IN the race for Superintendent of Public Instruction Prof. H. K. Taylor and T. M. Goodnight are the favorites here. The former married a daughter of Judge Nick Sandifer and sister of H. G. Sandifer, of Danville, and J. P. Sandifer, of Lancaster, and would have received the instructions of this county solidly, but for the entrance of the latter in the race. Both are good men but the fact that Prof. Goodnight married a daughter of Squire J. S. Murphy, a leading farmer and citizen of this county, will cause a division of the vote to say the least.

A PAPER printed at Bloomington, Ill., has this in regard to a former Stanford man: "Mr. George Fields, of the fire department, met with a severe accident. In the third story smoke was so dense as to scarcely allow breathing, and Fields seeing a window through the smoke attempted to reach it. In doing so he fell through the open elevator to the first floor. He was picked up and carried into a drug store, where Dr. Keck made an examination of his injuries and found him badly bruised up but no bones broken. The extent of his internal injuries can not be ascertained for several days. He walked home from the drug store, but since then has been scarcely able to move.

THE popular and energetic general freight agent of the K. C., Mr. C. L. Brown, was called into the office of Receiver H. E. Huntington Tuesday, and according to the Commonwealth who surprised him by saying at once: "Mr. Brown, I have kept an eye on your proceedings of late and have arrived at the conclusion that I will be compelled to give you your time."

THE report that Dr. Peony's bicycle got frightened the other night as he was coming from Danville and jumped with him into the Hanging Fork, drowning rider and ride, we are glad to say, is untrue. It did jump into a branch but the doctor's clothing was the principal sufferer, his wife being almost unable to recognize him so muddy were they.

ON examination of the damage done to the Presbyterian church, it was found that some \$400 would be necessary to repair the work of the cyclone and that it never could be considered as safe as formerly. It was thereupon suggested that as Providence had given a pretty strong hint that a new house ought to be built, that it should be heeded and a meeting was called for yesterday afternoon to consider the matter. Mr. A. K. Denny was called to the chair and Mr. Mack Huffman stated the probable cost of repairing, of remodeling and rebuilding. As between the two latter propositions, he thought there was about \$1,000 difference and that a new building would be worth many times that amount in difference of beauty and substantiality. With the material of the old building that could be used a new one would cost \$5,000. The question was then put as to whether it should be repaired and not a vote was for it. Then all in favor of a new building were requested to stand and all of the 40 present stood save two. A subscription was then asked and \$1,000 pledged, although there were but 17 men present. A committee on plans for building, composed of Mack Huffman and Dr. Steele Bailey, and another composed of Mrs. S. S. McRoberts, Mrs. Geo. H. Bruce, Mrs. Mack Bruce, W. H. Higgins, George D. Warren, P. M. McRoberts and A. S. Moffett, to solicit subscriptions. Another meeting will be held Saturday afternoon at 3 o'clock, when the committee will report. Everything considered, it seems to be out of the question not to have a new building, and we trust that the outsiders will assist the brethren all they can in raising the funds. Let everybody respond.

-The Presbytery of Louisville has conditionally placed itself on record as opposed to that clause of the "Confession of Faith," beginning "a man may not marry any of his wife's kin nearer in blood than of his own, etc." This refers to the much-discussed deceased wife's sister question.
-The District Conference of the Methodist church will be held at the church here instead of at Brights. It will occur May 17th and 18th, by which time the repairs will be fully completed. But it must not be considered completed till that spire is improved, which ought to be done by all means.
