

THE BIDS OPENED FOR LANG PARK

The Contract Will Not Be Let For A Few Days.

The Boards Find a Big Sentiment Existing for the Park Bond Issue.

SEEMS TO BE IN GREAT FAVOR.

The board of park commissioners met yesterday afternoon, opened bids for building concrete walks in Lang park, and adjourned without letting a contract. Bids were made by Robert Boswell, W. B. Milne, city, and the Memphis Asphalt and Paving company. Each bid on the work per foot, and the commissioners will decide the amount of work to be done before the contract is let.

The board also canvassed the situation in regard to the bond issue which is to be voted upon at the election November 6th, and from the reports made the issue is a very popular one. The board will, in all probability arrange for some speaking dates in each ward of the city to put the proposition before the people clearly, as it finds, from the reports, that some people do not understand it.

The board feels that if the people know that the parks won't cost them a cent in taxation and that it will arrange to take care of the bond issue out of the yearly appropriations which the law gives it that there is no doubt of the issue carrying.

It is popular in all circles and there is hardly any doubt of its carrying. The laboring men and the business men are lining up for it, and where thoroughly understood all voters seem to favor it.

A real estate man said today: "The increase a system of parks as is proposed for Paducah,—a park in each ward, will by the increase of the property value, take care of the appropriation each year. The money invested in parks is the best possible investment that could be made, as the park property, instead of depreciating value as most public improvements do, will be worth double in twenty years. I am heartily in favor of the bond issue."

SHOT GUN PATROL

PROVES A SUCCESS AS DETERRENT TO COAL THIEVES.

Coal Pickers Are Now Conspicuous by Their Absence in the Yards.

The "shotgun patrol" established in the local Illinois Central yards by Special Policeman Dick Tolbert has proven a success and there is a conspicuous absence of coal pickers in the yards, especially those of juvenile class.

"I shot only one coal picker and I will tell you he certainly did run," the policeman related. "He was a boy of about 15 years and had a basket and push cart stealing coal. I used beans in my shot gun and let him have both barrels. He screamed and started running. I think he is going yet."

In his haste the negro dropped his cap and never once stopped to regain it. The policeman has it as a souvenir of the first action of the "shotgun patrol."

The police are looking for a "ginger color" negress carrying a package with the Harbor firm name on it, and a box of shoes from the Lendler & Lydon store. They want the shoes particularly, and also an explanation as to why the woman confiscated them.

This morning at 10 o'clock Mrs. Joseph Mattison left the Lendler & Lydon shoe store with a pair of shoes she had just purchased. The next stop was made at J. R. Roberts' dry goods store where Mrs. Mattison laid the shoes on the counter near the front. The negro woman was standing near. The shoes were missed when Mrs. Mattison returned from the rear, and so, also, was the negro. No one saw the theft, but as the negro was the only person in the store at the time, she is suspected.

Notice to Owls.

The Owl lodge is called to meet at the old Elk hall on North Fourth street Thursday night.

BOYS AND GIRLS

Write Us a Verse or Story on

Wallerstein's Bells Prizes for the Best Two

Probably, every man, woman and child in Paducah knows of the great success of our "at home" last Thursday, and the hit we made with our souvenir bells.

You could see, and hear them all over the city; the aldermen were disturbed in their deliberations, and called on the chief of police to quiet the racket, and many a sleeper awakened by "the tinkle of the bells," Wallerstein's bells.

The incident was deemed worthy of notice by the newspapers and has suggested an idea to us. We want a composition, or story, as the newspapers call it, or a verse upon it, and shall offer two prizes of five dollars in gold each for the best article written by a girl and the other for the best article written by a boy. The composition to contain two hundred words or less.

The contest is open to every school boy or girl in Paducah, and the contributions must be in our office by Saturday at noon. Mr. K. B. Willson, editor of the News-Democrat, and Mr. L. V. Armentrout, of The Sun, will be the judges, and make the awards, and the prize contributions will be published early next week.

