

TWO IMPORTANT LAWS IN FORCE

STATE BOARD OF EDUCATION PREPARING TO PUT INTO EFFECT NEW STATUTES.

TEMPORARY QUARTERS FOR PSYCHOPATHIC PATIENTS

Treatment For These Mentally Ill Will Not Await Construction of New Hospital—Extension of Perkins Law to Adults to Bring Relief to Many Who Would Otherwise Go Thru Life Crippled.

Special to Times-Republican.
Des Moines, May 23.—The state board of education is preparing to meet the provisions of two new laws passed by the Thirty-eighth general assembly considered of far reaching importance which go into effect July 4th. One of these is the establishment of a psychopathic hospital at the state university as provided for in the bill fathered by Senator Perry Holdogel, of Calhoun county.

The other extends to adults the provisions of the Perkins law which has hitherto only applied to children so that persons anywhere in Iowa who need treatment for any malady or deformity and who are not able to pay for such treatment may be taken to the state university hospital for such treatment. This bill was introduced and pushed in the senate of the last legislature by Senator W. G. Haskell, of Linn county, and by Representative

B. W. Klaus, of Delaware county, in the house.

The board is of course not yet able to provide a building for the psychopathic hospital but will make arrangements for the care of such patients in some of the present buildings. The law authorizes the erection of a new building for this purpose to cost \$175,000, for which the board expects to let the contract during the coming weeks but it will probably be more than a year before the building is completed.

For Persons Mentally Ill.

The psychopathic treatment is for persons who are mentally ill and who need treatment for the mind just as badly as persons physically ill need treatment for the body. They are not persons of un sound mind but are usually victims of some unusual nervous strain which has upset the whole nervous system and impaired their mental strength which can be restored through proper treatment.

There are numerous instances where persons who have been sent to hospitals for the insane were not properly subjects for such institutions, the physicians who have used the whole nervous system and impaired their mental strength which can be restored through proper treatment.

The establishment of such a hospital at Iowa City is the outgrowth of a study which has extended over a period of years.

A committee from the state board of education which made a study of these needs among other things reported: "Psychological research and efforts in practical application of this knowledge have grown immeasurably in the last ten or fifteen years. They have fully kept pace with the progress shown in medical science and all other sciences and they are only at the threshold of their usefulness to mankind."

As to the extension of the Perkins

law to take in adults it is recognized that this also will prove a boon to many an adult sufferer.

The Perkins law, which went into effect July 4, 1918, has been the means of saving many a poor little cripple from being crippled for life. The reports of the state educational board show that for the year ending June 30, 1918, there were 408 children admitted to the state university hospital under this act. For the year ending June 30, 1917, 370; and for the year ending June 30, 1916, 1,339.

Two years ago the legislature made an appropriation for a hospital costing \$150,000 for the treatment of these children and this children's hospital was just completed this past spring. The children are now using it.

The Haskell law extends the beneficial provisions of the former statute to any one over sixteen years of age whose parent or parents, guardian or other person having legal custody is unable to financially provide proper care and medical or surgical treatment.

STATE TO DO BUILDING.

Executive Council Makes Purchase of School on Capitol Grounds.

Special to Times-Republican.
Des Moines, May 23.—The state executive council has made arrangements to provide offices for the state fish and game warden on the third floor of the state house back of the house gallery. The offices have heretofore been maintained at Spirit Lake but will be moved here about July 1 by Fish and Game Warden W. E. Albert. Mr. Albert formerly lived at Lansing.

The council is also about to buy the Bryant school building which stands on one corner of the capitol extension tract, having practically closed a deal with the Des Moines school board to pay \$20,000 for it. It is possible that the flats now maintained on Des Moines street and also on Grand avenue will be torn down and the school building used by the state officials for offices now housed in these flats.

Work on the new temple of justice is expected to start late this fall and when that building is completed it will

relieve crowded conditions about the state house and all state offices and be cared for in the state hospital and temples of justice and the old buildings and other structures yet remaining may be torn down.

IOWA SINGER MAKES GOOD.

