

HOUNDS SEEKING GIRL'S ASSAILANT

DAUGHTER OF FARMER BRUTALLY ATTACKED BY MAN NEAR DYERSVILLE.

IDENTITY KNOWN, DOGS PUT ON HIS TRAIL

Assault is Made on 8-Year-Old Daughter of Prominent Farmer—Authorities Refuse to Divulge Name of Victim—Searchers Confident Assailant Will Be Caught.

Waterloo, Sept. 21.—A message was received here last night from Dyersville, stating that a young white girl, eight years old, had been criminally assaulted yesterday afternoon by a white man about 25 years of age. The mayor of Dyersville telephoned Baldwin brothers, asking that the bloodhounds be brought there on the 1 o'clock train this morning. The dogs left here as requested.

In a long distance telephone message from the mayor of Dyersville this morning, he stated that the girl assaulted lived some miles out in the country from Dyersville and had been brutally attacked by a white man, whose identity was known and that all now needed was to track him. The searching parties were out tracking him and with the arrival of the bloodhounds, the criminal would likely be caught. The mayor did not wish to divulge the name of the girl attacked, further than to state that she was the daughter of a prominent farmer of the Dyersville section.

TRIED TO EXTORT MONEY.

Wiedemeyer Admits Writing Letters But Denies Setting Fires.

Special to Times-Republican.

Dubuque, Sept. 21.—The case of Henry Wiedemeyer, who yesterday entered a plea of guilty in the district court to having sent threatening letters to A. A. Cooper, Jr., with intent to extort money, is a most unusual one.

Wiedemeyer commenced writing his threatening letters to Mr. Cooper last May and each letter bore explicit directions as to how and where a package of money should be left, the sum demanded always being \$2,750. Each time his directions were carried out to the letter, except that the package never contained money.

In the meantime, early in July, the Cooper company sustained a loss of nearly a hundred thousand dollars above the insurance carried, when fire apparently of incendiary origin destroyed a large part of their lumber yard where specially selected seasoned hard wood for the manufacture of wagons was stored.

A day or two after the fire Mr. Cooper received a letter renewing the demand for money and stating that if it was not left as directed the writer, who had started the lumber yard fire, would destroy other buildings belonging to the company. This time the writer of the letter again eluded arrest.

The state fire marshal's office was called into the matter and made careful comparisons of writing known to be Wiedemeyer's as he was by this time suspected, and writing in the anonymous letters. The proof was convincing, but it was determined to wait for another letter which it was felt sure would come and which did come last Saturday. On Saturday night a score of officers were "planted" in the neighborhood of where the money was to be deposited. Wiedemeyer showed up all right, but did not call out to the driver of the carriage to "drop in" as he was expected to do, because he had gotten cold feet and felt that he was being watched. He was not arrested that night, the officers were within a few feet of him at the time and place where the money was to be deposited.

The arrest was not made until Wednesday after the arrival of J. A. Tracey, of the state fire marshal's office. Tho it is still believed he was guilty of setting fire to the lumber yard, Wiedemeyer persists in his innocence and also denies he had accomplices, as was thought.

Poweshiek County Court.

Montezuma, Sept. 21.—The first week's assignment of jury cases faded quickly away. In place of having a full week's work for the jury there was only one case for trial. Billock vs. Davidson was the only case to be tried. A trade was at the bottom of the suit. On the one hand a tract of land shown on the abstract to contain thirty-four acres according to government survey and which at the time of transaction measured only seventeen acres now only measures out a little over fifteen acres, all due to the activities of the Des Moines river in seeking new channels. On the other hand there was an old house in Des Moines and some other consideration. The jury on the former trial awarded the plaintiff \$2,700 damages. The jury this week awarded \$2,500 damages.

The case of Wolford vs. City of Grinnell was announced settled, although the formal stipulation was not filed. It is understood that the city paid \$400

and costs. Prior to the first trial the city offered \$250 in settlement of the case.

