### Scrubs Fatten Quickly

You want your pigs to eat as much as possible when you fatten them. Give them a great variety of feed, keep the appetite keen and the digestion in good order, and you will obtain the desired result; especially if you mix with the grain ration a dose of

**Bee Dee STOCK MEDICINE**

Whets the appetite--Helps digestion.

25c, 50c and \$1. per can. At your dealer's.

*I put some scrubbing-hog hogs in the pen to fatten. I used Bee Dee Stock Medicine in their feed. I soon had fine, healthy-looking hogs, which netted me over 500 pounds.*

### Winners on the Track and In the Show Ring Against the Best in the Land

The only real proof of the individuality and soundness of the stallion is the show ring. It gives Melrose Farm great pleasure to again offer the services of the well-known horses, Thistle Doune, winning race record 2:09 1-4 on the grand circuit and winner of the champion roadster stallion class at the Kentucky State Fair, 1913, and Chimewood, 2:10 1-4 considered by many the handsomest trotting stallion in the world, winner of the trotting bred stallion class at the Kentucky State Fair, 1913.

Baldy McGregor 2:06 3-4, who recently sold for \$40,000.00 in Europe and Lassie Mc Gregor, who recently sold for \$10,000.00 in this country, are a brother and sister of Thistle Doune, 2:09 1-4, who is himself the sire of Zulu-ka 2:29 1-4 and Madona Doune (2), 2:26 3-4, and who has a large number of colts in training in the hands of Kentucky's famous reinsman, Ben Kennedy, and it is confidently expected that a number will race to fast records this year.

Chimewood has the distinction of being more sought after by Government Commission than any stallion in America, and they offered the largest price, \$3,000.00 cash, they offered for any stallion, which was refused.

TERMS are Thistle Doune, \$35.00 to insure; Chimewood, \$25.00, to insure. Mares kept on grass at owner's risk.

### Kentucky Gentleman 5167

Kentucky Gentleman has been pronounced by competent judges to be one of the greatest young horses in the state. He is just the right size—15 3-4 hands; weight about 1,150 pounds—He is almost perfect in conformation and his color is ideal, being a dark chestnut with white hind feet and a star and snip. He has a beautiful mane and tail.

Kentucky Gentleman is especially good in the shoulders, withers, back and quarters. He has the best of feet and legs, and is perfectly sound in every way. He is an impressive horse standing still but is more so in motion. Sets himself perfectly and is a true gaited horse; never touches himself anywhere, and has exceptional speed at the rack and trot. Last year with very little handling his trainer stepped him in a quarter in 42 2-48 gait. He has wonderful intelligence and is kind and gentle.

Kentucky Gentleman is a typical Kentucky saddle horse—the kind the whole world loves and admires. His breeding is the very choicest. He is by Chester Peaving 3148, by Rex Peaving 1709, by Rex McDonald 833, by Rex Denmark 840, Dan Flora Carter 8419, by Red Squirrel 53, by Black Squirrel 58, by Black Eagle 74, by King William 67.

This grand young horse has proven himself to be an exceptionally fine breeder, and I offer his services to the public at the very low price of \$2000 to insure a live colt. Money due when colt is foaled or mare parted with.

The best of attention given to mares but not responsible for accidents, should any occur.

Kentucky Gentleman will make the season of 1914 at my place one mile from Stanford on the Danville pike.

### Voltaire

Percheron Society of America

Voltaire is a handsome Percheron stallion, perfect in conformation and weighs about 1900 pounds. He has proven himself to be one of the best breeders in the state. His colts show for themselves. Each man thinks his colt is the best.

He has great action for a big horse; can get up and go like a trotting horse.

The progressive farmers are breeding to draft horses more every year. They realize that little, weak teams cannot do the work as it should be done. Lots of our farms have been ruined by shallow plowing, causing soil to all wash away. But it was the best that could be done with the teams we had. No price we have to pay now for farm laborers and send them to the field to do a day's work with a small team. So to get the best results you have to have improved machinery and a good big team to pull it with. The only way to do this is to raise big horses and Voltaire is the best big horse in the country to breed to for that kind. He has proven it by what he has done.

Your brood mares will not last all ways; are you raising any young ones to take their place? Don't you think now would be a good time to do so, while you have such a horse close to you? Voltaire will make the season of 1914 at my place one mile from Stanford on the Danville pike at \$15.00 to insure a live colt.

### See that joint!

THAT patented joint has revolutionized the whole business of building silos by making it possible to construct a perfectly solid stave silo of any desired height. When put together with a little white lead at these joints, a two-piece stave

## INDIANA SILO

is as good as if it were made of one-piece staves, and very much less expensive. There is no metal at these joints to become corroded by the acids and no outside molasses cans collect in them to rot the wood. The joint adds years to the life of your silo and many dollars to its value.

We have a plan by which you can own an Indiana Silo and let it pay for itself of what it saves for you on next winter's bills. Give us a chance to explain it to you.