Marion Green, Barytone, Appears in Opera in London.

Special to Times-Republican.
Cedar Falls, May 23.—That Marion Green, brother of S. L. Green, Cedar Falls dramatist, has scored marked success on the London operatic stage, is shown by a copy of the London Weekly Dispatch received here.

Marion Green is a barytone, who has appeared with the Thomas orchestra, the Minneapolis Symphony and other noted American orchestras during the past few years. He went to England only a short time ago, going direct to London, where he has been appearing with Maggie Teyte, noted English soprano, who took America by storm a year before the world war broke and was later featured in the press of the world when she proposed to her former lover, a returned soldier who was badly crippled by war, after divorcing her first husband.

The London paper says of Green under the caption, "American Singer's Success":

"Mr. Marion Green, the new American barytone, who has made a success in Messinger's romantic opera, 'Monsieur Beaucaire', is still on the sunny side of thirty and unmarried. He was born in Dubuque, Iowa, U. S. A., and until his recent arrival in England had never left his native land. Marion Green is a graduate of Upper Iowa University, whence, after obtaining his degree, he proceeded to Epworth college where he studied music and singing. Ultimately he became a pupil of the eminent, at one time a popular 'Convent Garden' tenor. Now that the young singer has made his mark in London it need be a secret no longer that 'Beaucaire' is the first role he has essayed on the stage. Until he set foot on the Prince of Wales stage at Birmingham a couple of weeks ago, it is a fact that he had never worn any of the costumes of the stage, so that the undeniably success he has made as an actor is the more remarkable."

Bought Farm Back.

Special to Times-Republican.
Hartwick, May 23.—Last fall Charles Swecker sold his 240 acre farm here for \$300 per acre, which at that time was top price for land in this vicinity. Today he bought the same farm back for \$240 per acre. The present owner made \$7,000 on this farm in a few months. Mr. Swecker found that he had sold his farm too cheap and many say this farm is worth at least \$400 per acre, but Mr. Swecker says he would like to see the color of the man's hair that would get him to price this farm again.

For a Billious Attack.

If you have billious attacks give Chamberlain's Tablets a trial. They are excellent. Willis Browning, Pattonsburg, Mo., has this to say of them: "About a year ago my wife used a bottle of Chamberlain's Tablets and they cured her of a bad billious attack also of constipation from which she had been suffering for years."—Advertisement.

Coca-Cola
DELICIOUS AND REFRESHING

The taste is the test of Coca-Cola quality. The flavor is the quality itself.

Nobody has ever been able to successfully imitate Coca-Cola, because its quality is indelibly registered in the taste of the American public.

TOPOGRAPHICAL SURVEY.

Geographical Society Staff Will Make Maps of Webster County.

Port Dodge, May 23.—A topographical map of Webster county will be made under the auspices of the United States geographical survey in connection with the Iowa geographical society. I. W. Miller and J. M. Rawls of Washington, D. C. have arrived in the city to take charge of the work. They will have fifteen assistants and a number of discharged soldiers have been secured for this work. Both Mr. Miller and Mr. Rawls held commissions as captains in the engineering department of the army and have just received their discharges.

It is estimated that the work will take about three months. The map, when completed, will show the surface of the earth and is the basis from which geological surveys are made.

"The demand for these maps is very great," said Mr. Miller. "They are wanted them everywhere and the only trouble is that we can not get men enough to make them all."

Grinnell and Vicinity.

Special to Times-Republican.
Grinnell, May 23.—The banquet spread for and by the Poweshiek county farm bureau at the Presbyterian church at Malcom, announced some weeks ago and postponed because of bad weather, is again announced, this time for Saturday, May 31. All wives of members and all members of the home economics department are included in the invitation. State Agent Leader Muri McDonald, Assistant J. W. Wooders and Mrs. Campbell will be present and address the audience.

