Richardson Gives Good Backing In Announcing His Candidacy.

After showing how Warren county hogged the offices of the district since the time whereof the memory of man runneth not to the contrary, Editor Richardson thus announces his candidacy for Congress in the Third district: As for myself I shall only say that I am endorsed by the democracy of Barren county, and thus backed by 3,400 of the best democrats in the world. They ask my nomination for Congress.

I wrote the first and last editorials ever written in Kentucky in reference to a school book bill. I also wrote into the last campaign book the chapter on the school book bill which made it an issue in the last campaign. Today the parents of the State are saved at least \$200,000 in the reduced price of school books and nearly that sum by the establishment of State uniformity.

As a member of the Blackburn-Hunter Legislature, I did my duty as faithfully and ably as I knew how. In the Goebel contest I stood by that martyred leader from beginning to end, ready to aid him with my life if need be; I was present in Frankfort during the whole contest, bearing my expenses out of my own pocket.

In every contest waged between democrats and republicans in Kentucky during the past 25 years, I have borne a share of the heat and burden of the day, and have fought a not dishonorable part in every party battle.

Mr. Porter has held office for 25 years: Why not give others besides a Warren county man a chance?

I am a candidate for Congress and ask the support of all democrats.

Respectfully,

J. M. RICHARDSON

Resolutions of Respect.

WHEREAS, it has pleased an overruling Providence to remove from our midst our friend and fellow townsman, Ephraim Severance Payne, a young man of such genuine worth as to cause general sorrow where ever he was known, and the community to feel keenly the loss of such a staunch, worthy citizen, and whereas Ephraim Severance Payne was a member of the I. O. O. F. and whereas every member of this order respects our friend and brother because of his courtly personality and intrinsic character, therefore be it resolved: That Crab Orchard Lodge No. 108, I. O. O. F. extend to the relatives of the deceased their heartfelt sympathy in their bereavement, and because of the ties of fraternity and deep respect we do enter in their sorrow and feel with them the loss they have sustained. Be it further resolved: That the members of this lodge wear the usual badge of mourning for 30 days and these resolutions be spread on the records of Crab Orchard Lodge No. 108, a copy be presented to the family of our brother and friend and also that the INTERIOR JOURNAL be requested to publish these resolutions. Respectfully submitted,

W. M. Morris, H. L. Wells, R. F. Jordan, committee.

KILLS GERMS OF CATARRH

Hyomei Goes to the Root of the Disease and Makes Astonishing Cures.

Catarrh cannot be cured by the use of pills, liquid medicines and so-called system tonics. Under such treatment the germs of the disease will still live in the air passages and increase and multiply. Hyomei is the only scientific and thorough way to cure catarrh. Killing the germs in the air passages, it enters the blood with the oxygen, destroys the microbes in the blood and effectually drives from the system all traces of catarrhal poison.

Probably the strongest evidence that can be offered as to the powers of Hyomei to cure catarrh is the fact that Penny will agree to refund the money if you say Hyomei has not cured you.

The complete Hyomei outfit costs but \$1 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents.

Dear father, won't you tell me about a sleeping car? I often wonder when they work and what they really are. Do such cars go to bed at night, and are their slumbers deep? It must be such a funny sight to see a car asleep.

Defeated for Office, but Will Try Again.

In remitting for his paper from Valley View, Texas, Mack Wheat, an old Lincoln county man, says: Our primary election is over and I was defeated. I made the race against two old Texas boys and one of them defeated me and I defeated the other by 271 votes. So this puts me in line shape to make the second race two years hence. I feel proud of my race and I think I can be elected next time. I am at this time a farmer and a merchant. I bought 237 acres of land near Valley View at \$40 cash and out off this farm 34 acres at \$40 to one man, to another man 65 acres at \$50. This leaves me a nice little farm—138 acres. Land is getting very high in this part of the State. When I first came to Texas five years ago land was worth from \$25 to \$35; today the same land is worth \$40 to \$50. Our little town still continues to improve. Valley View is the best town in the county outside of Gainesville.

Sick Headache.

"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. Taken with Cramps.

Wm. Kirmse, a member of the bridge gang working near Littleport was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's medicines.—Elkader, Iowa, Argus.
