GREAT CLOSING OUT SALE!

AT

J. W. HAYDEN'S,

STANFORD, KY.

Having determined, on account of my health, to

CLOSE OUT MY ENTIRE STOCK GOODS AT ONCE

I

PROPOSE TO DO SO AT COST FOR CASH!

And in many instances less than cost. We have **\$15,000 Worth** of new and desirable Fall and Winter Dry Goods, Notions, Clothing, Boots, Shoes, Hats, Caps, &c., to sell in this way. Remember this is not the tail end of a stock of goods that we are closing out, but the largest and most desirable stock of goods ever offered in Central Kentucky at cost. Purchasers will effect a large saving on everything they buy. Come at an early day or my entire stock may be closed at wholesale. Liberal discounts will be given to any man who wishes to buy the entire stock.

The Society Column.
The Louisville Commercial puts it rather strong when it calls those people who affect not to like newspaper notoriety hypocrites; but it is nevertheless true that a great majority of people are eager to see their names in print. The Messenger was among the first of the Kentucky newspapers to start a society column, and as much care and time has been taken in editing it as any other department of the paper. The very people who grumble the most because a paper is "so chock full of personals" are the ones who habitually, on picking up the paper, turn first to the personal column and hurriedly scan its contents, and who feel most disappointed when their own names are omitted if there is the least occasion for their appearance. Some people honestly dislike personal mention of themselves, and a few request that their names be left out. The public would be surprised, however, to know how many request their names to be published. On the whole the personal column is considered the most interesting feature of the present-day journalism. Some of our contemporaries have effected to eschew it and have even gone so far as to burlesque it, but they all fall into it eventually. The public demands it, and to a certain extent a newspaper is compelled to cater to the taste of its readers. — [Owensboro Messenger.]

SMOKING HAM.—A correspondent of a New York weekly objects to the smoke house used for smoking meats. Instead he recommends smoking the barrel with maple or hickory chips (corn cobs are good). Pack the ham and shoulders in it (fresh side up, and pour in sufficient quantity to cover the whole. The pickle will extract the smoke from the barrel and carry it evenly through the meat, the center of the ham being as perfectly impregnated as the outside. It saves trouble avoids risks with fire or thieves, obviates any necessity of bagging or otherwise protecting from flies, since they can remain in pickle till wanted for use.

It is curious, says an exchange, how few people know the benefit of fruit at breakfast time. A saucer of berries, an orange or banana, pear or apple, at six in the morning will make the sky look brighter and fill the world with sunshine even on cloudy days, yet many people never think of eating fruit in the morning.

CURE FOR PILES.
Piles are frequently preceded by a sense of weight in the back, legs and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, as flatulency, uneasiness of the stomach, etc. A moisture, like perspiration, producing a very disagreeable itching, after getting warm, is a very common attendant. Blood, bleeding and itching piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, relieving the intense itching and affording a permanent cure. Price 50 cents. Address the Dr. Bosanko Medicine Co., Fiqua, Ohio. Sold by McRoberts & Stagg.

PAINT LICK, GARRARD COUNTY.

—Farmers are busy gathering their corn and say that the yield is much better than they expected.

—The hop at the Paint Lick Hotel bids fair to be a grand affair. Since the election of Cleveland the hop will be given in his honor. A good supper will be prepared and every body will be welcomed.

—John M. Baker, Jr., died Monday night at 8 o'clock with liver complaint and was interred at Wallace's Chapel in the family burying grounds. He has been recently clerking at D. G. Slaughter's. He was a nice, polite young man and was liked by everybody.

—Misses Hattie and Mamie Bourne, two little beauties of Paris, Ill., are the guests of Mrs. John Smith at the Veranda House. Mrs. Willis Adams, Sr., and Mr. Alvah Pallins are both quite sick. Farris, a little son of J. W. Smith, has been quite sick, also Mrs. Jennie Searcy.

—Dr. Strawn, of Nelson county, was here this week looking out a location to practice his profession. He seemed to be pleased with the place but there is not a house in this place to be rented. He said that property here is higher than it is in New York City. If some of our land owners would build a few tenement houses and rent them out they would make good interest on their money.

