To The Democrats of Lincoln County

I am a candidate to represent Lincoln county in the next Legislature of Kentucky. I have always been a true and consistent democrat, ready and willing at all times to work for the success of my party.

I have twice had the honor of representing my county in the Legislature and during those two terms I devoted my entire time to a faithful and prompt discharge of my duty, always keeping in view what I conceived to be the best interests of the people of my county and State.

I am in favor of the very lowest rate of taxation consistent with the proper management of the State government. I am opposed to increasing salaries and creating unnecessary offices. I am opposed to extravagant and reckless expenditure of the people's money. I am for my people and my party and for James B. McCreary for United States Senator first, last and all the time.

Respectfully soliciting your support,
I am yours truly,

M. F. NORTH.

CHURCH MATTERS.

The Mormon Church is said to be closing out all the business and industrial enterprises in which it is interested.

The feature of the Methodist Conference at Birmingham, Ala., was the arrival of Vice President Fairbanks. The Vice President delivered an address to the conference.

Rev. D. M. Sweets, of Louisville, was appointed by the Presbyterian General Assembly at Greenville as the Kentucky member of the Committee on Articles of Agreement.

The platform in the auditorium where the Presbyterian General Assembly at Des Moines is holding its meeting collapsed with over 1,000 assemblymen. They were being photographed at the time.

Dr. E. H. Pearce has returned from Springfield, where he has been holding a meeting at the First Methodist Church. He reports large congregations at the twice-a-day meetings. He was assisted by Rev. Granville Lyon, of Danville News.

Rev. Dr. John J. Tigert, a native of Louisville, and the Rev. Seth Ward, of Texas, were elected bishops of the Southern Methodist Church by the conference in session at Birmingham. Dr. Tigert worked as a driver of a grocery wagon when he was a boy.

MATRIMONIAL.

James M. King, aged 70, and Miss Mary A. Hammonds, 65, were married in McCracken county.

Miss Ethel Hardesty, formerly of Perryville, and Walter Burrice, of Lebanon, a traveling salesman, were married at Campbellsville.

A London Special says: It became known here this week for the first time that John R. Boreing, youngest son of the late Congressman Vincent Boreing, had been married several days. So quietly did Mr. Boreing slip away to Pineville and marry Miss Gertie Logan, one of Bell county's fairest daughters, that his friends had scarcely missed him until he had been married several days and returned home.

Fortunate Missurians.

"When I was a druggist, at Livonia, Mo.," writes T. J. Dwyer, now of Graysville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong to day. One was trying to sell his property and move to Arizona, but after using New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Suresst Cough and Cold cure and Throat and Lung healer. Guaranteed by Penny's Drug Store, Stanford, and Lyne Bros., Crab Orchard.

Irwin Tucker, president of the Savings Bank of Newport News, Va., committed suicide in his room over the bank just as Chief of Police Reynolds opened his door to arrest him upon a warrant charging him with defaulting in the sum of \$10,000.

KIDDS' STORE.

Mr. J. H. McAllister, of Way, Miss., visited relatives in the West End last week.

Blackberry winter was unusually severe and protracted, but limited damage was sustained by the crops and fruit. Gardens at this writing are still littered with the various coverings applied to tender crops.

John Lynn's boy began life at nine pounds avoirdupois two weeks ago and has already formulated a system of lively communication of his wishes, which the fond parents readily interpret—John says.

Old friends and admirers of Evangelist George O. Barnes enjoyed a series of his sermons at Hustonville. Whilst physical infirmities compel him to preach sitting, his fervor and magnetism are but little diminished.

Tell Col. Chandler that 11 years ago 12 inches of snow fell in Lincoln at a later date and overshoes as well as overcoats were in daily use almost up to June, when torrid temperature came with almost blizzard suddenness.

A very partial hailstorm played havoc North and West of us a few days ago, apparently discriminating along line fences, one farmer escaping with but an occasional pellet, while his neighbor caught it to the destruction of his garden sassa and young poultry.

A nonagenarian farmer declares that he cannot recall a winter and spring counterpart of 1905-6. Farming and gardening were never later in 50 years' experience of many. Numbers of the early birds could not prepare ground for earliest vegetables before May.

An increased acreage of tobacco will be cultivated if a supply of plants can be secured. Many advocates of the transmutation of wheat, rye and timothy are persuaded that tobacco and mullin should be added to the list, as many tobacco beds show a preponderance of mullin where a perfectly pure, selected supply of seed was sown.

A common school enumerator found a mother whose record of her children's births is by periods and events, instead of calendar dates. Priscilla was 17 at "rosenear;" Tecumseh Sherman was 15 at blackberry time; Robert Burns was 13 at "tater diggin';" Araminta will be 11 on election day; James William was born in wheat harvest time eight years ago; John Berry was six at fodder pullin'.

It is Dangerous to Neglect a Cold.

How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by Dr. W. N. Craig, the popular druggist at Stanford, Ky.

As a result of the war of statements which followed the president's alleged desertion of democratic rate bill allies, the following song is being sung at the Capitol and on the streets of Washington to the tune of "Everybody Works But Father:"

"Everybody lies but Roosevelt—
He stands around all day—
Thinks he's a man of iron,
But he's only common clay.
Tillman, Bailey, Chandler,
The truth they try to tell—
Everybody lies but Roosevelt,
They do, like —ll."

CORNS CURED.—Corn Exit will positively remove corns in four days. The treatment is simple and pleasant and we absolutely guarantee to refund the money to each and every customer whose corns are not promptly removed with entire satisfaction. A bottle of this great preparation only costs 15 cents and nothing if a perfect cure is not speedily effected. G. L. Penny, druggist, Stanford, Ky.

Mark Wilson, West Wilson and Arthur West were killed in a fight in a storehouse at Lynnville, Ky. No one witnessed the encounter, the three men being found dead in the room, when others, attracted by the shots, entered. It is supposed West Wilson killed West, who killed the two brothers. Five men have been killed in Lynnville during the last year.

Prof. Chamberlain, of the University of Chicago, says the end of the world will not come for at least 100,000,000 years. Let us, therefore, go on trying to make it better.—Bowling Green Times-Journal.

That the earthquake which destroyed San Francisco was an important factor in determining the vote of the Senate Committee on Inter-oceanic Canals, in favor of a sea-level type, is apparent from the fact that a feature of the majority report is a discussion of the effect such an earth wave might have on locks and dams.

The forest fires in Northern Michigan have almost swept blank an area of 100 square miles. So far as known only four lives have been lost. It is impossible to tell at present what the property loss will be, but it is very heavy. Four towns have been wiped off the map, a dozen partly destroyed and five counties devastated by the flames.

Postmaster Robbed.

G. W. Fouts, Postmaster at River-ton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters; which cured me and have kept me well for 11 years." The nearer the time approaches the greater is the interest manifested in "Home Coming Week" and many from our locality will take advantage of the low rates and meet their friends in Louisville.
