Woman's Work to be Exhibited At The State Fair.

Prizes amounting to \$750 are offered and there will be some fine displays. True to the reputation which Kentuckians have long since established for gallantry towards their "women folk," the executive committee of the State fair has certainly dealt most generously with them in awarding the premium list in the woman's department.

Not only are the premiums the largest offered by any State in the Union, \$750 having been allotted to this one department, but so wide is their scope and so broad their purpose to reach every class, that one may be well repaid by a careful study of the lists.

The practicable, sensible woman of our rural or mountain sections from whose sturdy looms come the beautiful woven counterpanes and artistic rag carpets whose merits are being more and more appreciated; the deft fingered art workers of our cities with their filmy laces and exquisite embroideries, are all remembered. In whatever direction one's talent may lie, she will find in this catalogue an incentive to exhibit her best work.

Not alone in the needle work, either; for that road which is said to lead most directly to a man's heart, the culinary highway, is quite as generously provided for. Breads, cake, preserves, jellies, pickles, all are there, with abundant scope for display of one's skill in many directions.

Another striking feature to which attention should be called, is the sweepstake premium offered as an inducement to exhibit as many different articles in each class as one may be able. To the one who receives the largest number of premiums in any class, special premiums of \$10 is awarded, making it worth one's while to enter as great a variety as possible.

Nor are the children forgotten, for there is a special list for them, where they may exhibit their best dressed dolls, their raffia work, scolding, or any other handicraft in which they may excel.

To any one who may feel interested the Secretary of the Association, Mr. L. B. Shropshire, Board of Trade Building, Louisville, Ky., will gladly mail catalogues upon application and it is earnestly hoped that the women of our State may find both pleasure and profit in making their department a success.

The argument was begun by the attorneys in the Jett-White case Saturday at Cynthiana. Judge B. F. French spoke for the defense and County Attorney Stanley Webster for the Commonwealth. Judge French denounced Ewen, the State's chief witness, in bitter terms, and Mr. Webster paid his respects to Judge Hargis and Sheriff Callahan in vitriolic style. At the opening of court the defense submitted a motion to exclude spectators from the courtroom on the ground that they would applaud remarks against the defendants and thus prejudice the minds of the jury. The motion was overruled. A motion to set aside the swearing of the jury and continue the case, because of a remark made by the court, met a similar fate. Judge Lafferty spoke yesterday for the defense and was followed by Thomas Marcum for the State.

Charlie Duaway, aged nine years, was returning from school at East Berstadt with a rope tied around his neck that he had been playing with. He boarded a passing train for a ride towards his home and when he jumped from the moving train the rope had become fastened to the car. The speed of the train was increasing as he fell and he was dragged some distance before the train crew saw his peril, applied the air brakes and released him. He received injuries from which he died in a few hours.

The project of a tax on fat people is being considered in Sweden. The advocates of the tax argue that when a man is above a certain weight he is in a well fed and consequently prosperous condition, and so in a position to contribute easily to the public funds. It is proposed that persons weighing 125 pounds and less, shall be exempt from the tax, but that persons weighing more than 125 pounds shall be subject to a graduated tax, which would be doubled for those weighing more than 180 pounds.

Mrs. Mollie Allen, of South Fork, Ky, says she has prevented attacks of cholera morbus by taking Chamberlain's Stomach and Liver Tablets when she felt an attack coming on. Such attacks are usually caused by indigestion and these Tablets are just what is needed to cleanse the stomach and ward off the approaching attack. Attacks of bilious colic may be prevented in the same way. For sale by Craig & Hocker.

Considerable damage was done by a cloudburst in Carroll county.

Two valuable horses, Bernaldo and Delmar, owned by Joseph Smith, of Brooklyn, were burned to death at the Empire City trotting track near Yonkers, N. Y.

E. R. Thomas, the young millionaire turfman, has disposed of part of his racing interests to Alexander Shields, the owner of Advance Guard. The two men will form a partnership.

Jos. A. Wilson, of Bourbon county, the past season sowed 10 acres of Michigan wheat seed on his farm near Paris, the first to be tried on Kentucky soil. The yield was 35 bushels to the acre, the largest yield we have heard of in the State. It is of extra quality and no smoot can be found in it.—Advocate.

"The work of summer plowing should not be relaxed," says a Mercer county farmer. "The land broken in August is in much better condition for seeding to either wheat or the grasses in October or November than that broken in September. The vegetable matter has more time in which to decay, and the drying effects of such undecayed vegetation are averted."—Democrat.

The Commonwealth surprised the defense in the Caleb Powers case at Georgetown Saturday by introducing Frank Cecil, who has not heretofore testified against Powers. Cecil told practically the same story he told at the Youtsey trial, but his evidence very strongly implicates Powers. He says Powers told him he was looking for a man to kill Goebel and practically offered him the job of assassin. When Cecil did not proffer his services, Powers took him to W. S. Taylor, who renewed the proposition and offered him \$2,500 and a pardon if he would assassinate Goebel. Cecil told his story in a calm manner and several times looked the defendant squarely in the face while testifying.

Not Over-Wise.

There is an old allegorical picture of a girl scared at a grass hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a 100 to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by Craig & Hocker.
