

WEBSTER CITY WINS THE MEET

Takes Dual Track Meet From Clarion High School at Clarion Saturday.

WIN EIGHT FIRSTS

Three Webster City Men won Two Events Each in Meet.

Webster City high school Saturday won its dual track meet with the Clarion high school, held at Clarion. The score was 66 to 40. Besides the members of the track meet, quite a delegation from the faculty and student body accompanied the team.

There were eleven events. Webster City won eight. Sheldon won both the mile and half mile races. Tweedie won the 100 yard dash and the low hurdles. Schultz carried off the discus throw and the 220 yard dash. Johnson won the broad jump and Clifton the 44 yard dash.

This meet was the first work-out for Webster City track men this year and the records made by the men indicated that the high school this year has a track team which ought to show up well in almost any company of high school athletes. The boys here have been training hard and their success Saturday is excellent reward for them.

Men's Gospel Team Meeting.

Despite the steady rain some forty men and young men turned out for the afternoon service at the Baptist church. At the last minute one of the leaders notified President Loring that he would be unable to take part, so the president generously filled in the time, very much to the delight of all. Vincent Sellers, the other leader, appeared and took part in the regular form.

The Humboldt team called by phone shortly after dinner and advised that the roads were so bad it would be impossible for them to drive over, so arrangements will be made for their appearance later.

Mr. Schaub was out of the city, so the music consisted of congregational singing with Lloyd Pringle as leader.

A nice delegation of young men from the Junior Chamber of Commerce attended in a body and their presence was sorely appreciated. The boys are cordially invited to attend next Sunday afternoon, as well as all other young men in the community.

N. F. Christenson was selected as president for the coming four weeks and the meetings will be held at the United Brethren church. The orchestra will be on hand next Sunday.

The regular meeting of the board of directors will be held this evening at the Hahnke printing office and all members of the board are requested to be present. There are some important matters to be considered and all should be there to help decide them.

Siames King President Pacific Union

Honolulu, T. H., March 29. (Correspondence of the Associated Press.)—His Majesty, the King of Siam, now is an honorary president of the Pan-Pacific union, with headquarters in Honolulu, according to a recent announcement by the union's executive secretary, Alexander Hume Ford.

The union has branches in nearly every country bordering on the Pacific ocean through which it is spreading its doctrine of cooperation and fellowship among the nations on that ocean's fringe.

Second Lieutenant Gets as Much as Foch

(By The Associated Press.) Coblenz, May 2.—The pay of a second lieutenant in the American army on the Rhine is equivalent at present rates of exchange, to that of Marshal Foch.

This may explain in part why the American army of 15,000 men crosses Germany more than 50,000 French troops in the Mayence zone. It accounts also for the exaggerated statement from German sources that America's fighting force cost Germany more than all the allied armies of occupation.

Former Northwestern Man Coach at Carthage

(By The Associated Press.) Chicago, May 2.—Lewis Omer, former director of athletics at Northwestern university and later athletic officer of the 86th division at Camp Grant, has been engaged as athletic coach at Carthage, Ill., college.

International Grain and Hay Show, Chicago

(By The Associated Press.) Chicago, May 2.—The third annual International Grain and Hay show will be held at the union stock yards, Chicago, Nov. 26 to Dec. 3 in connection with the International Livestock exposition. It is announced by the show management. Premiums aggregating \$10,000 will be given again by the Chicago board of trade.

Illinois Conference of Disciples of Christ

(By The Associated Press.) Springfield, Ill., May 2.—Six hundred ministers from all parts of the United States, the majority from the central west, will attend the sessions of the 21st annual meeting of the Congress of the Disciples of Christ here on May 9 to 12. Theological and philosophical subjects will be under consideration throughout the sessions.

Woman Mayor is Clever Newspaper Woman

(By The Associated Press.) Goodhue, Minn., May 2.—Goodhue has elected a woman mayor who can do more things about a newspaper office than most newspaper men.

Mrs. Florence J. Pierce is the lady. Her husband runs the local paper, and Mrs. Pierce can feed the big press or write for the paper, as occasion demands. Her regular work is keeping the books and doing the general office work.

She got further public experience as assistant to her husband, postmaster in their home town for sixteen years.

Mrs. Pierce's race for mayor was close. The balloting was heavy and she beat out the bank president who held the job by one vote.

TEST 42 HERDS FOR T. B. GERMS

Out of 583 Head of Cattle Tested for Tuberculosis in County, Only 20 Reacted.

