SPLENDID CITIZEN NO MORE

Job J. Thompson Dies At His Home Near Preachersville

A good citizen, a clever gentleman and a honest man was taken from this community when Job J. Thompson's spirit passed into the great beyond at 10 o'clock Saturday morning. He was well known all over this section but in his neighborhood around Preachersville, he was known best and that he was admired most. Truly can it be said of him that to know him was to like him. He was honorable in his dealings, did right as he saw right, and the few errors that he made, if indeed he made any, were of the head and not of the heart. Any community is blessed by having such a man in it, and today there is regret in his section of the county such as probably the death of no other man would have caused.

Mr. Thompson was 62 years old and came to Preachersville from Rockcastle some twenty years ago. An industrious worker and a man of good judgment, he made good from the start, and besides rearing a large family, he acquired a considerable estate. He is survived by his widow, who was a daughter of the late H. H. Baker, of Rockcastle, and the following children: James H. Thompson, of this county, John Frank Thompson, of Garrard, Logan Thompson, of Lincoln, Mrs. Hayden Leavelle of Garrard, Mrs. Soph Morgan, of Garrard, Phil B. Thompson, of Lincoln, Prewitt Thompson, of Garrard, and Charley Thompson, of Mt. Vernon. Four children preceded the father to the grave. Two brothers, A. J. Thompson, of Boyle and F. L. Thompson, of Rockcastle, also survive.

Uraemic poison was the direct cause of Mr. Thompson's death, but he had been in feeble health for some years. He was a member of the Baptist church and gave of his time and means to the furtherance of the church and to other good causes. Several years ago the deceased told his nephew, Dr. E. J. Brown, of this city, who was his physician, that he wanted Mr. J. C. McClary, of Stanford, to make a talk at his home before his burial. He had seen the J. C. McClary conduct services over the remains of a relative and was so impressed with the simplicity of it that he wanted just such a funeral. His wishes were carried out, and at two o'clock Saturday afternoon a great throng of neighbors and friends, Mr. McClary complied with the request and did it well. The burial followed in the Lancaster cemetery. A good man has gone to his rest and his memory will be emulated and the world better by it.

BUSINESS GETTING BETTER

Says Jim Menefee, Who Talks of Its Effects on Paint Trade

James T. Menefee son of Mr. and Mrs. John N. Menefee, is here this week, visiting the home folks and incidentally selling and talking Forest City Paint for which he recently accepted the agency and which he has put on the paint map in this part of the State. In speaking to the I. J. about business conditions and especially as they affect the paint industry, he said: "The weather has been ideal for all outdoor work and judging from the great activity on the farms there will be a bumper crop. The bumper crop this fall to export to our neighbors across the sea who are spending their money, time and energy in an attempt to annihilate one another. Business conditions all over the south are improving daily in every line. There has been a wonderful improvement in the coal, cotton and hard lumber markets during the past thirty days. Collections are much easier, thanks to the splendid new currency law.

"Many new enterprises are being started and naturally new buildings are being erected, which means that where the paint and varnish man comes in for his share of the business. An improved paint and varnish trade is one of the surest signs in the world of returning prosperity. To be sure there is always more or less of a lull in our business at this particular season of the year, but the season alone is not responsible for the marked improvement in business which has been so great as to keep the Forest City Paint and Varnish Company running night and day for the past six weeks. One important factor in the improvement of our particular business is that we have been in close touch with Mr. Henry Gardner of the United States Bureau of Industrial Research, who several years ago was made an expert by the government to make an extensive study of the paint industry, and to shed light upon this hitherto perplexing proposition. Mr. Gardner carried on actual time tests at numerous points throughout the country, and when he reported to the government the results of his long and tedious work, my company always on the alert and with a sincere desire to give the public the very best that the market affords in paint and varnishes, immediately decided to manufacture Time Test Best Paint on the same formula that the government expert found so far superior to all other paints. In fact we have so much confidence in this line of goods that each package bears our qualified guarantee that this paint will wear longer and give better results generally than other paints of pure white lead and linseed oil, otherwise we will furnish without cost sufficient paint to repaint buildings. We mean to live up to that guarantee if it takes the roof off the factory, and I have today so instructed our bustling local agent, W. K. Shugart."

Sick Headache. Mrs. A. L. Luckie, East Rochester, N. Y., was a victim of sick headache and despondency, caused by a badly weakened and debilitated condition of her stomach, when she began taking Chamberlain's Tablets. She says, "I found them pleasant to take, also mild and effective. In a few weeks' time I was restored to my former good health." For sale by all dealers.

Casey's roads are in good condition and her crops are fine. The drought has not been as severe there as in Lincoln and the lands seem to stand dry weather better. An unusually large acreage of corn is being put in and considerable tobacco will be set, notwithstanding the low prices of the present. Charley Carson, who was born and reared in Stanford, continues his home at Liberty and is doing well. For nine years he has been H. W. Phillips' right hand bower and the two make a hustling team. Lincoln county people should remember their old countyman, J. S. Reid, when they go to Liberty. He conducts the barber shop in the brick hotel and is well prepared to attend to wants in his line. Two "bootleggers" were arrested and placed in jail. They were caught in the act of selling booze and as the grand jury is in session they will get tines in the next few days. It is a dangerous thing to peddle whisky in this county.

