Bobbitt on Automobiles.

CRAB ORCHARD, Sept. 11.—I have been intending for weeks to write a few lines for the columns of your paper against the great murderous juggernaut, more cruel and remorseless than that of the Hindoos, because the Hindoos thought in prostrating themselves before its murderous wheels that they were serving their god and would be in paradise in a few moments. The monster and instrument of death to which I refer is the automobile. In the last seven months in the State of Kentucky it has killed 51 and wounded 1,018. At the races at Indianapolis the automobiles killed nine people. There is scarcely a daily paper that does not record one or more casualties of this ruthless monster. About 250 shops in this country are turning them out by the thousands. The Pennsylvania Central railroad has had to add hundreds of freight cars to its road in order to deliver the death-dealing monsters to all parts of the country. No man, nor no man's wife and little children are safe on the public highway. No man, no woman, no family with wife and little children are now safe on the public highway with the old family horse in the rack-away, going to church or Sunday school or common school. A man and his wife and four children coming to the Crab Orchard Association recently had their horse so badly frightened by one of these monsters that he threw the children out of the wagon and all barely escaped death. Several ladies were afraid to go to the Somerset fair in vehicles, being apprehensive of meeting or being overtaken by an automobile. The threshing machine is quite necessary to the farmer to thresh his wheat, and yet when the traction engine appears on the highway the law compels them to send a warning agent ahead to warn the people that it is approaching. The running of this car upon the highway is unconstitutional. It infringes upon personal safety and private property. The greatest of all security is to be secure in mind, that your wife and children will get home safe from church, school or town. They should be banished from the highway by a prohibitory act of the Legislature. The safety of yourself and family demands it.

Snake In Bed.

Several days ago Mrs. William McFatrige discovered an uninvited and unwelcome guest in her bed room. She arose in the morning and turned back the covers of the bed until she was ready to make it up. When she returned to the room after breakfast she discovered a large snake curled snugly up on the bed, and as sound asleep as if he was sunning on his own familiar rocks. Though terribly frightened Mrs. McFatrige did not lose her presence of mind. She bravely dispatched the reptile and set about trying to discover how he could have gained an entrance into the room. The only possible solution was that the reptile was a "porch climber" and had mounted up some thick vines that covered the porch. She thinks the snake must have been curled up on the top of the covers of the bed all night, attracted there by the warmth from their bodies and that she did not notice him when she threw back the bed clothes on arising, as it was very early in the morning.—Harrodsburg Herald.

Night On Bald Mountain.

On a lonely night Alex. Benton of Fort Edwards, N. Y., climbed Bald Mountain to the home of a neighbor, tortured by Asthma, bent on curing him with Dr. King's New Discovery, that had cured himself of asthma. This wonderful medicine soon relieved and quickly cured his neighbor. Later it cured his son's wife of a severe lung trouble. Millions believe its the greatest Throat and Lung cure on earth. Coughs, Colds, Croup, Hemorrhages and Sore Throats are surely cured by it. Best for Hay Fever, Grip and Whooping Cough. 50c and \$1. Trial bottle free. Guaranteed by Penny's Drug Store.

When Sampson was claiming everything at Santiago, grand old Admiral Schley said, "There is glory enough for all." When told that Peary was denying his claim to the discovery of the North Pole, Cook said, "The pole is good enough for two." It to be hoped that he had as good confidence for his remark as the gallant old admiral.—Lexington Gazette.

A Hurry Up Call.

Quick! Mr. Druggist—Quick!—A box of Bucklen's Arnica Salve—Here's a quarter—For the love of Moses, hurry! Baby's burned himself, terribly—Johnnie cut his foot with the axe—Mamie's scalded—Pa can't walk from piles—Billie has boils—and my corns ache. She got it and soon cured all the family. It's the greatest healer on earth. Sold by Penny's Drug Store.

Wayman was restrained from prosecuting such suits.

The funeral of E. H. Harriman took place Sunday afternoon from St. John's Episcopal church at Arden. Only relatives and personal friends attended the services. The burial was at Arden in a grave blasted from solid rock. The active pall bearers were employes of the Harriman estate. No statement was given out as to Mr. Harriman's death. Judge Lovett refused to discuss the question of Mr. Harriman's successor. The flag on the New York Stock Exchange was placed at half-mast as a tribute to Mr. Harriman.
