## Wet or Dry.

In spite of the lesson of the last State election in Kentucky the question of "Wet or Dry" still seems to be an active force in Kentucky politics, fraught with the same danger to party success and carrying with it more bitterness and more distinctively drawn lines than between Democracy and Republicanism. In Marion county in the nomination of county officers in the Democratic primary, according to the reports sent out from Lebanon, the line up was between those who favor the saloon and those opposed to it and the result was heralded as a "wet" victory. In Warren county, where a primary election was held by the Democrats last Saturday the same issue was forced to the front and Mr. Dehardt, the "dry" candidate for county judge, was nominated by a handsome majority. In other counties the same question is likely to cut a big figure in the nomination of county officers. In nearly every instance this fight is being made in counties that are "dry" and they seem to be made without a sufficient consideration of the final election next November. Where the "wets" win in the primary there is a likelihood of the ticket being defeated by the temperance people voting for the Republicans and where the dries win the nomination they are in danger of the same fate by the wets voting with the Republicans. Both sides are fooling with fire unless they propose to make the temperance question instead of politics the determining matter in the selection of county officers.—Elizabethtown News.

## A Religious Author's Statement.

For several years I was afflicted with kidney trouble and last Winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. New Stanford Drug Co.

Rigney, being told before they started across that it would be 16 minutes before the train was due. They thought they could get across. No. 2 being ahead of time caught them before they got across. Mrs. Rigney got out on the side of track and saved her life by a close call. Miss Addie, thinking she could get to the end of trestle by running, started to run but was caught at the end of trestle by getting her foot fast. She was a good girl and loved by all who knew her. An anti-saloon meeting in Versailles, the Woodford Sun reports Rev. Jos. Severance as saying that nine out of every 10 in the penitentiary laid the blame of their downfall on the liquor business. Curt Jett, the Breathitt county murderer, had told him a few days ago, he said, that if it had not been for whisky drinking he (Jett) would in all probability be a free man and an honorable citizen to-day. Recently Mr. Severance asked an audience of 700 convicts how many, if they were out, would vote to close the saloons. All stood up. He then asked how many were in favor of open saloons and not one stood up. They all either told the truth, said Mr. Severance, or, if they were in favor of saloons, they were ashamed to acknowledge it. Mr. Severance, in conclusion, made a plea for the protection of the girls. They need it far more than the boys, said he. A drunken son is bad enough, but a drunken son-in-law is worse.
