

# THE DISCOVERER

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

Yours for Health  
Lydia E. Pinkham

No other female medicine in the world has received such widespread and unqualified endorsement.

No other medicine has such a record of cures of female troubles or such hosts of grateful friends as has

## Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, Inflammation and Ulceration, Falling and Displacement, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Local Weakness than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors in an early stage of development.

Irregular, Suppressed or Painful Periods, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility quickly yield to it. Deranged organs, causing pain, weight and backache, instantly relieved and permanently cured by its use. Under all circumstances it invigorates the female system.

It quickly removes that bearing-down feeling, extreme lassitude, "drowsy" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, dizziness, faintness, sleeplessness, flatulency, melancholy or the "blues" and headache. These are sure indications of Female Weakness, or some derangement of the organs, which this medicine surely cures. Chronic Kidney Complaints and Backache, of either sex, the Vegetable Compound cures.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

# GREAT SALE ON!

## Wall Paper Store Moved to 315 Broadway

We are now offering the best values in Wall Paper that have been offered. It will pay you to see the bargains we have to offer for the next few days.

- Wall Paper that is usually sold at 20c per roll we sell at... **15 cents**
- Paper that is sold at 15c we sell at... **10 cents**
- Paper that is sold at 10c we sell at... **8 cents**
- Paper that is sold at 8 cents we sell at... **5 cents**

We also carry a large line of Picture Frames, Mouldings and Window Shades, made to order, any size.

We carry a large line of Roofing and Building Paper, Canvas and Tacks.

People of good taste always come to us to find their wants.

## BILL IS CERTAIN TO PASS HOUSE

Hepburn and Cannon in Favor Senate Rate Measure.

President Now Will Turn Attention to Panama Canal and Hurry the Plans Along.

### NEWS OF NATIONAL CAPITAL.

Washington, May 21.—The house will put through the rate bill without much loss of time. The house conferees may "chew the rag" for a few days; to be in the fashion, but there is no inclination on the part of the leaders of that side of congress to balk at the changes made in the Hepburn bill since it left them. Representative Hepburn himself said today that although his pet measure had been somewhat disfigured while in the senate ring, it was still recognizable, and there was at least the satisfaction of knowing that a rate bill had gone through. Speaker Cannon exhibited a spirit of approval of the senate bill as it had gone back to the house, although he said that he had not read it.

Now for Panama! The canal is to receive the concentrated attention of the administration from this time on. Rate legislation of a character that is thoroughly satisfactory to President Roosevelt, and therefore to the friends of the principle involved, has been insured, and with this matter out of the way the subject of the big isthmian water way is to take precedence over the important things that have commanded attention since the opening of the present congress. Without loss of a day's time, steps have been taken to carry the program into effect.

### Japs Want Tobacco.

Of particular interest to the tobacco growers of Kentucky and Tennessee is the latest Japanese invasion of the United States by one, Mr. Abe of Tokyo, tobacco expert and government investigator. The Jap must have his smoke, and he particularly likes American tobacco, in large quantities of which he now imports. But in the island kingdom tobacco is a government monopoly and the mikado is therefore anxious to see the imports cut down, and the home production of this fragrant weed increased. For this reason Mr. Abe has been sent to this country to investigate our methods of growing tobacco, and these investigations, if successful, will result in a marked decrease in the exports of American tobacco to Japan. The Japanese expert, who is conducting his investigations at the Department of Agriculture, has made no secret of his mission, declaring that the failure of Japan to raise sufficient tobacco is due to the fact that its product lacked the pleasing aroma characteristic of the American product. He is now determined to discover a method of attaining this aroma. The Department of Agriculture is becoming somewhat alarmed over the menace to American tobacco growers and exporters which this investigation contains, to say nothing of those being carried on by officials of France, Spain, Italy and Austria. Its officials rightly fear that these countries, taking their methods from the United States, may curtail the exportations of American growers. To counteract this danger, there has been incorporated in the agricultural appropriation bill an amendment providing for an investigation with the view to improving the trade conditions in this staple in foreign countries. So after all, the investigations of Mr. Abe of Tokyo, instead of proving harmful to Southern tobacco growers, should prove of real benefit to them.

There is one place on the face of the earth where Carrie Nation would have no chance to use her hatchet, according to a consular report received at the State Department. That place is the city of Adrianople, in Turkey. In it whiskey is unknown. This fact alone is sufficient to report that there are no English or American residents, so that the people have as yet had no chance to take up the white man's burden.

The spectacle of a multi-millionaire asking congress for an increase of \$4 a month in his pension was afforded congress this week. The Croesus who believes that his military record would be the brighter for the luster of additional government gold is Dr. E. E. Beeman, the chewing gum manufacturer. He has been receiving \$5 a month, and asks that it be increased to \$12. While he does not claim Cleveland as his home, his address is given to the Pension Office as the Century club in that city, an organization maintained by some of the Ohio city's wealthiest men. No explanation is vouchsafed by Dr. Beeman why he needs this additional \$4 a month.