Land sales are numerous in this vicinity and the prices have not yet lowered. The Henry Johnson farm of 424 acres, eight miles from Grinnell, has just been bought by Mark E. Sturgeon at \$213 per acre. The half section known as the Sam Smith farm, adjoining the Johnson farm, has been bought by James Buswell. A part of the old Prosser farm, consisting of 236 acres, formerly owned by Emery Schmitz, has been sold to Lou Rinefort, of this city. George Baustian has bought the 350-acre farm of Forest Heshman at \$275 an acre. It lies five miles north of Malcom. The Brownell farm, lying fourteen miles south of Grinnell and containing 164 acres, has been bought by Berger Stemsrud and Ray Heshman for \$24,000.

Funeral services were held today at the family home on Reed street, south, over the body of Alonzo D. Hughes, 84 years of age, who died on Wednesday after an illness lasting thru the entire winter. He has lived in his late home for the past thirty-nine years. He leaves a wife and one grandson, David Hughes, of Salt Lake City.

Funeral services today at the Methodist church, conducted by Pastor J. M. Brown, were held over the body of Mrs. Angeline Korns, a former resident of this city, who died at her late home at Walker, Iowa. She had lived a number of years here.

Corporal Paul Somers has come back across the sea and received his discharge and is greeting the relatives and old friends. He is the son of Mr. and Mrs. H. W. Somers, of this city. He was with the heavy artillery and at the front in the Argonne drive for six weeks.

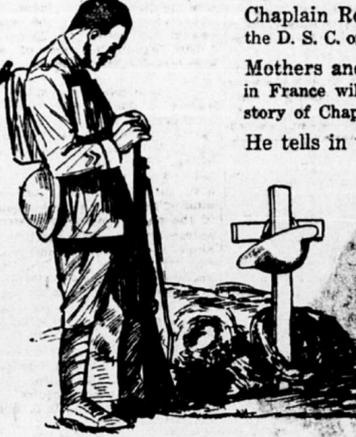

Elder A. O. Wright, pastor of the Church of Christ at Deep River for the past year, has proved so acceptable to the people that the church has just offered him a \$2,000 a year salary for a five-year term.

The news has come to Grinnell from Oklahoma City of the marriage there of Miss Helen McKutchan, of this city, to McMurray C. Fantham, of Houston, Tex. The bride is a niece of Mr. and Mrs. P. A. Terrell, of this city, with whom she made her home much of her earlier life. Mrs. Fantham is in Iowa at present and she is visiting at Grinnell and with her husband's parents at Cedar Rapids until he has finished the business that brought him north after which they will be at home in Houston.

Bert Taylor, of Brooklyn, and Miss Alma McConaghie, of Grinnell, were married in Des Moines on Wednesday. The groom was with the Iowa Cavalry squadron when it was stationed here and later was with the 10th ammunition train. The young couple will make their home in Brooklyn.

Dr. C. W. Wassam, of the state university, certainly started something by his address at the Colonial in the way of a boost for the Grinnell fair. Prominent citizens were moved not only to speak but to act and more than seventy men pledged sums of \$100 each with lesser sums to fill up the chinks. Secretary Kemler, of the Marshalltown

There are No Unmarked Graves of Iowa's Soldier-Dead on the Shell-Swept Plains of Lorraine

Chaplain Robb of the 168th—this parson who wears the D. S. C. on his breast—took care of that.

Mothers and friends of boys who gave up their lives in France will find wonderful comfort in this remarkable story of Chaplain Robb's in The Sunday Capital.

He tells in the next chapter how 125 Iowa boys met heroes' deaths in Lorraine. He gives the last words of many—tells where they are buried and shows pictures of their graves.

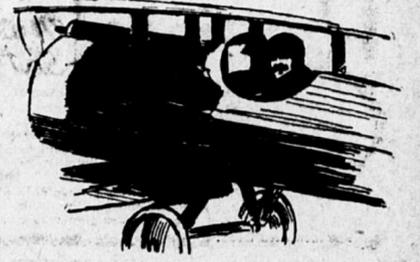

"Two of the burial detail of ten men were killed during the ceremony, but we gave this Iowa boy a funeral fitting a hero, in spite of the hell of shell fire," Chaplain Robb writes.