CIRCUIT COURT IN CASEY

J. J. Man Visits Liberty Monday and is Impressed by Its Prosperity.

Circuit court convened at Liberty yesterday and a good crowd was in attendance. The rain of the night before has put the farmers in good spirits and they were willing to take a day off and spend it at the county seat, swapping stories and an occasional horse race. At 10 o'clock Judge Carter opened court, and after empaneling the grand jury, delivered his charge to the jury. Each told his "tale of woe" and got his share of applause from the republicans of the good county of Casey.

Judge Carter, who is from Monroe county, is a candidate to succeed himself and the knowing ones say he will do so, although George Miller, also of Monroe, and Lilburn Phelps, of Russell, both think they have a cinch on the office. Each told his "tale of woe" and got his share of applause from the republicans of the good county of Casey.

A. A. Huddleston, of Cumberland, who is the present Commonwealth's Attorney, is a candidate for re-election and is opposed by Mr. Smith, of Monroe. The wise ones say that unless there are other entries Mr. Huddleston will get the coveted plum again. There are three candidates for the republican nomination for circuit clerk of Casey and they are, present incumbent F. A. Land, Lincoln Wells, of Casey, and J. J. Phillips, of the latter is a brother-in-law of Edgar Wilkinson, of this city, but is no relation from a political standpoint.

Some half a dozen republicans want to represent Casey and Russell in the Legislature. Ed Pelly, who has been in the Legislature, is one of them; Judge Telford, former county judge, is a receptive candidate, while Charles Fair, James Walls, a Baptist preacher named Hackett, and others make up the field. Stripped of Federal pie, the "rads" of Casey are hungry and the goods will be full of candidates before the August primary rolls around. The yearly horse show was a tame affair; only three animals exhibited. Candiff & Brown showed Alderman, a splendid coach stallion, and a good jack, and W. C. Candiff, a "cracker-jack" jack, which was the extent of the show.

The decker for the present term, while not heavy, has some important cases. There is one murder case—that on one Pemberton for killing his wife. The killing occurred last winter and the prisoner was been in jail since. He will likely be tried this term. Pemberton got infuriated because his wife went to a dance and going to the dance hall, stabbed her from the effects of which she died in a few days. He also severely cut the man she was dancing with. Court will last two weeks and it is believed that every day of the term will be needed to clear up the dock. Few visiting attorneys were present at the opening, the clients seemingly preferring their home lawyers to those from a distance.

Casey has more corn in the various crops of the county than any county of its size and population in the State. The Green River basin leads the world for King Corn and the thrifty farmers grow it extensively. A gentleman told the writer that many of the farmers had from 400 to 600 barrels of the best grade in their barns, while many others are selling at \$3 per barrel.

Liberty has greatly improved since the I. J. came there last year. An immense brick hotel has taken the place of the old Whipp hostelry. Brick business houses have been built, handsome modern homes have been added and everything looks prosperous in the capital of the good State of Casey. By the way, the Ford might take a lesson from Liberty in the electric light line. Her citizens enjoy a 24-hour service of the "juice" while we have to content ourselves on 12 hours and frequently less. Many concerns use "juice" for power, something Stanford people would be more than willing to do and pay good prices for the privilege.

His friends in this county will be glad to hear that Jesse Huston, formerly of Hustonville, is doing well in the mercantile business in his adopted home. He has a good general merchandise store and is doing an excellent business. "Jesse" married a Miss Brown, of Casey, and his wife assists him in the store.

Senator Chas. Montgomery has recently built and moved into a handsome brick law office and he has it furnished like a palace. Law books by the hundreds fill the shelves and he has all the other equipment necessary to make his office complete. He is getting a big practice and is probably the most popular man in the county. Casey's roads are in good condition and her crops are fine. The drought has not been as severe there as in Lincoln and the lands seem to stand dry weather better. An unusually large acreage of corn is being put in and considerable tobacco will be set, notwithstanding the low prices of the present. NEGRO ESCAPES FROM JAIL

Charley Armstrong Takes Jailer DeBorde By Surprise Saturday

Charley Armstrong a West End negro, who was confined in the Lincoln county jail here to await the action of the grand jury on a house-breaking charge, made his escape in a spectacular way early Saturday morning as Jailer George DeBorde unlocked the cages in which the prisoners are confined at night. Jailer DeBorde, who was without his head, happened, was knocked almost flat by the negro jumping against the cage door, just as the jailer turned the lock. The negro then sprang for the office door and made his getaway out of it in a jiffy. Mr. DeBorde had quickly recovered himself, although the negro knocked the breath out of him with the heavy door, and threw the heavy lock at him striking him on the shoulder. The jailer then ran for his gun, but the negro made a bee line for Macksville and did not stop when Mr. DeBorde shot over his head to scare him. The jailer then took up the pursuit but the prisoner had managed to hide in some of the negro houses in Macksville and no one would tell on him. It is believed that by now he has managed to make a profitable recovery himself, although the negro knocked the breath out of him with the heavy door, and threw the heavy lock at him striking him on the shoulder.