Read the announcements of the opening in the afternoon papers of Wednesday and Thursday, and the newspaper comments on the incident in Friday's papers for material for your composition.

Quality Talks!

"Quick Meal" Steel Ranges Means Quality

Quality is most essential in buying a Range. If the Range lacks quality it is bound to prove unsatisfactory.

It is a positive fact that a good range cannot be built at a price less than the Quick Meal Steel Ranges, are sold for. If the price is lower the quality must be cheapened, and the range cannot last.

We've built a reputation through our Quick Meal Steel Range, and we are going to hold this reputation by keeping the quality as heretofore. Quick Meal Steel Ranges are not made to meet cheap competition or gaudy imitations, but to outlast and give better service than any other Range on the market.

Quick Meal Steel Ranges more than justify the difference in cost, through the amount you will save on repairs, should you purchase a lower priced one.

422-424 Broadway

Cochran Shoe Company 435 Broadway

"Fine" needs emphasis when describing the Hanan Shoe. Other shoes have borrowed the word and abused it.

Let's say "satisfaction" instead—satisfaction based on fit, comfort, style and service.

That's what you get with every pair of Hanan Shoes.

Low-priced, we think, for what they offer. \$5.00 and up.

For men and women.

One pair sells another. That's quality.

YOUR FIRST THOUGHT

When dwelling on the Plumbing or Heating question is: Who's the best to see? Ask your neighbor. Oftener than not he will refer you to

COLE'S ORIGINAL HOT BLAST=THE CLEAN STOVE

Cut No. 1 Shows how Dustless Ash Cover is used—the modern method. (Patented)

DUST PROOF
Cole's Original Hot Blast is the cleanest stove ever placed on the market. Our method of removing ashes shown by cut No. 1, is perfectly clean and overcomes the many objections to the ash pan used in other stoves. The elbow draft casting with its upward slant allows the empty coalhod to be set under the draft so that no ashes or coals can be spilled on the floor. Our patented dustless ash cover shown by illustration is furnished free with Nos. 122, 123, 182 and 196 stoves. It keeps down every particle of dust in removing ashes, a feature that will be appreciated by every tidy housekeeper.

Ash pans when used in other stoves are too small to hold a full 24 hours' accumulation of ashes. They are usually over-filled when removed, and the ashes in the bottom of the stove are dragged out on to the carpet, as shown by cut No. 2. You are all fam-

iliar with the ash pan method, and have, no doubt, gone through the process many times of spreading a newspaper or cloth under your stove every time the over-filled pan is removed.

The ash pan is not only dirty, but is a great evil in stove construction. It adds a door and joints which can be made only temporarily air-tight by the use of stove putty. These joints open after a few weeks' use, rendering ash pan stoves worthless as fire keepers, and makes them fuel-eaters rather than fuel-savers. The ash pan and the shield for guiding ashes into the pan, also prevent base heat.

Our method is the only clean way. The whisk broom, turkey wing and dust cloth are dispensed with. There are no joints to leak air, base heat is not retarded and Cole's Hot Blast is the cleanest stove, the best floor heater and the only stove in the world which can be guaranteed to remain always air-tight.

SMOKE PROOF

The feed door on this stove is guaranteed smoke proof and does away with the escape of smoke, soot and gas into the house. Side feed doors used on other stoves discharge a cloud of gas and soot-laden smoke into the house and scatter soot and ashes over the carpet when opened.

Another point: In feeding coal into a side feed door it has to be thrown into the stove, which usually results in scattering much of it over the floor. With our cleanly smoke proof feed door the coal is poured into the stove even to the dust in the bottom of the hod without a particle being spilled on the floor.

This clean and economical stove burns the gases which often escape into the rooms with other stoves. The annoyance and dirt from kindling new fires is dispensed with, as the rooms are heated up for two or three hours each morning with the fuel put in the night before and the fire is Never Out. COLE'S ORIGINAL HOT BLAST is the cleanest stove made and will more than save its cost in fuel each winter.

Cut No. 2 Shows the dirty ash pan method
