METEOR SEEN AT AN EARLY HOUR

Lights Up Sky As It Flashes Across Heavens About Dawn Wednesday—Many Saw It

The meteor which flashed across the sky at an early hour Wednesday morning was plainly seen by a number of Lincoln county people who happened to be up as early as half past five o'clock. The first to make report to the I. J. was Councilman E. L. Reinhart, who saw it as he was delivering the morning papers on Danville avenue. He said that it lighted up the heavens as it soared from northeast to northwest. Mr. Reinhart says that Doc Huffman and his brothers on Danville pike saw it and thought a German airship was dropping a bomb. Will Chancellor, on the Crab Orchard pike, saw it and believed that it struck the earth a short distance from his home.

A man near H. K. Codey in Scott county, claims to have discovered part of the meteor in a ravine near his farm. Dispatches from Cincinnati say that it was vividly seen in that section and that a loud explosion was heard soon after the meteor appeared to strike the ground.

Quite a number of superstitious and ignorant thought that the end of the world was at hand. A great many people everywhere saw the uncanny visitor and it was generally recognized as a common phenomenon and regarded with curiosity rather than fear. The Weather Bureau at Louisville made the following statement about the matter:

"More or less, all space is filled with material thrown off by stars and other bodies. When particles of this material reach our atmosphere they burn with light more or less brilliant and are thus called to our notice. They are composed of matter of the same kinds found in our earth which becomes fused in our atmosphere and a preponderance of magnetic iron usually is left.

"The bodies may be of trifling size or as large as a table, a desk or half a house. The one that caused such excitement Wednesday morning probably came pretty close to us from what I have heard of its brilliancy, and maybe struck somewhere within a radius of 50 miles of Louisville—but that is a pretty big area in which to find things even as big as a house. Meteors are flying through space all the time, but only when they reach our atmosphere and burn are we aware of them."

OVERTURNED IN BUGGY.

David Rankin, Frank Higgins and Ben Dunn, of the Marksburg section of Garrard, while returning home on a dark night last week, drove over a high embankment and turned their buggy over. The horse ran away and the occupants were dragged some distance before he could be stopped. Luckily they were only slightly hurt and the buggy was not damaged.

RE-ELECTED CHIEF OF POLICE

B. D. Carter.

Chief Carter, who has just been re-elected for another term by the Stanford City Council, is one of the best known peace officers up in this end of the state. He has made a splendid record since being at the head of Stanford's police department being fearless in the performance of his duty and a tireless worker. Chief Carter fills well a place that is one of the hardest in the world in which to please everyone, and the longer he is in office the more friends and admirers he makes. He is just now barely able to be out after a serious fall while leading the fight to save the home of a well known citizen from destruction by fire a few nights ago. There's nothing the Chief will not do to help a friend, and this fact that he can always be relied on, is one of the reasons for his popularity.

HIGH AVERAGES THIS WEEK

Tobacco Continues To Sell at Top Figures On Danville Breaks

Tobacco which has been steadily going up since the first of the year, took another upward bound this week and numerous high averages were recorded at the Danville markets. Over 100,000 pounds were on sale at the two warehouses and there were no rejections. On the Danville breaks every leading buyer in the United States, including many independents, are buying constantly. Tobacco men in Lincoln, Boyle, Garrard and Mercer counties who have succeeded in buying some crops in the barns have brought them to Danville, and in some instances doubled their money. This is a warning to growers not to sell their tobacco in the barn, as the man by whose toll it is grown should get its full worth and this can be gotten only in one way, and that on the loose leaf floor. The floor average for 110,000 pounds was the record, 13 cents.

Yandell & Trisler, of Boyle county, Thursday morning, received an average of \$22.55 per hundred for their crop; an Anderson county man got an average of \$27.86 for his offering; E. E. Milton, of Anderson county, received an average of \$18.58 a hundred and there were many others with equally as successful averages. The high prices being received at Danville are attracting crops from all the surrounding country. Buyers can pay higher prices in Danville on account of the splendid shipping facilities. QUIZZING BANKRUPT SANDERS

A meeting of the creditors of L. L. Sanders, bankrupt, of Crab Orchard, was held before Referee in Bankruptcy Nelson D. Rodes, of Danville, here Wednesday afternoon. Mr. Sanders was placed on the stand and was put through a vigorous examination by Attorneys John Sam Owsley, of this city, and John W. Brown, of Mt. Vernon, representing several of the largest creditors. The bankrupt merchant was quizzed particularly concerning notes given by him to his brothers and relatives and which he had not listed among his schedule of liabilities, and which, also he is alleged to have failed to list as owing by him in making a statement to Dunn and Bradstreet, and also in statement of his business assets and liabilities given certain wholesale houses when obtaining goods from them on credit. Attorney Brown asked Sanders if it was not a fact that these notes had been made out to his relatives since he had taken the bankrupt law, but Mr. Sanders vigorously denied this.

