THREE EVILS

MORMONISM, SOCIALISM AND SABBATH DESECRATION.

Dr. G. T. Sullivan Begins Series on "Our Country—Its Perils and Its Needs."

Socialism, Mormonism and Sabbath desecration are three leading perils which the United States now faces, Dr. G. T. Sullivan said last evening at the Broadway Methodist church, in the opening sermon of his series on "Our Country—Its Perils and Its Needs." Dr. Sullivan was heard by a number of office-holders and candidates and a large congregation for the hot evening.

Socialism, he said, was especially dangerous to our institutions and ideals and he believed it the duty of ministers to warn the people of its menace. Its leveling idea is destructive, he stated, of the three cardinal principles of our country, life, liberty and freedom of material pursuits. Mormonism, Dr. Sullivan thought was striking at the vitals of the republic. If its polygamous teachings are continued, Desecration of the Sabbath he believes is wide-spread and growing, and unless checked likely will precipitate civil strife, as there is one element of the population that will not see the institution abolished without a mighty protest. Three more sermons along this line will be preached on Sunday evenings by Dr. Sullivan.

BOLIVAR PONDEROUS BRUTE. His Heart and Liver Weighed Heavily Even for an Elephant.

New York, Aug. 3.—Bliver, the most vicious and largest elephant in captivity, which died at the Zoo Friday, had a heart which weighed 47 pounds and liver weighing 200 pounds. The human heart weighs 2 pounds and the liver 8 pounds. Boliver's ponderous internal machinery was weighed today when taxidermists began to strip the huge bulk preparatory to mounting it in the building of the Academy of Natural Science.

Boliver was taller than the famous Jumbo, and weighed much more. Doctors are of the opinion that he died of old age, and that it was hastened by lack of exercise, which was the necessary consequence of his imprisonment. His imprisonment was necessary because of his vicious character.

The only man who had lately succeeded in making Boliver acknowledge him as master is "Ed" Thompson, a large colored man, who is now dangerously ill in the Presbyterian hospital. The news of Boliver's death was a severe shock to him.

Prof. William Lawrence, of Maxon Mills, has returned home after attending the state normal school at Bowling Green.

Graves County Tragedy. Because Otto Henry shook the buggy in which he was sitting, Stanley Jones, residing in the south part of Graves county, shot Henry through the stomach, and Henry will die. The young men, neither of whom is past 20 years old, were with a party indulging in a spree south of Mayfield. They had not previously quarreled, but Henry approached Jones' buggy and violently shook the rear wheel against the protests of the occupants. Jones warned Henry that unless he desisted he would be hurt; but Henry retorted in kind and persisted. Then Jones drew his gun and shot Henry twice at close range, both shots taking effect.

An Egg Test. Some folks who were going on a picnic got one raw egg mixed up with the cold boiled ones and did not know how to detect it without breaking them all. A visitor was equal to the emergency. He took an egg between his fingers and his thumb, he twirled it on the table, and it spun like a top. "That egg," said he, "has been boiled." Another was tried with the same result, and then he found one that he could not make spin.

"That," said he, "is the raw egg." And so the puzzle was solved.—St. Nicholas.

Sentiment and Summer Mixed. Nothing is more beautiful in the myriad phenomena of summertime than the swift response of the grasses in some delectable valley, where they are all in their joyous blossoming and fruiting, and among them are shining with gorgeous color the meadow lilies and the tall cups of their kindred at the edges of the woods and over the borders of the brooks. It is like a scene of enchantment, and the song-sparrows and orioles, the boblinks and the gay catbirds are the choir of minstrelants at the worship of God. All this we have had, and pervading all the fervor of the splendid sunlight moves the inciting fragrance of the pines and the ferns, the sweet fern and the sunmuchs, drawn forth by these ardent sunbeams. The summer gives generously, goldenly of its infinite wealth, and thereby stores our senses with such delights as they remember and recall when sight is both a memory and a prophecy.—Springfield (Mass.) Republican.

A Musical Spider. The extraordinary musical sensitiveness of spiders has several times been proved. Everyone has heard of Pellissier's spider. Consoler of the unfortunate prisoner, it perished because it listened too closely to the captive's violin. The jailer saw it and crushed it brutally.

Gretry, the composer, speaks of a favorite spider which descended along its thread upon his piano as soon as he played it. When giving recitals at Brussels, Rubinstein saw a large spider issue from the floor of the platform and listen to the music. He gave three concerts at the same hall, and on each occasion the spider appeared.—Paris La Revue.

It is a good deal easier to shut out the sight of the world's needy than it is to evade your answerability for them.—Chicago Tribune.
