"Clothes That Make the Success Spirit"  
**YOUR CLOTHES**  
Do they help you or betray you?  
The world usually judges a man's ability and mental attitude by his clothes.  
Frayed trousers and a baggy coat indicate almost invariably a condition where the man has ceased to care—his ambition is paralyzed—he is slipping.  
A man with enough self-respect and gumption to be reasonably particular about his clothes will show the same spirit in his work. He is aggressive and anxious to show the world what he can do. He will get ahead.  
Let us measure you for some "Clothes That Make the Success Spirit." We will build into them a dash and individuality only genuine merchant-tailoring can produce and they will FIT.  
The cost will be no more than for ordinary clothes.
