**WOMEN! IT'S MAGIC!
CORNS SHRIVEL AND
LIFT OUT—NO PAIN!**

For a few cents you can get a small bottle of the magic drug freezeone recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freezeone. Apply a few drops upon a tender, aching corn and instantly, yes immediately, all soreness disappears and shortly you will find the corn so loose that you lift it out, root and all, with the fingers.

Just think! Not one bit of pain before applying freezeone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet just seem to shrivel up and fall off without hurting a particle. It is almost magical. It is a compound made from ether, says a well known druggist here, and the genuine has a yellow label.
