# CORTELYOU SEES BIG DIFFERENCE

Will Take Care of Business Interests But Not Wall Street

Policy of New Secretary of Treasury Outlined and Favors To Be Eschewed.

# ALDRICH ACT IS FOLLOWED

Washington, D. C., March 14. —A definite outline as to the essentials of the policies intended to be pursued by Secretary Cortelyou at the treasury department were learned today from an authoritative source.

Mr. Cortelyou will not go as far as did Secretary Shaw in using the government funds to alleviate tightness in the money market. It is not meant that Secretary Cortelyou will refuse to do all in his power to help conditions when general business interests demand it. The government moneys will be shifted and used, for instance, to assist the banks in the crop moving period, but Mr. Cortelyou plans to draw a line between business interests and the interests of stock manipulators.

To Cut Off All Favors. Also, it is known Mr. Cortelyou's first step as secretary has been to start quietly an inquiry to ascertain whether the National City bank of New York, the principal Standard Oil banking institution, has enjoyed advantages at the treasury department in the past. The manner in which these advantages were obtained is being looked into with the purpose of insuring a square deal in the future. Secretary Cortelyou expects to use only the latitude allowed by the Aldrich act passed in the last days of congress to give elasticity to the currency. It was announced today that all depository banks will be allowed to retire, at their direction, an aggregate of \$9,000,000 a month of bonded circulation until further notice.

Attention, however, is called to the circulation of October 22, 1906, issued by Secretary Shaw, authorizing national banks having government deposits secured by United States bonds to substitute approved state or municipal bonds to the amount of \$18,000,000 provided the government bonds so released were used for additional circulation be retired at the rate of \$3,000,000 a month after March 1, 1907. Banks which took advantage of the circular will be required to make their retirements in compliance with its terms.

# DENEEN PROCLAIMS HOLIDAYS

Designates April 26 as Arbor Day and May 13 as Jamestown Day.

Springfield, Ill., March 14.—Governor Deneen today issued a proclamation designating Friday, April 26, as Arbor and bird day, and also designating Monday, May 13, as Jamestown day. The latter is in commemoration of the three hundredth anniversary of the permanent settlement of the English at Jamestown, and the schools of the state will hold exercises.

# HUB PERDUE MAKES HIT. Plays With Pelicans and Pitches Kind of Ball That Wins.

"Hub" Perdue, the former Kitty league pitcher of the Vincennes team, is being looked upon by Chicago sport writers as a comer. He is trying out with the Cubs at New Orleans and making a sensational debut.

In a game Sunday, Perdue played with the New Orleans team against his club under the name of Long. He was successful in keeping Frank Chance from getting a hit off of him. Of the boy a special correspondent

to the Chicago Tribune said Monday: "Hub Perdue flashed into the limelight but on the wrong side. Hub went over to the enemy and worked three rounds with more or less success. The Pelicans were shy on pitchers, so Chance loaned them the recruit for a workout. "Hub wore no label of any kind. The fanatics didn't know him and yet the Cub was cheered on general principles. He is that sort of an athlete always winning friends regardless of conditions. In the three rounds he worked Hub was hit seven times. The six runs broke out in the sixth. The infield and outfield got together and blew upon the youngster. Hence

the disgusting outburst of taillies; Johnny Every stole home in the sixth but Hub would have nabbed him had not the catcher sidestepped the ball. "There is one diadem in Perdue's crown. Chance couldn't hit him, and Hub is feeling good on that account. Right off the reel he put two strikes on that famed slugger and then made him pop an easy one to third base. Steinfeldt lit on a dining room ball and the hit came near blowing Hub's roof away. "Say, man," he howled, "they never did hit them at me that way in the Kitty league."

Conduct is crystallized character.