AFTER AUTOISTS IN DANVILLE

Several Stanford autoists who so far have failed to obtain their 1916 licenses, caught it heavy in Danville this week, when they were arrested by Chief of Police George T. Thurmond and assistant A. C. Alford. The number included the colored driver for Phillips Bros., who was piloting the big motor truck of J. H. Baughman & Co., of this city. Licenses for this machine had arrived but had not been put on so the case was continued. O. L. Minks, who runs the auto line between Danville and this city, was arrested when he had his new licenses in the car but had not stopped to put them on. He says he ordered them from Frankfort on Dec. 29 but they did not arrive until Jan. 10th, and he was arrested as he got them from the postoffice. He will fight the case. A large number of fines are being paid and all motorists are being warned to get their new tags before they go to Danville.

GETS A GOOD JOB IN FLORIDA

Mr. I. M. Bruce left Wednesday for Florida, where he has secured a good position in the supervising department of the Dixie Highway construction work which is soon to be started there. Mr. Bruce's headquarters will be at Mt. Dora, where Mr. and Mrs. James R. Beazley are making their home. So he will have pleasant surroundings and home-like company while he is there. Mr. Bruce has had considerable experience in road construction work in Kentucky and should have no trouble in making good in the Sunshine State. Florida is about to spend a world of money in improving her road system. The chief cities of the state are engaged in advertising Florida as a place for investors as well as winter tourists and the country there seems to be booming on a basis that will insure permanency.

M'GUFFIE SQUARES THINGS

W. E. McGuffie, of Waynesburg, returned from Lexington last week where the charges against him of giving checks when he had no funds to meet them, were dismissed. Mr. McGuffie has made full reparation to all concerned in the matter. He was here Monday and said that he has secured sufficient funds to pay every dollar he owes and will do so as fast as he can. He and his family are preparing to go to Michigan soon to make their home. Mr. McGuffie has secured a good position there, and his friends here hope that he will make good. He has showed that he desires to do the right thing with those to whom he was indebted.

VACANCY ON SCHOOL BOARD

The election of Dr. W. B. O'Bannon as a member of the Stanford City Council, causes a vacancy on the local Board of Education, which must be filled by the other members of the board until the time for a regular election rolls around in May. Dr. O'Bannon has been an honored and efficient member of the school board for a number of years and the members are weighing a number of names carefully in order to obtain a man to fill the vacancy who will give the same careful consideration to local school matters and interests that Dr. O'Bannon has done.

My wife and I also use it and will say it is the best cure for a bad cold, cough, throat trouble and croup that I ever saw. Sold everywhere.

COMMITTEE ASSIGNMENTS

Of Senator Montgomery and Representative Gooch Good Ones—Gossip from the Legislature

Representative W. G. Gooch, of Lincoln county, and Senator Charles Montgomery, of Liberty, representing this district in the upper house of the legislature, were both given good committee assignments by the presiding officers of the two houses. Mr. Gooch was made chairman of the Committee on Public Monuments and Historical Records, while Senator Montgomery is chairman of the committee on Penal and Reformatory Institutions, an important body which will hear any matters affecting the state penitentiaries or reform school. Senator Montgomery's other committees are: Appropriations, Constitutional Amendments, Game, Fish and Forestry, Common Carriers and Commerce.

In addition to his chairmanship, Representative Gooch was placed on

Representative W. G. Gooch

the committees on Agriculture, Cities of the Fourth Class, Public Bridges, Immigration and Labor, State Capitol, working on all of which will keep Mr. Gooch rather busy.

Representative H. Clay Kauffman, of Garrard, was given the chairmanship of a very important committee, that of Kentucky Statutes. His other committees are Court of Appeals, Circuit Courts, Codes of Practice, Judiciary, Representative Claude Minor, of Boyle county, was given the important post of Chairman of the Committee on Appropriations, and will be "watchdog of the treasury" as far as the house is concerned. Mr. Minor's other committees are: Banks and Banking, Cities of the Fifth and Sixth classes, Public Utilities, Revenue and Taxation.

Among the first bills to be introduced were bills to submit a vote on state-wide prohibition to the people of the state. The bill was introduced in the senate by Senator W. A. Frost of Graves county and in the house by Representative L. B. Hamilton, of Franklin county. It is a rather strange irony of fate that the representative from the county in which Col. E. H. Taylor, the world famous distiller lives, should offer a bill for state-wide prohibition. The secret of the matter is, however, that Col. Taylor and his political henchmen were so busy trying to carry Franklin county for Stanley in the governor's race that they inadvertently let a state-wide candidate for the legislature win. Both of these bills will be against the hardest kind of sledding at this session. The house put into effect a set of gag rules, requiring a two-thirds vote of the members to suspend the rules, while the last house only required a majority vote. This rule was put on to make it all the harder for any sort of anti-liquor legislation to see the light of day. A lot of mighty good men were persuaded to vote for the rule for some reason or other. Representative L. Merriwether Smith, of Mercer county, was one of the few who saw the "nigger in the woodpile" and made a fight against such a gag rule, but he lost out as the cards were stacked. The state senate has asked the attorney general's office for a statement regarding the suit to recover \$62,988 from the State Board of Health, alleged to have been illegally spent.
