated to Danger.

Louisville, Oct. 7.—As strict isolation of tubercular persons as of lepers was advocated here before the Mississippi Valley conference on tuberculosis by Dr. J. W. Kime, of Fort Dodge, director of the Iowa Association for the Prevention of Tuberculosis. He was assigned to the topic of how schools and colleges may help in educating the public on tuberculosis prevention, but early departed from his seat.

"The consumptive in the home is just as deadly as the leper in the home," said Dr. Kime. "Let the one be banished from our sight, the other we keep fondly to our hearts. With the disease we have of the 'infective' nature of this disease we are guilty of constructive manslaughter at least, if we do not make men see that this deadly must be dealt with by means no less severe than those we have already employed in the suppression of other plagues."

Education is Urged. Dr. Kime argued that it is difficult to educate the adult population regarding prevention of consumption and that therefore the work must be directed largely to the "young and plastic minds" in our schools and colleges. He said that complete isolation of tubercular homes would eradicate the disease in two generations, but acknowledged that this could not be done effectually. He maintained that infection from tubercular persons or the houses in which they have lived was the chief agent for spread of the disease, and added, in part:

"Complete Segregation Urged. "We hear much about phthisis and it is always decried. I want to say emphatically as I may that an intelligent phthisis is the one thing that will save us. Instead of too much

Special to Times-Republican. Ames, Oct. 7.—The Commercial Club of this city had a smoker and 6:30 o'clock banquet Thursday evening at the K. P. hall. A grand time was had by all present. Two divisions of the Ladies Aid Society of the M. E. church served a very fine five course dinner. Speeches were made by President C. W. Burnham, J. C. Milner, Paul Muenach, Fred H. Henry and others. Over seventy members were present.

BELIEVE IN BETTER ROADS. Farmers Put in Day Graveling Streets About Roland School House.

Special to Times-Republican. Ames, Oct. 7.—The little town of Roland has a bunch of patriots who do not believe in waiting for the Lord to come and fix the Iowa roads, the worst in the world when they are bad. The farmers are all coming to town today to gravel the streets around the school house. The domestic science girls of the school are feeding the gravelers.

United Presbyterians Oppose Harding. Morning Sun, Oct. 7.—The United Presbyterian synod of Iowa representing over 10,000 church members, went on record here yesterday at its annual meeting against W. L. Harding for governor and counseled its members to vote for Justice Deamler and Evans for the supreme court as against William Theophilus.

The formal action is as follows: "Resolved, That we as a synod most earnestly urge upon our people to put away their fears of breaking their record of always voting the party ticket and cast their ballot only for such men both for the executive and for the judiciary branches of the government as are well known to be tried and true on this momentous issue of temperance, and labor for the defeat of any candidate who has shown any signs of truckling to the liquor interests."

Jewell News Notes. Special to Times-Republican. Jewell, Oct. 7.—The work was started Friday on the Hood & Snyder opera house which Jewell has much needed and which will be an improvement to the town. It is to be a fire-proof building with a seating capacity of 200 people and up to date and is expected to be ready by the middle of December.

World was received a few days ago that Mrs. Anna Swift died very suddenly at the home of her daughter, Mrs. H. C. Buckholz, who lives at Kallepell, Mont.

Charged With Stealing Brandy. Special to Times-Republican. Ames, Oct. 7.—A thirty-two gallon hoghead of genuine brandy, swiped from the Milwaukee freight car near Huxley, was found by police under a haystack. The haycock was still sober but Cort Evans, in whose company the barrel was arrested, was arrested for stealing the stuff. He said he bought it for \$30. He put up \$1,000 bonds.

Wonderful Insect World. The insect world represents an unlimited field of life and activity. The number of insect species is greater by far than of the species of all other living creatures combined. Although more than 300,000 have been described, probably twice that number remain to be examined. Virtually all living animals, as well as most plants, supply food for these innumerable hordes.

Opportunities Wasted. At a party one evening a married lady was entertaining the assembled company with an account of their first quarrel, and how, after making it up with one another, her husband had planted a tree in remembrance of it. "If we had only done that," whispered the minister's wife to her husband, "what a splendid avenue we might have had."

Reminders of Maine Statesman. Among the treasured possessions of the Maine Historical society in Portland are the gavel and desk used by Thomas B. Reed while he was speaker of the house of representatives. These relics were given to the society by the children of the late Thomas Donaldson.

Warning to Woocers. And you had better look out for your last name when she starts calling you by your first name.—Cincinnati Enquirer.

Unfair. It is unfair to call womas a timid creature, when it is universally conceded that she is as brave as an elephant.—Judge.

Used It Eleven Years. There is one remedy that for many years has given relief from coughs, colds, croup and whooping cough. It is probably the best known family cough medicine in the world and because it contains no opiates is strongly recommended for children as well as adults. Mrs. Chas. Riets, Allen Mills, Pa., writes: "I have used Foley's Honey and Syrup for eleven years and I would not be without it. It promptly relieves hoarseness, tickling throat, bronchial coughs, inflamed and congested membranes and permits refreshing sleep. Sold everywhere.—Advertisement.
