GRAVEL ENTIRE TRAIL. HIGHWAY FROM DES MOINES TO OKOBOJI TO BE AMONG BEST IN STATE.

COUNTIES CO-OPERATING FOR COMPLETE SURFACING.

Meeting Held at Jefferson Discusses Question of Securing Federal Aid For Project—Will Be Shortest Route Between State Capital and Lake Resorts of Northwest Iowa.

Perry, Nov. 1.—The Okoboji Trail, which in a few months will present a continuous gravel road from Des Moines to Spirit Lake, with good, well drained grades, properly banked curves and protected crossings, will be the shortest as well as the easiest to follow route between Iowa's capital and summer resort. This is easily shown by a glance at a map which has just been completed by the good roads committee of the bureau of commerce.

Yesterday at Jefferson the six townships in Greene county through which the trail passes, was represented at a meeting called by Chairman B. F. Osborne, of Rippey. There was a great deal of enthusiasm shown and Perry men were assured today that there need be no worry about every foot of the trail being gravelled in that county next year.

McGregor. The local democratic committee has been notified that the special train carrying E. T. Meredith, democratic candidate for governor, will stop at McGregor, Maurice Connolly and other democratic speakers will stop over at McGregor, Friday, Nov. 3, en route to Dubuque from Mason City and will take dinner here. The committee is making arrangements for their entertainment at the Zimmerman Hotel. A brass band will accompany them and it is expected that the party will remain here long enough to make some speeches. It will be their only stop in Clayton county and it is planned to extensively advertise the fact in the hope of bringing a big crowd to McGregor to greet Mr. Meredith. George Kriebels, of Strawberry Point, county chairman, is in charge of the publicity work.

McGregor. Work by the Milwaukee railway company on the big new steel highway bridge which will span the deep waterway to be made for Bloody Run has begun the intersection of the tracks of the Dubuque division and the L and D. division at the southern limits of north McGregor. A temporary wooden bridge has been put in and traffic between McGregor and north McGregor is now passing over it. The steel structure with concrete abutments will be 230 feet long and some forty feet above the bottom of the artificial waterway for Bloody Run, giving as it is believed plenty of room for the creek at flood stage. A bridge about forty feet in length spans the present course of Bloody Run several hundred yards north of where the new channel is to be. Alongside the new highway bridge two steel railway bridges with concrete abutments will be built, one to carry the tracks of the Dubuque division and the other the tracks of the L and D. division.

Cedar Rapids. Fifteen firsts, four seconds and two thirds out of twenty-one starts, totaling \$4,500 in prize money, is the record of a boy and his horse in length spurs the present course of Bloody Run several hundred yards north of where the new channel is to be. Alongside the new highway bridge two steel railway bridges with concrete abutments will be built, one to carry the tracks of the Dubuque division and the other the tracks of the L and D. division.

Hans Ries, naturalized citizen's bureau, German division of the democratic national committee, said: "My dear sir: Not knowing whether you are under civil service, and not knowing whether it would be consistent for you to assist us in the pending campaign by making some speeches for us in German, I ask you to be kind enough to advise me by return mail in regard to it. We are badly in need of German speakers and would greatly appreciate it if you could make yourself available to us."

Mr. Bluncken's reply to Mr. Ries follows: "I should be delighted to help in the enlightenment of the democratic masses on the pending issues. I should be especially glad to show them the following: "How President Wilson, by his vacillating, stupid, and tricky diplomacy, has not us into a war with Mexico, and now is trying to get out of the trouble he has brought upon us by the surrender of American interest and honor. "How he has surrendered the interests of the United States in China to the intrigues of Japan. "How he has made preparation for scuttling the ship in the Philippines by abandoning the Filipino people to a clique of Tagalo oligarchs, with the probable consequence of annexation by Japan. "How he has been the direct cause of the capture and subsequent judicial murder of the Irish hero, Sir Roger Casement, by giving to the British government information unlawfully obtained thru a flagrant breach of international law. "How he is in the habit of insulting American citizens of German and Irish birth or descent by calling them 'disloyal' and 'venomous creatures' for opposing his un-American and unpatriotic policies. "How Woodrow Wilson, president of the United States, is justly suspected of being one of that small but powerful group of disloyalists who wish to cast dishonor on George Washington and the heroes of the American revolution by the 'union of the Anglo-Saxon race.' "It has no doubt you will be very glad to have me go on the stump for your party."

"Thank goodness," said Drew, contentedly, "I'm not like Tree." "Tree went into a Los Angeles barber shop the other day and said: 'Can you cut my hair without my taking off my collar?'
