### Public Notice.

I have been operating what is known as the McCollough Feed Shed in Webster City for the last six years up to August 1, 1911. My association with my customers has been of the very best, and has been appreciated by myself and helper, Mr. Charles Tewart. But now I have concluded to make a slight change in my business with the public and take this method to set it before my trade so that there will be no misunderstanding between us and our patrons. After this date on all public days such as shows, fairs, carnivals, and all holidays, etc., etc., the shed privileges will be twenty five cents; barn privileges will be fifty cents; on all other days the charges will remain the same except the barn charges, which will be twenty-five cents in the future instead of twenty cents.

Please take notice and govern yourselves accordingly.

Yours to please,

and the steadiest and surest is that given by Electricity. Everybody who has tried it knows that it is far superior to gas or lamps, and also that it is less dangerous. It can be turned on or off in a second, and it is not dangerous like exposed flames. Every home should be wired for Electric Lighting. You will find it far cheaper in the end. a-4
