E. y, the storehouse of C. S. Shumate, the saddler's shop of Mr. R. M. Argo, the stable of Ward & Lutes all caught fire, and but for heroic work of persons all would have been lost. With but one or two exceptions every one present worked faithfully to the end. The origin of the fire is not known. The loss cannot be ascertained. C. B. Egleman had \$900 insurance on his stock of goods. Ward & Lutes had \$5,000. The sufferers extend their heart felt thanks to all who so kindly and so manfully assisted them in time of trouble and who were turned out of house and home especially extend our thanks to those who so kindly offered us shelter. Had it not been a very still night the whole of our little village would have been destroyed.

Washed Out Hair.

There is a sort of pallid, chunky complexion which the novelists call a "washed out complexion." It is ghastly enough and no mistake. Washed-out, faded, colored or parti-colored hair is almost as repulsive and unsightly. Parker's Hair Balsam will restore your hair to its original color, whatever it was; brown, auburn or black. Why wear moss on your head, when you may easily have lively, shining hair.

Price 50 cents and \$1.00 sold by McRoberts & Stage.

1831 THE CULTIVATOR 1885 COUNTRY GENTLEMAN!

THE BEST OF THE AGRICULTURAL WEEKLIES

The Country Gentleman is the leading journal of American Agriculture. In amount and practical contents, in extent and ability of correspondence, in quality of paper and style of publication, it occupies the first rank. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes, Horticulture & Fruit-Raising, Live Stock and Dairying.

While it includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Green House and Grapery, Veterinary Receipts, Farm Questions and Answers, Fire-side Reading, Domestic Economy, and a summary of the news of the week. Its Market Reports are unusually complete, and much attention is paid to the prospects of the crops, as they are light upon one of the most important of all questions—When to Buy and When to Sell. It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL PAPER.