After much mental travail and nights of anxious thought, the comptroller of the treasury has handed down a weighty decision concerning coins to the amount of \$39.66 which were placed in the cornerstone of the House of Representatives office building recently. G. W. Evans, special disbursing officer for the interior Department, was undecided whether to honor the voucher of Superintendent Landis of the Philadelphia mint, because there was no special appropri-

## DIED SUDDENLY OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on *Materia Medica* for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or *Collinsonia Can.*, Prof. Wm. Paine, author of its Epitomy of Medicine, says of it: "A four year old patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him upstairs. He, however, gradually recovered under the influence of *Collinsonia* root, and is now attending to his business. Heretofore physicians knew of no remedy so effective of so distressing and so dangerous a malady. With them it was all guess-work, and it fearfully warned the effect of that death was near at hand. *Collinsonia* unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, and invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.

### Dr. Pierce's Pellets Cure Constipation.

Attention made by congress for this amount. In despair he turned the matter over to the Comptroller of the Treasury. That official has just placed his seal of approval on the expenditure, and both Mr. Evans and Superintendent Landis may now possess their souls in peace. Comptroller Tracewell declares the amount may be taken from the appropriation of \$980,000, made by congress for the erection of the structure. The time-honored custom of stuffing cornerstones with odds and ends of bric-a-brac, coins and old newspapers now having been legalized by the governmental "O. K.," the country can draw a long breath once more. —MAYO.

### Famous Strike Breakers.

The most famous strike breakers in the land are Dr. King's New Life Pills. When liver and bowels go out of strike, they quickly settle the trouble, and the purifying work goes right on. Best cure for constipation, headache and dizziness. 25c at McPherson's drug store.

Religion is a good thing, but it doesn't cut a very wide swath in a horse trade.

## A SPLENDID NEW SHORT STORY

### THE PHONOGRAPH GRAFT, By O. Henry.

#### STARTS TOMORROW

If you are not reading the series of short stories *The Sun* is now running you are missing some mighty good fiction.

The stories are short—running two and three days only, and are written by the best short story writers of today.

See the list of good ones ahead of you and make up your mind to read them.

## VALUE OF HORSE ON THE INCREASE

Automobile Has Not Entirely Supplanted Animal.

Number Has Increased Four Million in Ten Years and Aggregate Half Million Dollars.

### OUR USEFUL DOMESTIC BEAST.

A few years ago the trolley car began to displace the horse car. It soon became manifest that the displacement would become general. Many were led to anticipate the downfall of the horse, or, at least, a great decline in the value of horses, owing to their banishment from one field of usefulness. A little later came the automobile. It has commenced taking the place in the city of draft-horses as well as of the carriage horse. That led to predictions that the day of the horse was over and that the raising of them would be a decaying industry.

The horse refuses to go, and his value has advanced. On January 1, 1897, there were 14,364,000 horses in this country. On the first day of 1906 there were 18,718,000. In nine years there has been an increase of 30 per cent. The gain in the number of mules has been great, but not so large. In 1897 there were 2,215,000. This year, notwithstanding the heavy purchases made by the British government during the Boer war, there are 3,400,000.

The increase in the valuation of these animals is more surprising than in their numbers. The total value of horses has advanced from \$452,600,000 to \$1,510,000,000, and of mules from \$92,300,000 to \$234,600,000. It is hard to explain such an advance in value, except on the theory that the valuation in 1897 was too low or that for 1906 a little inflated. Even after making all allowances it is manifest that the value of the horse and mule has not been affected by the introduction of improved modes of locomotion.

One may rest assured that the 18,700,000 American horses are not eating their heads off. Those that are old enough are employed on the farms and in the city. The supposition that horse power might be supplanted by electric power was not well founded. There is so much work to be done in the United States that both kinds of power are needed, and probably always will be.

### Saddle Horses at the Top.

From *Farmer's Home Journal* of May 5, we note that Col. David Castleman of Clifton farm, near Louisville, has sold the 3-year-old saddle stallion "The Moor" No. 1907, to Gen. Wm. Palmer of Colorado Springs for \$7,500.

"Another good sale of Kentucky saddle horses was made in New York this week. The consignment was from Shelby T. Harbison, of Lexington. The top price was \$1,250 for the gelding, Little Acorn. Big Oak brought \$1,025. The pair, Escort and Gallant, sold for \$1,250. Ben Greet brought \$700, Tolu \$900 and Senator \$700."

Also that "At Durand's New York Horse Show, in the saddle class, Pattie Palmer won first. She is by Chester Dare No. 10, fourth dam by Du-Juth." This saddle blood, in its highest perfection, is represented in this section of Kentucky by James M. Lang's horse Rebel Dare No. 1834, by the great Chester Dare, dam by a son of Red Squirrel, second dam by Duluth. Rebel Dare, while the highest bred horse, is also said to be the best saddle horse in Jackson's Purchase.

### A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for sore lungs, coughs and colds, at McPherson's Drug Store. Price 50c and \$1.00. Trial bottle free.

Your Summer Vacation can be pleasantly spent at Waukesha, Waupaca, Fifeled, or at one of the other hundred resorts reached via Wisconsin Central railway.