TO KILL REACTORS

Tuberculous cow Greatest Source Infection to Healthy Cattle.

Forty-two herds, including 583 head of cattle, were tested for tuberculosis by Dr. E. G. Templeton of Ames, assistant state veterinarian, who Saturday completed two weeks of work in this county. Only 20 cattle reacted from the tuberculin test, a remarkably low percentage. These animals will probably be kept in quarantine for a time and then shipped to Chicago where they will be slaughtered. Two thirds the value of every animal killed will be paid to the owner by the federal and state government.

An organized tuberculosis eradication campaign is now on throughout the whole United States. Large funds have been appropriated by the state and federal governments with which to carry on the work and it is to the advantage of every farmer in this county and other counties to test his cattle for tuberculosis. All Hamilton county farmers who have not signed up for the later tests are urged to do so, in order that the tuberculosis eradication work in the county may be thorough.

The tuberculous cow is the greatest source of danger to healthy cattle and therefore it is imperative that all live stock owners have their herds tested. It may not be generally known that the tuberculous cow is also the commonest source of infection to swine. One tuberculous animal that is passing the germs in the milk secretions may give the disease to any or all animals to which any of the milk is fed.

Court Matters.

No motion for a new trial has been made by either party in the Gardner-Beck case in which the jury Friday rendered a verdict allowing the plaintiff \$3,333.33 damages.

Court convened this morning at 11 o'clock. The jurors in the case of the state vs. F. C. Ruegniz, claimant, were drawn and the trial started at the opening of the afternoon session.

Fails to Win First.

The north central district extemporaneous speaking contest held in Boone Friday evening, in which Miss Dorothy Gilmore of this city was a contestant, was won by the Fort Dodge contestant. Although no definite figures have yet been received, it is thought Miss Gilmore won third or fourth place. She talked on "Strikes and Their Settlement."

Chicago Judge at Commencement of Teachers

Cedar Falls, Iowa, May 2. (Special.)—Harry Olsen, veteran chief justice of the municipal court of Chicago, has been secured to deliver the commencement address before the graduating class of the Iowa State Teachers college on Tuesday, May 31.

Southern Grocers to Meet in Cincinnati

(By The Associated Press.) Cincinnati, Ohio, May 2.—For the first time in the twenty-five years existence of the Southern Wholesale Grocers' association the annual convention of the organization will be held in a northern city when it gathers in Cincinnati on May 10 for a three days session.

Harding Member of Chamber.

President Harding is a member of the Chamber of Commerce in his home town, Marion, Ohio. Here is what he says about the Chamber of Commerce idea:

"I do not know that I ever asked myself why I joined the Chamber of Commerce, but I assume that it was because I was in the newspaper business, committed to the policy of everlasting boosting our home town, and we looked upon a Chamber of Commerce as the best organized agency for carrying on the boosting work. It all came very naturally for me because of the normal atmosphere of a newspaper office, which is ever concerned with the progress and development of the community which that newspaper seeks to serve.

"I know something of the inspiring work which is done by the live secretaries of the Chambers of Commerce throughout the country. They are pushing forward with such zeal that they take a great community of business men with them."

TURK, 147 YEARS OLD CARRIER OF HEAVY WEIGHTS

(By The Associated Press.)

Constantinople, May 2.—Zora, Turkey's oldest man, said to be 147 years of age, has gone back to work as a waterfront hama (carrier of heavy weight) after a quarrel with the Turkish naval base authorities.

He was recently pensioned in honor of his age and long service and he was preparing to spend his last years in idleness. But, as pensions are not being paid here because of an empty treasury, Zora declared he was still strong enough to work, and is daily proving it. He has threatened to join the Nationalist army in Anatolia, but so far has kept the peace.

Old age makes itself respected in Turkey by a capacity and willingness to work. A certain Murad, employed as a messenger by the Turkish telegraph office, was offered a pension when he reached his 120th year. He refused it, as it meant knocking off work, but his superiors insisted he must make room for younger people who otherwise could find no work, and would have no chance to get on in life.

Murad finally agreed to quit provided his young son was taken in his place. This seemed fair and he was told to bring the son around. The son presented was a white haired man more than seventy years old.

HEALTH NUGGETS.

The U. S. public health service estimates that at least 500 and possibly 1000 lepers are at large in the United States, and that the number is increasing. The government did not start work on its federal home for lepers a minute too soon.

