TEMPERANCE IN THE CONFERENCE

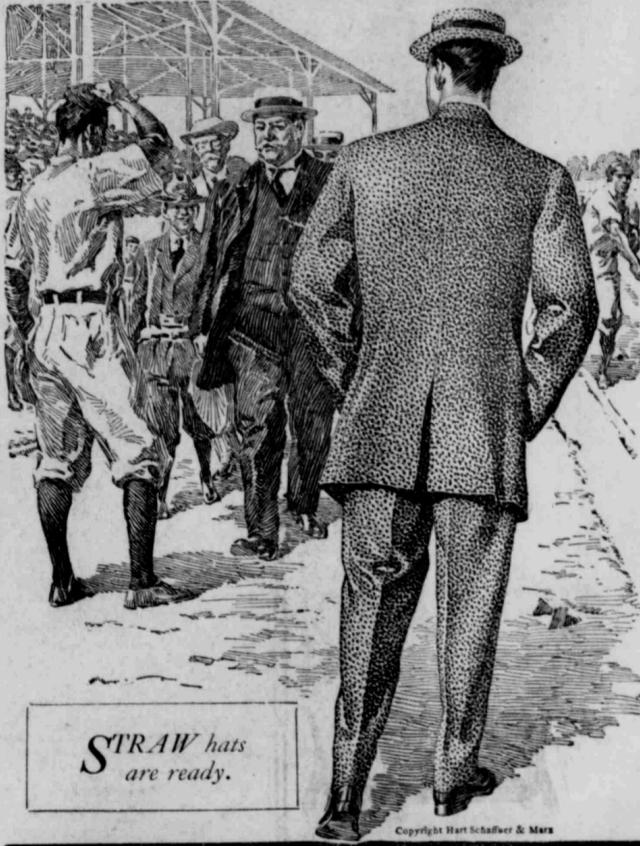

ANCIENT COMMITTEE IS REVIVED THERE.

It is Not Thought Possible That Eight Bishops Will Be Elected.

THE NEWS FROM ASHEVILLE

Asheville, N. C., May 6.—State-wide was injected into the proceedings of the Methodist general conference for the first time since the body convened, and one could close his eyes and almost imagine that he was back in Kentucky, for names that are familiar in every household in that state were called, and anathema hurled at two distinguished gentlemen—Gov. M. R. Patterson and Hon. Henry Watterson.

No backward step was to be taken, for Kentucky was going dry, despite the efforts of the venerable Marse Henry and the backing straps of Governor Willson.

THE President attracts a lot of attention wherever he goes; he ought to; being President is important. The well-dressed man doesn't get so much attention as that.

But we're all more interested in our President for what he is than for what he wears; that's the way we ought to feel about all men.

The majority of us, though, are deeply influenced by the clothes. The influence will be for good if you wear

A Gibson Sanitary Refrigerator for \$19.50

Stop and consider a moment—is there anything you care about your home of more importance than your refrigerator?

Into it goes, for preservation, a large portion of the food you eat. Suppose your refrigerator does not properly preserve—that it isn't perfectly dry—that it hasn't a cold interior.

Such conditions breed disease and such is the case in a cheap, poorly made refrigerator. The Gibson is not that sort—it preserves perfectly.
