Her daughter, Mrs. W. L. McCarty, who has been with her mother in Lexington the past few days, returned home Tuesday. "Uncle" Joe Johnson is very ill and not expected to live. Lane spent a few days in Cincinnati last week shopping. Mrs. Lane went to Science Hill Monday to attend the funeral of Rev. George Thompson's son, who was killed by a train at Bowen. J. D. Swope and Mr. Wright, insurance agents of Lexington, are here.

Hardup—I'll never go to that restaurant again. The last time I was there a man got my overcoat and left his in its place.

Weloff—But the proprietor wasn't to blame, was he?

"No, but I might meet the other man."

No Poison in Chamberlain's Cough Remedy.

From Napier New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by all druggists.

Johnson—Is it really true that your wife has left you?

Jameson—Yes, and that's not the worst.

"Why, what do you mean?"
"I've just had a letter saying she's coming back!"

Man's Unreasonableness

is often as great as woman's. But Thos. S. A SUGGESTION

To The People Of Stanford.

The articles appearing in some of our leading publications have created a good of discussion in Stanford in regard to advertised medicines, their reliability and power to cure, and as local druggists, we, Penny's Drug Store, want to say to the people of Stanford that we believe one of the most reliable medicines that we have known in our drug experience, extending over a long period, is Vinol, the cod liver preparation, made without oil.

Vinol is not a patent medicine; everything in it is printed on the back label of every bottle, and it actually does contain in a highly concentrated form all of the medicinal, curative elements of cod liver oil taken from fresh cods' livers, and without a drop of the system-clogging oil to upset the stomach and retard its work, and this is why it is fast superseding old-fashioned cod liver oil and emulsions.

Inasmuch as Vinol is therefore the latest scientific improvement of an old and standard remedy it is the greatest strength creator in the world for old people, weak, sickly women and children, nursing mothers and after a severe sickness. It cures hacking coughs, chronic colds and all pulmonary troubles. We positively guarantee to return money if it fails. Penny's Drug Store.

Laziness, according to an Atlanta physician, is a germ disease contracted by walking on the ground. Still you haven't observed that the man who travels on a street car pass is more energetic than his fellows.—Louisville Times.

A Few Words To You.

We cordially invite the people of Lincoln county and Stanford to visit our store. Never before have we had so many of the thoroughly artistic things. Our store room has been materially enlarged and our stock of goods especially suitable for holiday gifts has been doubled. We are reputed to be the biggest dealers of the kind in Central Kentucky and it is our purpose to supply the people of Boyle and adjoining counties with a class of goods that can not be elsewhere gotten outside the large cities and on account of our comparatively small expenses we can and will save you money on high-class jewelry and novelties.

Our optical department has been improved and better equipped and patients suffering from eye defects are especially invited to visit this branch of our business.
