### LESS THAN HALF MILLION

Was Appropriated at Last Session of The Legislature.

(Frankfort News-Journal)

Less than half a million dollars was actually appropriated by the Legislature of 1912, this not including bills which will increase the expenses of the State government by such items as Confederate pensions and increase in the per capita of the State Asylums for the insane the feeble-minded and the school for the deaf. The amount actually appropriated, directly, is \$484,964, available at once. It is impossible even to estimate how much the pensions for Confederates will cost the State, the Governor estimating \$50,000 and others estimate it at \$300,000.

Three bills which create new offices will cost the State nothing. The banking department will be paid for by assessment of the State banks and no money will be taken out of the treasury for this purpose. The same is true of the Fish and Game Commission, which will be supported by money paid as license by hunters. The new insurance department will also cost the State nothing, as the insurance companies will have to pay the whole cost and there probably will be a surplus to be put into the treasury.

## LOST APPETITE AND HOPE

Neglected Cold Caused Complication, Promptly Restored by Peruna.

Mrs. Rosa Boyer, 1421 Sherman Ave., Evanston, Ill., writes: "If any one has reason to praise Peruna it is surely myself. 'Last spring I became so run down from the serious effects of a lingering cold, that several complications united in pulling me down. I could neither eat nor sleep well, and lost flesh and spirit. I finally tried Peruna and it did wonders for me. In two weeks I was like another person, and in a month I felt better than I ever had before. I thank Peruna for new life and strength. I send you two pictures, so you can see what Peruna has done for me.'"

They go to him to settle all arguments and disputes and to be informed on different difficult questions, so he is termed a useful man among men. He is also a good joker. He tells the following: He said once that he attended a Methodist love feast and experience meeting. After several had given in their different experiences there was silence on this solemn occasion for a few minutes. To break the monotony, an ugly, hair-lipped man arose and said "Brothers and sisters, you can see better than I can tell you what the good Lord has done for me. He has ruined me for life. But I am very thankful to be a living, if I am a curiosity of natural history".

Miss Elizabeth Peckins, the daughter of Mr. and Mrs. M. M. Perkins, their first born, was four years old the other day and has mother gave her five dollars in gold for a birthday present. She thanked her very kindly and told her Ma that she wanted to place it in the bank and get a bank book like her Pa had. Her mother agreed for her to do so, so this bright child went all alone and deposited it in the bank, bringing back her great desire, a bank book with her deposit credited in it. No doubt but what little Elizabeth is one of the youngest bank depositors in the state. It would be wise for others to go by this little child's example.

### INFORMATION WANTED

Concerning Marshall Family in Lincoln By Missourian

Mr W. M. Paxton, of Platte City, Missouri, who wrote a history of the Marshall family, and is now preparing a supplement to that work, writes that Markham Marshall, a brother of John Marshall the first Chief Justice of the Supreme Court, in this county at an early date and desires to know if local records throw any light on the question of his posterity.

The county court records disclose the fact that his will was probated here July 11, 1893, James Alcorn and George Helm being the witnesses, and the following children are mentioned in the will: Mary Powell, Ann Green, Elizabeth Montgomery and Jane, Charles, James, John, William, and Bailey Marshall. While all knew that many great men have been citizens of Lincoln county, few knew before that a brother of the famous jurist was one of them. If any of the older citizens know anything of the above named children of their descendants, they will confer a favor on Mr. Paxton by writing him the information.

### STANFORD MAY GET LOOSE LEAF MARKET

Burley Tobacco Society Preparing To Open Big Warehouses And Local Men Want One

Why not go after one of the Burley Tobacco Society's loose leaf sales warehouses for Stanford?

So far as known in its campaign to handle the burley tobacco crop of Kentucky, the Burley Society is making little preparations to secure the crop south of the Kentucky river, and tobacco men in a position to know, say that Stanford will prove an ideal location for such a warehouse being in the center of the burley belt below the river, affording splendid shipping facilities.

Dispatches from Lexington say that with the success of the ten-year pooling plan assured, the Burley Society is now preparing to establish loose leaf markets in Flemingsburg, Maysville, Augusta, Falmouth, Brookville, Carlisle, Nicholasville, and other points in addition to the society's loose leaf market in nine other towns in Central Kentucky. None of these places is suitable located to handle the south of the river crop, so that Stanford stands an excellent location to secure such a warehouse those in a position to know say.

It is said that a delegation of local men will go to Lexington in a few days for the purpose of conferring with President LeBus concerning such a warehouse.

Dispatches from Lexington tell of the Society's plans for the big sales warehouses which the society will open at Lexington, in connection with the big factory to be built.

President LeBus' idea of a modern loose leaf warehouse or market is one that will be able to sell from one to five million pounds of tobacco a day. His idea further is to have such a warehouse constructed that sales may be held in one division one day and another division the next so that the clearing-out process of the tobacco sold will not delay the market as it does at present. With adequate facilities he believes Lexington will be able to keep four or five sets of buyers busy and at the same time there will be plenty of business for out-of-town loose leaf warehouse.

A normal crop of Burley tobacco in Kentucky is said to be about 200,000,000 pounds a year. Last year Lexington sold 65,000,000 pounds through its present loose-leaf warehouses. It is said that Lexington lost the sale of millions of pounds of tobacco which went to other points because there were not facilities at Lexington for hauling. One shipment of several millions pounds is said to have gone to Maysville because the Lexington market was congested. Maysville this year proposes to sell from 25,000,000 to 30,000,000 pounds of tobacco and it has not yet a burley loose leaf warehouse. Carlisle expects to have four loose leaf warehouses.

The State Supreme Court of Washington, reversed Judge Ronald, of Seattle, in the case of G. A. C. Rochester, administrator of the estate of W. C. Bell, against the Seattle, Renton and Southern Interurban railway, and allowed a verdict of \$17,500, awarded by jury, to stand. Judge Ronald had granted a motion for a new trial. Judge Bell, of Harrodsburg wife and little Julia Lee Rochester, eleven years old, daughter of Mr. and Mrs. Rochester of Seattle were three victims of a collision on April 31, 1910. Judge Bell and the little Rochester girl were killed and Mrs. Bell lived only a short time afterward.

(By Will G. McKinney)

Crab Orchard Springs and its healing waters, no doubt have cured and healed as many or more invalids as the Biblical pools of the ancient times, of their many different diseases. Crab Orchard has been almost in total darkness, for these many years. The up-to-date, energetic and enterprising proprietors, Willis and Robinson are building an electric plant and they are going to furnish light for the famous summer resort and also for the town. It will be a great blessing not only for the citizens, but to the many different strangers that come within her gates to be healed.

### ONE ON GEORGE WILLIS

The Washington correspondent, of the Louisville Times, last week printed this one on George Willis, of Shelbyville, the popular Secretary of Congressman Helm:

George L. Willis, who is secretary of the Committee on Expenditures in the War Department, and a highly valued assistant to Chairman Harvey Helm, has his laundry "done separate." For several years a quick-witted Celestial, whose wash-e-washee "joint" is not far from the senate office building, has been receiving only Mr. Willis' collars. Having to pass by the chink's place the other day, while accompanied by some friends, Willis stepped into the laundry to get his collars. While the Chinaman was getting the collars together, Willis in a mock-serious way "roasted" the whole establishment to his friends in a voice sufficiently loud for the several benequened laundrymen to hear.

While Willis was still "complaining" the chief Chinaman appeared with a tiny roll containing the collars. Handing the wee bundle to the customer, the Chinaman inquired: "You was-hee you' own shirts, eh?"

And since then friends have been calling up Willis over the phone.
