TUESDAY, JAN. 15, 1901.

Senator Hoar was unanimously re-nominated for re-election by the Republicans of the Massachusetts Legislature. The Democrats nominated Richard Olney.

The general belief is that the supreme court will, when it decides the questions now up, sustain the government in all its positions relative to the country's island possessions. This idea has been strengthened by the court's decision concerning the extradition of Neeley, the Havana fraud.

How forlorn the future must seem when, after living 108 years, a man surmises that "the people are not of his own race." Thomas Ward of Baltimore, whose good or bad fortune it was to live that long, when asked for his opinion of the world gave that as his chief charge against the present day and generation.

The Philippines evidently have their attractions and afford some business openings. One hundred and thirty of the enlisted men and twenty of the volunteer officers of the Thirty-seventh volunteer infantry, which sailed from Manila for home on the 10th, preferred to take their discharges and remain on the islands, where most of the men have secured positions paying \$75 per month, while the officers have details connected with government business.

DEMOCRATIC MUNICIPAL RULE.

One of the New York papers has just published a comparative statement of the increased cost within three years of municipal government in New York city. The average annual expenditures of the city are shown to have gone up from \$70,000,000 in 1898 to \$98,000,000, the estimate for the present year. What New York is getting for the annual expenditure of this enormous sum is a succession of Tammany scandals, a system of horrible spoils in which the chief actor is re-elected vice. It is asserted on good authority that the gambling houses of New York pay \$1,700,000 a year to be let alone. Stories of brutality in the city's largest hospital have multiplied of late. Leading members of the Tammany organization are accused of taking an immense toll from dens of crime of all kinds. Their subordinates are in the same line of business according to their opportunities. Public improvements cost far more than is paid in private contracts. Assessed valuations are subject to secret bribery. The developments are called astounding, but are not more surprising than the toleration of such villainous extravagance by a city of 600,000 voters.

GREATEST IMPROVEMENT.

THOUSANDS OF SCHOOL CHILDREN IN CUBA AGAINST A FEW THREE YEARS AGO.

New York, Jan. 15.—A. E. Frye, of Highland, Cal., who has just returned from Havana, where he spent two years as superintendent of public schools in Cuba, said last night: "There has been a great improvement in the condition of schools in Cuba. While there were not more than 10,000 pupils in 1897, there were 142,000 in May, 1900. The highest number ever registered before the war was 234,000, and the attendance never exceeded 17,000. There were no public schools in reality, under Spanish rule, and the school property had little or no value. Recently General Wood got the idea that many of the schools reported by me, and for which money was being drawn, did not exist. He gathered this by information submitted by subordinates. In my reports I reported the number of pupils, school rooms, while the military officers counted only the escuelas, school houses, thus confounding matters. But I soon explained the facts to the satisfaction of Gov. Wood. "Under the system I have inaugurated no fraud is possible in the schools of Cuba. Under the old system there were ninety-four professors under pay in the University of Havana, where there were only 335 students."

Mr. Frye says that the Cuban children are very apt pupils and learn with great rapidity.

A negro and a white man committed an atrocious crime at Gorham, Me. A farmer was killed and his aged mother brutally assaulted. The motive was robbery, which was accomplished. The negro is believed to be under arrest.

RELIGION OF THE RULERS.

THEY ARE OF VARIOUS FAITH, THOUGH MOSTLY CATHOLICS.

The religion of the head of a state or nation is usually the predominant belief of the nation itself.

Queen Victoria, as devout a Christian as the humblest member of the Church of England, is a great lover of hymns.

Wilhelm, the young and energetic German emperor, is a sincerely moral and religious man. He is a Protestant, believing in the tenets of Luther.

The husband of Queen Wilhelmina of Holland will surely be a Protestant, for she is herself a Protestant, and most regular worshipper in the Dutch church. Moreover, the law of her land will not permit her to marry a Catholic.

King Christian of Denmark, though personally inclined to the Lutheran church, holds most liberal religious views regarding his people and members of his family.

King Oscar II. of Sweden is of the Protestant faith, a practical Christian, and an ardent student of the bible.

Switzerland's president, Col. Edward Moller, is a Protestant and a member of the Church of Berth. He worships simply as a private citizen.

President Kruger, of the South African republic—if he can be called the president—is of course a member of the Dutch Protestant church.

The Emperor Francis Joseph, of Austria, is a devout Catholic.

M. Loubet, the most democratic president of France has known, is a Catholic.

King Victor Emmanuel, of Italy, is a Roman Catholic.

Charles I. of Italy, is a Roman Catholic.

Alfonso, the boy king of Spain, is a Catholic, his mother, the queen regent, attends mass every Sunday.

Leopold, king of the Belgians, is a Catholic.

The czar of Russia, the only layman of the Orthodox Russian church who is allowed to step foot into an altar, has his private chapel in both St. Petersburg and Moscow.

King George of Greece and Queen Olga are both devotees of the Orthodox Greek church. Their private chapel in Athens is one of the prettiest in Greece.

