

Many Young People of City to Takes Up College Work This Year

According to a recent survey made by Superintendent Palmer of the public schools, the Marshalltown high school this year will present more than its usual quota of students to the colleges and universities of the country. The high wages offered locally in professional, clerical and mechanical positions have proved very alluring to the graduates, but even so, many students have resented lucrative positions and are entering colleges with the determination of working their way thru a four years' course. The creditable record made in college by the students who, in years past, have been at least partially self supporting, has been a source of very great gratification to the local school.

A year ago the question was being asked, "Will the boys whose college careers have been interrupted by service in the army ever return to their studies?" Locally the question may be answered affirmatively. Sixty-seven of those who were on the high school honor roll are now in the college list, nineteen of the sixty-seven having seen foreign service. A study has also been made of the men who have been graduated from the local high school since 1907, and who did not desire to continue their education after their discharge from service. Almost without exception these men were returned to their former position or one much more attractive.

DIARRHOEA Quickly Cured by WAKEFIELD'S Blackberry Balsam

Wakefield's Blackberry Balsam has been the surest and safest remedy for Diarrhoea, Dysentery, Cholera Infantum and Cholera Morbus for 72 years. While it is quick and positive in its action, it is unlike other remedies in that it is harmless and does not constipate. It simply checks the trouble and puts the stomach and bowels in their natural, regular condition. Of the millions of bottles that have been sold, never has a case been reported to the manufacturer where a cure was not effected when directions were followed, even after other remedies had failed. Every home should have a bottle or more on hand ready for sudden attacks. Full size bottle, 40c everywhere.