—The democrats are rejoicing over the glorious news of Cleveland's election. The republicans are looking like they had been to a burial of a near relative. The negroes are all picking out their masters and are preparing to go into bondage, all except an old negro that weighs about 250 pounds, by the name of Milow Arnold, he is complaining of losing his eyesight. The election passed off quietly here. There was not a single drunken man on the ground.

THE STARS AND WOODPILE.—"Sometimes as I gaze into the great starlit girdle of earth and try and fathom the mystery of space, I am lost in the utter hopelessness of my littleness," remarked Mr. Jarphly. "How impossible it is for the human mind to comprehend anything without a beginning and an end! It is beyond its capabilities, however cultured or brilliant that mind may be. For what, then, are our little petty ambitions, spites, malices, struggles and exertions? For what do we exist? For?"

"Got that wood chopped yet, Jeremiah?" called out Mrs. Jarphly from the kitchen. "Well, you'd better hurry; I reckon if you have to go without your supper, you won't be wondering what you exist for." — [Boston Herald.]

McROBERTS & STAGG,
The Druggists, who are always looking after the interest of their customers, have now secured the sale of Dr. Bosanko's Cough and Lung Syrup, a remedy that never fails to cure Colds, Pains in the Chest, and all Lung Affections. For proof Coughs, try a free sample bottle. Regular size 50 cents and \$1.00.

A Hardware Store.

At the restaurant at Pensacola Junction: Last spring while I was on my way to the "Mardi Gras" we stopped there for dinner. A gentleman desired to take a cup of tea into the train for a sick lady. "No!" yelled the proprietor, "you can't take no cups out o' yere."

"But it is for a lady who is to ill too come in."

"Don't make no difference," was the reply; "no cups can go out o' yere."

"I'll pay you for one," persisted the gentleman, producing a dollar bill.

"We don't sell cups," was the sneering answer. "D'y'e think we keep a hardware store?"

"Judging from this," said the man who balanced one of the doughy sandwiches in his hand and looked at it critically, "I should suppose you did!"

The passengers set up a mighty shout of laughter and approval, but nevertheless the man did not get off with the cup of tea and the invalid lady's thirst remained unquenched. — [Baltimore Southern Manufacturer.]

PANACEA FOR TROUBLE.—Life is filled with trouble, as a writer in *Our Homes* has said, and we must shoulder our share with the best grace we can. We may only seek to make them as light as we can, since to avoid them is impossible.

There is one sovereign panacea for this. It is work. Brooding over trouble is like surrounding one's self with a fog. It magnifies all objects seen through it. Occupation of the mind prevents this, hard work, manual work even, gives the mind other matters of concern, tires the body so that sleep will come.

Very few suicides occur when men are actively employed. When out of work they think of their other troubles, and the despondency arising from this added one throws the mind from its balance and the fatal deed is done. Many a man would have committed suicide if he had had the time. Work of any kind, especially work for others, is the great panacea for a troubled mind.

A Convenient Accident.

"I see a mail car burned on the Omaha night before last and all its contents destroyed."

"You don't tell me! Where was it bound?"

"Going north to Ashland and Bayfield, Wis."

"To Bayfield? Good, good!"

"Good? What on earth is there good about it?"

"Why, you see, I owe a man in Bayfield a little amount, and I've promised to send it to him till he won't take promises any longer."

"What's that got to do with it?"

"Everything, everything. I'll go right off now and write asking him why in tunk-et he doesn't send a receipt for that money that sent him last—last—what day did you say that mail car was burned?" — [Chicago News.]

FEEDING WHEAT.—A farmer in Western New York, who raised over 600 bushels, this year, proposes to test the feeding value rather than sell at present prices. Lockpool Journal says: "He is grinding it coarse, bran and flour together, for pigs, and intends to feed some whole grain, soaked, to his horses while at heavy work. Some caution will probably be needed in feeding wheat except to hogs, not to give too much, but with due care he will find it an economical feed as any grain, and probably safer for most stock than cottonseed meal."

A MACHINE FOR PRODUCING RAIN.—Among the latest inventions reported from Australia is a machine for producing rain storms. It is intended to force a rain supply from the clouds during a period of drought. The apparatus is in the shape of a balloon with a charge of dynamite attached underneath it. The balloon is to be sent into the clouds, and when there the dynamite is to be fired by a wire connecting it with the earth. A trial of this novel contrivance is to be given upon the dry districts of New South Wales, and the result is looked forward to with interest by some of the residents of that colony.
