NINETY RESPOND TO NATION'S CALL

THOUSANDS BID DRAFTED MEN FAREWELL IN STIRRING PATRIOTIC DEMONSTRATION.

SENT AWAY WITH GOD SPEED AND APPLAUSE

Men Drafted, But Not Called to Go. Seek to Go With the Contingent— Scenes of Sadness Mark the Going of the Boys— Are Led by Seven of First Men Drafted.

Answering the summons of the nation, ninety Marshall county young men, the second contingent to be taken for the national army, left for Camp Dodge, Des Moines, over the Chicago Great Western at 11:19 this forenoon.

Ninety, the full contingent, were present. Two changes were today made in the list of men summoned, and alternates were sent in their places.

Patriotism is Stirred. The farewell stirred the patriotism of the city as it has not been stirred for years.

Six Hundred in Parade. Six hundred, including the ninety, marched in the parade that formed, in front of the Y. M. C. A., moved west to First street, north to Main, east to Third avenue and south to the station.

Are Given Ovation. Loud hand clapping followed them as they marched between the crowds that overflowed from the sidewalk into the street.

Organized to Go. Some time was consumed in mustering and organizing the ninety to go. They were assembled in the east court room, where the roll was called twice to insure that every member

Home Complexion Peeler Works Wonders. To keep the face, neck, arms and hands truly beautiful and youthful in appearance, the treatment which seems most sensible is one which will actually remove the skin itself immediately it begins to age, fade, scorch or discolor.

called there. Copies of the registration cards and examination blanks were distributed by Miss Ella Smith. The tags were pinned on the ninety by Misses Nora Wilkey and Fannie Vosburg, who, with Miss Hollis Gause and Miss Smith, bought the ribbon that added the touch of patriotism to the bare tag.

From the muster the men gathered on the court house steps and were photographed, then they marched in front of the Y. M. C. A., where the general committee distributed to each man a package containing a wrist watch, the letter of farewell, and a booklet containing good advice. The drums broke into marching time, and the parade moved, a little behind time, but the rain was an hour late, which furnished time for a longer farewell at the station.

Two Fail to Report. Of the ninety "regulars" and five alternates ordered to report there were only two who did not appear. The missing were Clarence L. Fiskus, Clemons, and Jasper W. Clark, Malcolm Fiskus refused to appear because of religious convictions—he is a Friend.

Four Soldiers Stay Here. Not all of the seven men from Camp Dodge who came to lead the others back, returned with them. Three went with the ninety to Des Moines. The other four remained here, all of them having leaves of absence for forty-eight hours.

Other Soldiers En Route. A special train carrying drafted men from Delaware, Buchanan and Black Hawk counties, who were mobilized at Waterloo, passed thru the city about 2:45 this afternoon en route to Camp Dodge.

Country Butter Very Scarce and Becoming Scarcer. "Got any country butter?" asked a customer of his grocer the other day. "No sir; not a bit."

CELEBRATE APPLE WEEK. Albion Consolidated School Gathers Apples for Charitable Purposes. This week is "apple week" at the Albion consolidated school, and all of the pupils are gathering and bringing all of the apples they can to the school.

Draw Cuts to Go. Only two of the five alternates could go, and all wanted to go. They set about drawing cuts for the two vacancies left by Fiskus and Clark, but the exemption board took charge of the selections and chose Alfred Stvenson, of Green Mountain, to take Fiskus' place, and Fred Briery of this city, to take Clark's place.

Notice. Will not be responsible for any debts contracted for only by myself, H. B. Roren.

TO TELL OF HOME ECONOMICS. Miss Bentley, of Ames, Will Explain Work of County Demonstrator.

Miss Bentley, of the home economics extension department at Ames, will be at the Y. M. C. A. building Friday afternoon at 2 o'clock, to explain the various phases of the home economics work which lady county agents are expected to do.

Further inquiry among farmers, dairymen and others brought but little encouragement that there would be much, if any, improvement in the situation in the near future, some inclining to the belief that the supply would continue to diminish, while others, more optimistic, thought that conditions might begin to improve with the advent of cooler weather.

short the supply of feed; the present high price of feed, which, with the unusually high prices being offered for cattle, have tempted the farmers to dispose of much of their milk producing stock; the ease with which the cream may be separated from the milk and sold to the creamery at a good price, and the milk fed to the stock, thus making a profit both ways; the work entailed in the making of good butter, which is by no means small, many of the farmers' wives with their many other duties, being unwilling to devote the time to the work. In fact, today, many of the farmers are selling their cream to the creamery and buying there the butter needed for their own use.

EAT WHAT YOU WANT WHEN YOU WANT IT

People who consistently deny their appetites some particular dish appealing especially to their palate, because indulgence has always meant subsequent suffering, will think this a strong statement. It is a fact, however, that most people are active and regular.
