At the hearing it developed that 18 out of 150 wives had been found, identified, and had related their stories to Captain of Detectives Donahy. For the sake of their reputations their names were kept secret.

Mrs. Jennie Matthews, of Buffalo, N. Y., gave Williams a surprise. She said it cost her \$1,400 to know him. She said: "He told me that he had property in New York and California. I loaned him \$1,000 before we were married, and one day he said he had to go down to New York to dispose of some of his realty. He said I might as well go along, so that we could be married, and I did so."

Sanders, President McCracken Real Estate and Mortgage Co., Office 318 South Sixth street, Phone 765. THEY DICTATE. Stenographic Clerks Become Valuable to Government. Washington, April 18.—The chief clerks of the nine executive departments in Washington have just completed, for the first time, an accurate census of the stenographic clerks employed in the various departments. The report of the civil service commission shows that during 1906 there were 2,653 persons examined for this service, of whom 1,870 were men and 783 women. Of these 708 men and 335 women passed, of whom 410 men and 67 women were appointed. The usual entrance salary was \$840 to \$900. The highest salary possible for a stenographer to attain is \$1,800. The secretary of the commission says that stenographic clerks in the government service usually become so useful that, instead of being employed in taking dictation, they are employed to dictate. There is a dearth of the higher grade of stenographic employees. The total number so employed in the executive departments is 1,568, and 25 per cent. every year go out of this work into some better work. "It takes a great deal of intelligence to amass a colossal fortune." "Yes," answered Mr. Dustin Stax, "and a lot more to know just what to do with it when you've got it."—Washington Star.
