

WILSON AND MARSHALL

Renominated By Democrats Amid Scenes of Great Enthusiasm At St. Louis Convention

St. Louis, Mo., June 16.—President Wilson and Vice President Marshall were nominated by acclamation Thursday night by the Democratic national convention.

William Jennings Bryan, by the vote of two-thirds of the delegates addressed the convention when it reconvened for the night session Thursday.

A great ovation was given Senator Ollie James during his address to the delegates as permanent chairman of the convention.

The draft of the platform is about 4,000 words in length and includes plank on Americanism, preparedness and woman's suffrage.

Strangely enough the portion of the Glenn message which pleased the audience most and the words of deepest interest were a seemingly dry recital of history.

For length of demonstrations other conventions have far surpassed the one on which mingled emotions played.

Then with studied emphasis, Gov. Glenn said: "The fate of the fathers of our country at the hands of the noisy minority is the fate of the president of the United States today."

The effect was electrical. The speaker had anticipated the outbreak and raised his hand to stop what he thought was a passing bit of applause.

Covering every administration from Washington to Harrison in which negotiation had avoided war, the Chairman argued that the Republicans must desert their leaders and read them out of the party.

Asher, County Judge, the Court of Appeals this week directed the court to shelve the amount of road bonds so much of a road bond issue of \$150,000, authorized by an election in May, as would in addition to a \$250,000 issue authorized in 1915, exceed the amount which the authorized tax levy of 20 cents could retire by the time the bonds mature.

The court said the amount of road bonds, which may be issued under section 157-A, of the constitution, must not exceed the amount which can be realized by the maturity of the bonds from the 20-cent tax levied to retire them and pay the interest.

FINE PROGRAM IS PROVIDED

For Chautauqua Next Week Says Alkalest Advance Man—Others Testify to Merit.

T. S. Memory, advance man for the Alkalest Chautauqua Bureau, was in Stanford this week, conferring with the members of the Woman's Club, and completing final arrangements for the opening of the Chautauqua here next Wednesday.

Mr. Memory went over the entire program with the ladies who have affairs in charge, and gave them assurance that they will be provided with an entertainment which will please everyone.

A Children's Chautauqua parade has been arranged for one of the opening boosting events for next week, and will be held Saturday afternoon, beginning at 3 o'clock.

Masks and caps have been secured and will be provided for all the little ones who will take part in the parade. They are requested to meet at the court house at three o'clock.

Cecil Williams, former Editor of the Somerset Times, who passed thru Stanford from Mt. Vernon to Somerset Thursday, said that Somerset had used the Alkalest Chautauqua for two seasons and that the people there were delighted with it, and would have it again this season.

Rev. J. H. Pence, of Clayton, Ill., who is here on a visit to his father, Elisha Pence, near Rowland, saw the program which will be given next week and was loud in his praise of Judge Alden, who lectures here.

He said: "Every man, woman and child in this section should hear Judge Alden. We had him at our Chautauqua last year and he pleased and delighted everybody. He is a treat from beginning to end, and it is worth the price of a season ticket to hear him alone. Tell your people not to miss Judge Alden, whatever they do."

Similar testimonials have been received by the promoters from others who have seen various numbers which will be given on the local program.

The Covington, Ga., had the following to say about its Chautauqua: "It is our opinion that the Alkalest Chautauqua in Covington has helped our city more than anything we have had in years. A few reasons why we believe this:

"First: That it was a success from every standpoint.

"Second: That it brought people to our city that would not have come had it not been for the Chautauqua.

"Third: That we had brought to our own doors first-class entertainments that larger cities seldom have the pleasure of witnessing.

"Fourth: That it brought business to Covington that would not have come otherwise.

"Fifth: That we have had advertisement that is worth money to our city.

"There wasn't a single attraction given in our city without something was said about the splendid audience which attended. The attractions were appreciated, and we have enjoyed first-class entertainments for the entire week.

"There are usually three kinds of people that go to make the average small town—the ones who say, 'It can't be done'—they are not worth anything to a town. The ones who say, 'it can be done but I would rather not do it'—he is not worth much. But the ones who say, 'IT CAN BE DONE—LET'S DO IT,' are the kind that make a success at everything they undertake. It is our opinion that we have more of the 'LET'S DO IT' kind here than the average town, so let's have another chautauqua for next year."

STRIKE ENDS IN BELL COUNTY. The miners and operators of the Federal Coal Co., on Straight Creek in Bell county, adjusted their differences last week, and the mines at Straight Creek, Cary, Blanche and Castro were opened up Monday morning.