The scratch of a lion's claw is almost as deadly as his bite, for he never cleans his nails, and he always carries under them rotting meat that is rank with deadly germs. Flies and water bugs do the same thing on a smaller scale; and "Don't forget," says the U. S. public health service, "that they never wipe their feet."

The U. S. public health service calls attention to the fact that only twenty-three states have efficient birth registration laws; eighteen have imperfect ones; and five have none at all. Inability to prove age may cause all sorts of legal troubles later in life—in proving citizenship, in voting, and in inheriting, for instance. Don't forget to make sure that the new arrival in your home has been registered.

And now we have the woman dental hygienist. She does not pull nor fill teeth and consequently is not a terror to children. Instead, she limits her work to cleaning and polishing the teeth above the gums. The U. S. public health service says that this is most helpful in making the gums healthy and in preventing decay. Twelve states have already legalized such practice by women.

Bedbugs are easily gotten rid of, says a recent publication of the U. S. public health service, by exposing them to extremes of temperature. Cold as low as 17 above zero or as high as 100 above, if continued for two or three days, will destroy them. The cold might be applied in the north, for instance in country houses whose owners leave them unoccupied during the winter, or in houses that can be evacuated for a few days. The service offers no suggestion as to the heat end of the problem, but a roaring furnace for two or three August days might serve—if the owners could camp out for the interval.

Economy in Army.

In line with the policy of rigid economy laid down by congress, the axe has been swinging in the quartermaster corps of the army since Jan. 1 with more than usual diligence, and it is announced that nearly \$3,000,000 in salaries will have been saved to the taxpayers by June 30, or at the rate of about \$650,000 a year.

For the first three months of this year, 5,556 civilian employees have been separated from the quartermaster corps, and the approximate amount of savings in salaries up to June 30 will be \$2,778,000. In addition, 4,146 employees have been demoted in the different corps areas and depots, with a saving of \$184,823.00.

Since February, 1919, more than 80,000 civilians have been discharged by the quartermaster corps, and this branch of the army is on a new peace time footing. The 460 different kinds of civilian positions in the corps are to be consolidated into 125, and the same job will no longer have two or more different names. None of these wholesale reductions will in any way impair the efficiency of the supply service of the army.

"GOOD FELLOWS OF AMERICA"

Trying to Start Organization to Annul or Amend Volsted Prohibition Act.

PROPAGANDA STARTED

Headquarters Located at Sioux City.—Looks Suspicious.

The following is taken from "Getting There," the official publication of the Chamber of Commerce.

An organization known as the "Good Fellows of America," with headquarters at Sioux City, is making its bow in this community this week. It has sent to a large number of individuals a prospectus of its aims and purposes and has enclosed with this prospectus an application card, which is supposed to be filled out by the recipient and sent in to Sioux City together with a dollar bill, as dues.

The "Good Fellows" claim to be the fastest growing organization in the world. It has as its purposes (1) the annulment of, or the amendment of, the Volsted prohibition act; (2) to open up once more the saloons, cafes, and other "public dispensaries," to use its own words, "whereby hotels, cafes, drug stores, clubs, lodges, homes and individuals may be supplied" with beer and light wine; (3) to squelch the movement on foot to prohibit the sale and use of tobacco; and (4) to combat the so-called Blue Laws.

The "Good Fellows" intend to enter into the political arena and pass judgment on all candidates for public office, thereby influencing the "members" of the association "to vote intelligently and to use their influence against unreasonable measures." The standards on which such judgment will be based are obvious.

The low character of their aims leads us to be rather suspicious of their status as a bona fide association. There is usually something wrong with a body that advocates and works for measures that purport to overthrow the integrity and the power of our state laws and our federal constitution.

Will Establish School for Postal Employees

(By The Associated Press.)

Madrid, May 2.—In view of the expected increase in mail correspondence arising from the Pan-American postal convention adopted during the International Postal congress held here last year, the ministry of the interior is drafting a plan for the establishment of a national postal school for the training of officials.

Every phase of the work of the post-office will be taught in the school. The course for accepted applicants will last two years.

'Y' Reduced Number Drownings in Keokuk

(By The Associated Press.)

Keokuk, May 2.—The Keokuk Y. M.

C. A. claims credit for reducing the number of drownings in the city during the past 10 years, or since the free swimming school was started. Last year but one life was lost by drowning, in 1919 none, and in 1918 two. The association has announced its annual swimming school for the boys of the city, the first week after school is dismissed in June.
