Young Men Purchase Women's Shoes, and Trade is Increasing in Paducah

President Roosevelt would designate as "Mollycoddles", more than those young men who have a "sissy fascination for girls." The fall and winter announcement of men's styles said the New York dandies would wear corsets the better to show off or add to the charms and graceful outlines of their physiques. Along with this usurpation of woman's toilette, an inquiry among local shoe stores reveals the fact that they have a steady and regular sale of women's shoes to men.

Some of the styles in women's shoes in the larger sizes, while retaining a distinctly feminine shape, are made strongly along masculine lines. Many women like the manish touch to their footwear and the sale on them has grown steadily, since their introduction. This half feminine, half masculine shoe affords the opportunity for the young men whose feet are small, to get a shoe that no strictly men's line affords. The shoe dealer says that they have to reckon with this growing element among young men, who like to be the fashion plates for their acquaintances.

"We have a number of young men customers," said one shoe dealer the other day, "who won't wear anything but women's shoes. Not only the men's shoes which are built along masculine lasts are in demand. Many of them want the delicate shapes of the purely feminine lasts and they squeeze their feet into sizes that render all criticism of woman's love for display, and blind following of style, unfair. These are the young men who wear the latest wrinkle in ties, in collars and who generally take the exaggerated ideas of any legitimate style. They like to show

their small feet off before the girls. And some of the shoes are so made that you can't tell they're women's shoes, without looking closely. The heel usually gives the shoe away as they are a shade longer in women's shoes. The toes are more pointed, too. Of course shoe men can spot them every time but the public and their girl friends think they have simply smaller feet and know where to get smarter shoes than the men who wear the regulation shapes.

Foreign express companies are taxed one-half of 1 per cent, on their gross earnings in the province, the tax to be not less than \$800 annually. IMMIGRATION

SUBJECT OF PROLONGED CONFERENCE AT WHITE HOUSE.

Southern States' Representatives and Cabinet Discuss the Question.

Washington, March 14.—An important conference on the subject of immigration was held at the white house. Attorney General Bonaparte, Secretary of Commerce and Labor Strauss, Commissioner General of Immigration Sargent, Commissioner of Labor Nell, Assistant Attorney General Cooley, Secretary Foster, of Louisiana, President Gompers, of the American Federation of Labor, D. A. Tompkins, of Charlotte, N. C., and former Mayor Smythe, of Charleston, S. C., were among those who participated in the exchange of views with the president.

The conference which was a sequel of that of yesterday, in which the matter of "assisted immigration" in South Carolina, was discussed, lasted two hours. Every phase of the southern immigration problem was discussed.

The question raised by several states in the south bearing on the labor problem, the need for the present of bringing foreign labor from abroad to work in the mills in those states, the recent decisions of the attorney general and the secretary of commerce and labor on the subject, were taken up, and a general understanding was reached as to the application of the present immigration law, and the new law that is to take

effect July 1 next to the situation in the south.

While no statement was given out, the discussion bore largely along the same general line as at the meeting yesterday, and there was the same satisfaction expressed as to the outcome, the decision indicating on the one hand that the new law would not deprive the states of any rights already conferred, and that the construction of the law as given by the attorney general was satisfactory; and on the other hand that the states have no desire to go beyond the law in assisting immigration, and that they expect after a short time immigration will naturally drift to the ports of the south.

MODIFIES COAL LAND ORDER.

President Roosevelt Directs That 28,000,000 Acres Be Opened.

Washington, March 14.—In a letter to Secretary Garfield, dated today, President Roosevelt has directed a modification of the orders issued under his direction last year, withdrawing certain lands from coal entry. Conformably to the president's directions, about 28,000,000 acres of coal land will be immediately opened to entry, with other lands to be opened as rapidly as the geological survey can make proper examinations.