The grand jury reported on Monday. Several indictments were found. On Tuesday morning several of the accused were arraigned and entered their pleas. Tom Johnson and Floyd Brown, both colored, entered a plea of not guilty of the charge of gambling. William Brown, also colored, said he was not guilty of the charge of bootlegging.

Bruce Phillips was working at the Grinnell College buildings during the summer. In some way he gathered a collection of the silverware from the dining room and when found had his collection wrapped up in a towel under his coat. He said guilty and was sentenced to five years at Anamosa. He served time in the county jail this summer on account of bootlegging.

Two pool hall keepers from Guernsey, John Battersberger and Ed Rowland, were indicted upon the charge of keeping gambling houses. They had permitted their customers to play for the gamblers. They each drew fines of \$100 and costs.

The two men who attempted to get away from the county jail recently were indicted upon the charge of having in their possession burglar tools or implements. In this case they are charged with having dynamite caps in their possession. The penalty for this offense was increased by the last legislature from a fine of \$100 or thirty days in jail to a fine of \$1,000 or fifteen years in the penitentiary. They were not ready to plead and were given until Monday to decide what they will do.

NEW THEATER IS OPENED.

Etherville's New Playhouse Formally Thrown Open to Public.

Special to Times-Republican.

Etherville, Sept. 21.—The new Grand Theater was formally opened to the public last evening, the attraction being the Mid-Western Musical Festival Company.

It will be recalled that this beautiful theater burned last January and the loss was so heavy that it was thought it would be rebuilt, but the commercial club took up the matter of boosting for the rebuilding and in a short time committees from the club sold about \$7,000 worth of tickets for the opening night at \$25 each and deposited the money to Mr. Graaf's credit.

The new theater is much finer in every respect than the former one, which was a new one, having been opened but a year ago, in fact is not surpassed in elegance and comfort in the state and this includes the larger cities in the comparison.

Mayor Mack Groves in a few well chosen words professed the opening program, complimenting Mr. Graaf and his estimable wife for their energetic efforts in providing the city with such a playhouse, and the high standard of entertainments they vouch for at all times, and in response Mr. Graaf expressed appreciation of the confidence the community showed in him and his wife in doing his best in encouraging the rebuilding of the theater.

The theater more than met the expectations of the capacity house and the program was all that could be desired as an opening number.

Bevo

A BEVERAGE

Watch!!!

For some years, various and sundry concerns have been making beverages which are grouped under the general description of "near-beer."

Then came Bevo—a cereal beverage, not a "near-beer," but offered purely for what it is—a delightful, wholesome and nutritious drink. Bevo met with instant and complete success. A whirlwind success.

Owing to Bevo's popularity, some beverages are now being offered in a way to make the appearance of the package look as much like the Bevo bottle as possible. The intention is obvious. But you don't taste the shape of a bottle—it's the flavor of the contents of the bottle that you must depend upon for enjoyment.

Then beware of impersonators—don't be satisfied to try to identify Bevo by the shape of the bottle alone—

Look!!

There are these certain identification marks that are your protection against imitations. Not just imitations of the product, remember—but those more insinuating imitations which try to deceive you by putting an old failure into a bottle similar to a new success. So look for these unmistakable marks of the genuine Bevo—demand that the bottle be opened in front of you, then—

Look for the Seal

See that it is unbroken covering the Crown Top
Look at the Crown Top, and see that it bears the Fox
Be sure the Bottle bears this Label

Listen!

Bevo is a pure drink. This means more than that it contains pure ingredients—it means that though you might often feel afraid of possible germs in milk or water, Bevo, being a pasteurized product in sterilized bottles, is absolutely free from bacteria.

Bevo is a nutritive beverage—the fine cereals from which it is made give it this quality.

Bevo is a delightful and refreshing soft drink—unlike any you have ever tasted—indeed a Triumph in Soft Drinks.

You can't get these good qualities in anything but Bevo—demand the genuine.