Nicholas, ruler of Montenegro, also lives according to the teachings of the Orthodox Greek church.

King Carl of Romania and his queen belong to the same church, as does Prince Ferdinand of Bulgaria.

King Alexander of Serbia is of the Orthodox Greek faith.

The Sultan of Turkey is an extreme Mohammedan.

The Khedive of Egypt and all his family are also of the Mohammedan faith.

The sultan of Morocco, a young man only 18 years old, is of the Mohammedan faith.

Mendlik II., king of Abyssinia, goes to his native church every day in the year. Christianity was introduced into his country in the Fourth century.

The king of Siam is a Buddhist, and was for some time a priest.

The emperor and empress of Japan are disciples of Shintoism, the faith of their ancestors for centuries back.

Among monarchs the emperor of China is the greatest martyr to religious ceremonies. Altogether he spends more than 150 days a year in religious duties.

President McKinley is in every sense of the word a christian—regularly attending service at the Metropolitan Methodist Episcopal church.

The presidents of the Fourth and Central American republics are nearly all Catholics, but only a few of them attend divine service.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney Co. Testimonials free.

Sold by druggists, 75c. per bottle. Hall's Family Pills are the best.

WIRELESS TELEGRAPHY.

INTERESTING EXPERIMENTS WHICH SHOW THE SCIENCE IS GROWING.

Consul Roosevelt at Brussels reports to the state department that a station has been established at La Panno, Belgium, for the exchange of wireless telegraphic messages between Belgium and England. La Panno was selected on account of its being the point of the Belgium litoral nearest the English coast and a mast of the Marconi system 130 feet high was erected there. The Dover Ostend mail boat Princess Clementine was fitted up with temporary apparatus for use in experimental trials. An additional mast was affixed to the foremast of this vessel, increasing its original height about sixty feet. From that extremity the telegraphic waves are projected toward each coast. A special room has been fitted up on the steamer for the instruments and from that room the cable is carried to the top of the extended mast. It is confidently expected to maintain communication between ship and shore for at least thirty miles, which is about half way across. With stations at La Panno and Dover those on board the vessel will be able to keep in touch with the land during the entire trip across.

Recent experiments showed that replies arrived with the same regularity and celerity as ordinary telegrams. When about forty miles from Ostend the captain was able to telegraph the station master at Ostend the probable hour of his arrival. Various telegrams were sent from the vessel to Ostend, Brussels, Dover and London, and the reception of each message was acknowledged promptly. Subsequently, the consul adds, a message was sent from the vessel to the station at Dover coast, Essex, a distance of nearly ninety miles, including many miles of cliffs and sea.

THE PRESIDENT'S TERM.

In suggesting two reforms in the electoral system—one providing for extending the presidential term and the other insuring that the presidential candidate with the largest popular vote shall get the office—ex-President Cleveland touches on problems which very likely will have to be solved during the century, says the New York Sun, which adds: "As the new system of government grows in the extent of its operations and as the burdens resting upon the government become more and more cumbersome the need for such changes will increase. Already, as Mr. Cleveland points out, the four years term gives a president little more than a chance to inaugurate policies of state. Of their four sessions of congress in the term, two are so brief as to admit of little more than the passing of the necessary appropriation bills. The first comes at a time when the president is new in his office and has many incidental problems to consider. The last falls at a time when political consideration as to the forthcoming election tend to hamper legislation. "Neither of Mr. Cleveland's sug-

gestions is new, but as time goes by new reasons for considering them arise. Whatever may be thought of the proposition to make the election of the president dependent upon the popular vote, there is now, more than ever, good reason for weighing the advantages to be gained by a lengthening of the presidential tenure. A president holding office for six or seven years, say, and ineligible for re-election would have time to formulate and carry out a definite policy. The nation would be spared the recurrence every four years of the disturbances created by a national campaign. Far more than all, perhaps, is the fact that the incentive to defer to questions of political expediency would be removed. The highest personal ambition of the president would be to make his one term of office the best possible for the interests of the country, even if his course met the disapproval of the leading party bosses. He would have no inducement to curry favor with partisans for partisan purposes, and they in turn could bring to bear far less influence upon him."

That the need of a constitutional amendment permitting this extension of the presidential term is steadily growing is the opinion of many careful observers of American conditions.

WIRE SPARKS.

Advices from Panama received in Jamaica tell of a state of terror there following an attack by the rebels. The people are said to be disheartened by the government's failure to crush the rebellion.

Walter S. Rainey, clerk of the circuit courts at Nashville, was arrested Sunday on a charge of embezzlement. It is alleged that a shortage of \$25,315 has been found in his accounts.

The budget for 1900 of the Russian minister of finance shows a surplus in the ordinary estimates of 3,443,450 roubles. He says events in the far East have required 61,900,000 roubles.

A number of Filipinos have been sentenced to be hanged or to serve long terms of imprisonment for the murder of defenseless Americans and natives.

N. H. Frazier, of Union Springs, Ala., has offered a reward of \$500 for the return of his kidnapped son, dead or alive. There is still no clew.
