

The Interior Journal.

E. C. WALTON.

FRANKLIN county and the city of Frankfort should purchase the old Capitol Square. The new wing could be converted into a very fine and convenient courthouse. The remainder of the grounds would make one of the prettiest little parks in the State. With the expenditure of a few thousand dollars this could be accomplished. Then, with a new courthouse, a pretty little park, a \$100,000 dollar depot and a million dollar Capitol, Frankfort could be almost all that anyone could desire, hopefully remarks the Frankfort Journal. In the list of improvements desired, our brother failed to mention the removal of the many hills that surround the capital, which have caused the little city to be known as the "hole in the ground" almost as well as it is by the name given it by its founders.

EDITOR WALTON, of the INTERIOR JOURNAL, said that there are some women in Kentucky whose kisses are well worth \$100,000 each. We second the motion for a bill of particulars.—Harrodsburg Democrat. While our assertion was made in good faith Brer Buster Brown must not let it worry him in the least, for our thoughts were far from Harrodsburg when we asserted. Take a drive up this way and see some of our loveliest of the lovely and Editor Brown will wish he had a cool hundred thousand that he might offer it all for a single occupation. However, the offer would do no good for Lincoln county girls are not built that way.

GEN. FITZHUGH LEE, of Virginia, died at the Providence Hospital in Washington as the result of an attack of apoplexy and paralysis, with which he was stricken while traveling on a train from Boston to Washington. Gen. Lee had been a prominent figure for years. He was a nephew of Robert E. Lee, was a gallant Confederate officer and almost as good a warrior as his uncle. He served as governor of Virginia, was consul at Havana, Major General of U. S. Volunteers, Military Governor of Havana and later in command of the Department of Missouri, United States army until retired upon reaching the age limit.

LAW and not fashion will dictate the head gear of the women of Missouri after Representative Walmsley's fish and game bill goes into effect June 16. The plumage of only a few birds is allowed by the law to be used in decorating hats, and thousands of dollars of forbidden feathers and bird bodies in St. Louis, Kansas City and St. Joseph stores will become contraband. Only the feathers of domestic birds, such as ostriches, chickens and ducks may be used, while the wild birds allowed milliners are confined to English sparrows, hawks, owls and crows. The penalty is a fine of \$25 for each offense.

CIGARETTE smoking in Jeffersonville, Ind., is against the law, according to the construction placed on a recent act by the city judge. His opinion is not based on the mere fact of smoking, for which there is no penalty, but to smoke a cigarette one has to have it in his possession, and this is against the law, which puts smoking under the ban. Looks like the cigarette fiend will have to hunt a more congenial climate than Hoosierdom, but the Kentucky assassins will still be welcome there and given the best that's obtainable.

THREE cheers for our friend, Clarence E. Woods, who has just been nominated for mayor of Richmond by an overwhelming majority. As the city is democratic Mr. Woods' election is a certainty and it is equally as certain that he will give Richmond an administration of its affairs that the people will have good cause to feel proud of.

THERE are 14 men on the pay rolls of the Equitable Life Insurance Company who draw \$655,000. This prodigious disposal of the company's funds should be stopped or there will be nothing left to pay policies with. There is no possible way in which these 14 men can be worth so much to the institution.

THEY are still handing around the hat for Caleb Powers, James H. Moore, a Louisville school teacher, is working Indiana for the benefit of Caleb and is said to be raking in the shekels. It would be hard for Kentucky assassins and assassin sympathizers to get along were it not for Hoosierdom.

A COMPANY is being organized in Chicago to play "The Woggle Bug," which will be a musical comedy. Perhaps it is well staged and some good actors play the various roles we may some day learn what the Woggle Bug really did say.

ALL the oldest Odd Fellows and Masons of the country having died the oldest bankers now have their inning. Milton W. Black, Indiana's oldest banker, has just died, aged 96.

THE Somerset Journal talks "hoss" sense when it says: "Any woman can make a fool of a man, but it takes a feminine genius to make a man of a fool."

Out of 225 licensed embalmers in the State of Kentucky, only three have been honored by the State Board of Health in permitting them to prepare bodies, where death has been caused by infectious diseases, for shipment. One of these embalmers lives in Franklin, one in Louisville, and the other is our townsman, Mr. James A. Beazley. Mr. Beazley's many friends will be glad to know of this distinction.

The dedicatory sermon was preached by Rev. Dr. L. O. Dawson, of Tuscaloosa, Ala. Dr. J. J. Taylor, president of Georgetown College, also took part in the services, which were presided over by the pastor, Rev. O. O. Green. The church building, which is constructed of pressed brick and stone, cost nearly \$10,000 and is probably the handsomest country church in Kentucky. It was dedicated free of debt.

Was Wasting Away.

"I had been troubled with kidney disease for the last five years," writes Robert K. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." During the Summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. G. L. Penny.

MASTIC MIXED PAINT

Can't Be Touched

for painting houses. The reason's plain. Mastic is the purest, therefore the most durable and economical. There is a whole string of "other fellows" claiming "just as good as Mastic" but they don't prove it. Maybe they can't. The analysis of Mastic is published. It's made of pure lead, zinc and linseed oil—the most durable kind of paint—and its purity is therefore unquestioned. As purity means durability, the splendid wearing qualities of Mastic have given it the title of "The Kind That Lasts," and this title is backed up by our absolute guarantee. Mastic is made by PEASLEE-GAULBERT CO., Inc. LOUISVILLE, KENTUCKY and we heartily recommend it to your trade.