Here is one of the most touching stories that has come out of the war—one that will make you fight to keep back the tears.

If Luf Had Followed His Own Advice---

Lufbery used to say:—"Boys, if your plane ever takes fire, stick with her. There's always a chance."

But he didn't follow his own advice when the crucial test came—if he had, this wonderful American fighter might still have been alive.

The thrilling story of Luf's death and the homage paid him by the French is wonderfully told in The Sunday Capital by Capt. Eddie Rickenbacker, America's foremost ace.

"Give the Devil His Due", Says Gibbs

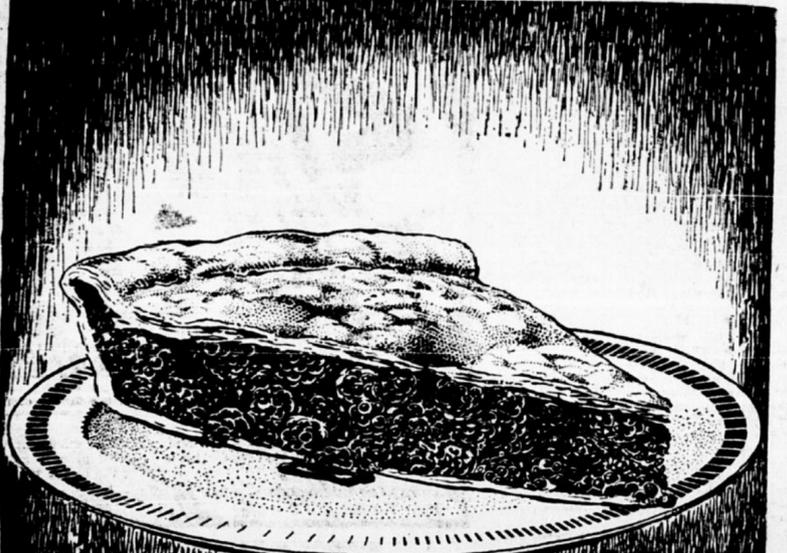

There are two or three good Germans who are not dead Germans. Phillip Gibbs in The Sunday Capital, tells the story of a few who acted like white men. One was a great, bearded German doctor who under a hail of fire worked 24 hours to relieve the suffering of our wounded.

Did you know the Germans once suggested a truce in order to give the British an opportunity to bury their dead? There's lots of "inside stuff" in Gibbs' story—mighty interesting reading, you will find it.

These are just a few of the many interesting features in the May 25th issue of The Sunday Capital. You will not want to miss any of them. Order your copy from your news dealer today and play safe.

PIE CRUST

—and such pie crust!
Tasty, golden hued, so rich and tender it falls into delicious flakes at a touch. Always a certainty when you use

CALUMET BAKING POWDER

"BEST BY TEST"

The greatest quality value ever offered in a baking powder. It never loses its strength. It can't fail in the slightest degree; therefore, no waste—no disappointments.

The perfect results it gives—the greatest economy—provide the best means of answering the Food Cost question of today—so far as baking goes.

You Save When You Buy It.
You Save When You Use It.

Made in the largest, finest, most sanitary baking-powder factory in existence. Try it. You'll see clearly why it's the world's biggest selling baking powder—why it is given preference by leading Domestic Science teachers, millions of housewives. Once used—no other will satisfy.

PIE CRUST FOR ONE PIE

2 level cups of flour	1 level teaspoon salt
1 level teaspoon Calumet Baking Powder	1/2 cup shortening
	1/2 cup cold water

How to make it—Sift together the dry ingredients, work in the shortening, moisten to a dough with as little cold water as possible.

Be sure to cut out and paste this recipe in your recipe book for future reference. Of the many thousands of different pie crust recipes, you'll give this "better one" your preference.

NOTE THIS

When you buy a pound of Calumet you get a full pound—16 oz. Some high priced baking powders are now being put on the market in 12-ounce cans instead of a pound. Be sure you are getting a pound when you want it. No short weights with Calumet.
