VOL. XXXV.

FLATWOOD.

J. C. Clouse and family are down with measles.

Sam Wilcox bought two hogs of Geo. Beazley, paying \$6 per head.

Rev. A. C. Baird filled his appointment at Goodhope Saturday and Sunday, delivering two good sermons, but owing to the rain there was a small congregation both days.

The INTERIOR JOURNAL and Lancaster Record both make a mistake in the killing they recently reported. It was Speed Mason who killed John Knuckles on Fall Lick and not at Flatwood as reported. The place of the killing is about six miles from Flatwood.

Jas. Coldiron, of Oneida, is visiting in this community. Miss Willie Cornney entered school at Lancaster the first of the year. Miss Myrtle Cornney has closed a successful term of school at Stony Point. Joe Cornney was a visitor at Mrs. M. F. Cornney's Sunday. Silas Baird left Monday for Jellison, where he will probably work as a bookkeeper for a while.

On Sunday afternoon Miss Vera Cronshorn, of Crab Orchard and Rev. A. C. Baird, of this place, were united in wedlock's holy bonds at the home of Milton Mahan in Lancaster. Rev. Brummett performed the ceremony. Mrs. Mahan had prepared a bountiful repast for the couple and all join in wishing them a happy journey through life. The bride is a popular school teacher of Lincoln County.

Rank Foolishness.

"When attacked by a cough or a cold or when your throat is sore, it is rank foolishness to take any other medicine than Dr. King's New Discovery," says C. O. Eldridge, of Empire, Ga. "I have used New Discovery seven years and I know it is the best remedy on earth for coughs and colds, croup, and all throat and lung troubles. My children are subject to croup, but New Discovery quickly cures every attack." Known the world over as the King of throat and lung remedies. Sold under guarantee at Penny's Drug Store. 50c. and \$1. Trial bottle free.

"You talk of Pierpont Morgan's collies," said a Russian, "what do you think of a man who owns 35,000 sheep dogs?"
"Impossible."
"No, no. The man I refer to is Gustav Jovanovitch, the Russian mutton king. Jovanovitch's sheep whiten the Siberian plains for hundreds of square miles. They number 1,750,000, and 35,000 dogs look after them. You talk of your mammoth American business enterprises, but have you anything to compare with one employing 35,000 dogs?"

When the Stomach, Heart, or Kidney nerves get weak, then these organs always fail. Don't drug the Stomach nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to Druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample test sent on request by Dr. Shoop, Racine, Wis. Your health is surely worth this simple test. Penny's Drug Store.

A benedict out in Dubuque
One day made a terrible fluke;
He was kissing the cook
When his wife chanced to look—
He's in bed since he got the rebuke.

The finest Coffee Substitute ever made, has recently been produced by Dr. Shoop, of Racine Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute" says the doctor. "Health Coffee" is really the closest Coffee Imitation ever yet produced. Not a grain of real Coffee in it either. Health Coffee Imitation is made from pure toasted cereals or grains, with malt, nuts, etc. Really it would fool an expert—were he to unknowingly drink it for Coffee. Penny's Drug Store.

Mrs. Knicker—Have you noticed that hard times have made servants any more reasonable?

Mrs. Bocker—Yes, Bridget has allowed us to take one of our children out of the asylum.

Simple Remedy for La Grippe.

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes, G. L. Penny.

The average yield of wheat in India is officially stated to be about 1 1/2 bushels per acre.

Something About the Lawton Section of Oklahoma.

I have forgotten whether my subscription to the cheapest and best has been paid or not, but for fear it has not I enclose a check for \$1 to pay for it one year, as I don't want to miss a single number. As I have not written you for a long time I will write now a little of what I know about this country. You know of course, that we are now a State instead of a territory and our Legislature is in session, making laws to govern our State. The State started out in the good old democratic column and if the party makes good the pledges made during the campaign I think there is no danger of the republicans taking the reins of government from us. We started in with State-wide prohibition and the boot-leggers are giving our officers a lot of trouble but they get the hot end of the poker when they do get caught. We had 25 saloons in Lawton but they all closed promptly at midnight on Nov. 16, and since then we have not had one-third as many arrests for crimes as before.

Last year was a hard year for the farmer in this country. The late Spring kept us from plowing or planting; then we had so much rain that we could not plow or plant. The green bug destroyed nearly all the oats and wheat and the ground had to be planted in cotton, which made a large per cent. of it so late that the frost caught it. But in spite of all this it has been a grand sight to a man from Kentucky to see from 50 to 100 wagon loads or bales of cotton coming into town almost every day from October until Christmas. I have seen over 100 bales of cotton on the streets in one day and it brought all the way from \$50 to \$72 per bale, according to size and quality. Our county raised plenty of corn, Kaffir corn, milo, maize, prairie hay and alfalfa to do us, and quite a little to spare and we have fattened and shipped a great many hogs and cattle to Kansas City and Fort Worth.

The financial panic scared our people considerably and just at the beginning two banks failing in our county, one in our town, did not help to quiet their fears, but this has all blown over, one bank is doing business again, the other one (whose cashier committed suicide) is in the hands of a receiver and will nearly, if not quite pay its depositors in full. The panic has tended to lower prices on farms and city property and every day the trains bring in home-seekers and the county is filling up with a splendid class of people from all over the United States. There are about 150 or perhaps 200 Kentuckians in this county. We all like this country but I want to say right here that it is not like old Kentucky. There is no place that looks as good to me as my old Kentucky home. There is a better chance here for young people to make a start in the world than in any of the older States. It takes both brain and muscle to win and one boy or girl has just as much chance as another, provided they have the back bone to push and go ahead and try to get there.

We have splendid schools here and the teachers get fairly good salaries—\$55 to \$100 in the city schools and from \$35 to \$65 in the country schools. The teachers are graded both in certificates and salaries on the experience they have had in teaching as well as their examinations. For instance, an applicant for a certificate may get an average of 90 per cent. but if he has never taught he only gets a third class certificate. The next year he can get a second-class certificate and so on, but he must continue to teach and to attend the Normal held in each county every year.

Well, I guess you will be tired of this letter so I will close by saying if there is any part of this you may wish to use, do so. With best wishes for the old, reliable INTERIOR JOURNAL, the good people of Stanford and Lincoln county, and in fact the grand old Commonwealth of Kentucky, I am very truly yours,
W. R. DENHAM.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation even to very young babies. The wholesome green leaves and tender stems of a lunghealing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Always, demand Dr. Shoop's Bough Bure. Penny's Drug Store.
